The Huron Signal.

JUL 29 1943

ESTABLISHED IN 1848.

THIS is the oldest journal published in the County of Huron, or in either of the adjoining Counties, and is devoted to Liberal Politics, Literature, Agriculture, Commerce, etc. It has enjoyed a very large circulation since its commencement by the late Thomas McQueen, and was never so widely-spread amongst the most wealthy and intelligent class of readers as at the present time. Its circulation is, in fact, equal to at least any two of the other papers published in the County; and from the fact that it is sought after for all announcements of a public nature, as well as for reliable local news, it presents an admirable

ADVERTISING MEDIUM.

A glance at its columns will convince any one that its value in this respect is FULLY APPRECIATED BY THE BUSINESS PUBLIC.

We have regular correspondents in all parts of the County, who furnish us with everything of interest, and all Court proceedings, meetings of County Council, etc., are fully and carefully reported—when necessary in phonographic short-hand—as are also political and other public meetings. The Reformers of Huron and Bruce are earnestly invited to give the Signal their hearty countenance and support. Terms, \$1.50 per annum, in advance; \$2.00 at end of the year.

Rates of Advertising:—First insertion, eight cents per line; and two cents per line for every subsequent insertion. Small advertisements of a few lines, \$1.00 for four insertions. A liberal discount to merchants and others advertising by the year.

The Office is fitted up with every requisite for turning out superior

JOB WORK AT TORONTO PRICES.

We employ two large jobbing presses, and a Ruggles' Printing Machine, which enables us to turn out Cards, Bill-heads, etc., at surprisingly low prices.

W. T. COX, Editor and Proprietor.

P R E F A C E .

This edition of the County of Huron Gazetteer and Directory is respectfully presented to the public with a sincere hope that it will meet with favor at its hands, and that the compilers will receive that consideration due to an earnest desire on their part to make the book as reliable as possible. Information has to be obtained from so many different sources that errors will unavoidably creep in, and whenever such may be found it is to be hoped the public will generously overlook them.

The publishers desire to present their acknowledgments to the members of the Press in the County, the County Clerk and many other gentlemen for the kindness experienced at their hands both by themselves and agents.

To the advertisers and subscribers especial gratitude is due for the very liberal support given by them to the enterprise from the commencement.

Adkins, the agent of the above named denomination, was appointed by conference, to establish a mission in this section of the country. He was the first minister stationed here by any branch of the great methodist family. His zeal prompted him to make almost superhuman efforts, to spread the truth among those, who would otherwise have been without the gospel. Cheerfully submitting to the most severe privations, he was kindly permitted to preach in the house of Mr. Ainley (now deceased,) after whom the village received its name. Afterwards he had appointments in the school house.

ORANGE. L. O. L. No. 766 meets in the Orange Hall on the Monday before each full moon. John, Messer, W. M; John Thornton, Secty. TEMPERANCE. The I. O. of G. T., Blue Vale Temple No. 514 meets in the school house every friday evening.

The village contains three churches, viz: The Canada Presbyterian Church, Wesleyan and Primitive Methodist Churches, Bluevale, Wingham and Eadie's. The congregation of Bluevale in connection with the Canada Presbyterian Church was, up to 1862, under the pastoral care of the Rev. W. C. Young, who supplied it in conjunction with Ainleyville and Wroxeter. In the year 1862 he resigned Bluevale and retained the other two congregations.

Bluevale being now united to Wingham and Eadies station, the three were cultivated as one mission field, and were supplied during the summer of 1863, and 1864 by the present pastor while he was a student.

In the autumn of 1866, they gave a unanimous call to the present pastor, the Rev. James Hastie, a graduate of Knox College, who had just completed his studies. The call being accepted, he was ordained over the united congregation on the 23rd of October of that year.

Since that settlement, each of the congregations has erected a commodious church—the one in Bluevale seated for 230, the one in Wingham seated for 260, the one in Eadie's Station for 220.

In a little over two years 156 persons have been added to the roll, making the total number of communicants between 280 and 290.

And the liberality of the people, both for Congregational purposes and for the various schemes of the church, has been most commendable.

The field having become too large for one minister to cultivate efficiently, one of the stations is about to be dissociated from the others, and to be provided for in some other way.

This is one of the most important pastorates in the Presbytery of Huron; and few have made more rapid and solid progress.

The Wesleyan Methodist Church is a handsome frame building about 30 by 40 feet, and capable of seating 250. Rev. Thos. Cleworth minister.

The Primitive Methodist Church is a frame building 22 by 30 feet, erected in 1864, and will cost when fully completed \$400. Rev. Mr. Monkman minister.

Clinton.

An important post village and station on the Buffalo and Lake Huron branch of the Grand Trunk Railway, it is situated 12 miles from Goderich, 32 from Stratford, and 48 from London *via* the stage road. The village was laid out by Mr. Rattenbury in 1848, and owes its rise and progress principally to the rich agricultural resources of the surrounding country, its eligibility of access by rail and gravel roads, and salubrity of the section where it is located. The village possesses no hydraulic power for manufacturing purposes, but steam power is employed very extensively in manufacturing establishments. The large flour mill of Joseph Whitehead Esq., M. P., was erected in 1866 of brick, 40x50 feet, four stories high, with slated roof, it has five run of stone and is capable of dressing and packing one thousand barrels of flour per week. Mr. James Fair's flour and grist mill and saw mills are also worthy of notice.

The Clinton flour mills, Mr. Charles Charlesworth, proprietor, contains four run of stone, the building is erected of white brick, three stories high, and 48x38 feet, he has a large frame storehouse adjoining, with a storage capacity of forty-five thousand bushels, there is also a large cooperage in connection with the establishment. On an average about eighty barrels of flour are turned out daily, eight hands are employed, and an engine of thirty five horse power used to propel the machinery. The Huron grist and oatmeal mills, London road, are owned and carried on by Mr. Wm. Hutton, the building is frame, three stories high, 60x20 feet, and contains four run of stone, steam power to the extent of thirty horse is employed, about fifty barrels a day can be turned out here.

Messrs. Glasgow, McPherson & Co., manufacture all kinds of agricultural implements very extensively.

Mr. Thos. R. Foster employs 15 hands and an engine of 16 horse power in custom carding, fulling, cloth dressing and manufacturing.

Messrs. M. McTaggart & Co. employ 15 hands in the manufacturing of superior fanning mills, their buildings cover an acre, in area.

Mr. Donald McTavish manufactures iron and wooden ploughs, harrows, employs 4 hands.

Mr. William Grigg employs five hands in a large brick building, with three fires, and is engaged in carriage ironing, and blacksmithing in all its branches.

Mr. Charles Counter's tannery is a frame 26x30 feet, where he manufactures sole, upper, and harness leathers, kips, and calf skins.

Mr. O. S. Doan's tannery is frame 50x56 feet, two stories high, where he manufactures \$10,000 worth of leather annually.

Mr. James Mulloy's pump factory is second to none, three to four hundred pumps are turned out annually, and wood turning of every description carried on.

MERCANTILE.—In the mercantile department Messrs. Callander, Scott & Co., Mr. A. S. Fisher, and Mr. D. B. Strathy, are in the front ranks.

The Stapleton salt well is owned by Mr. Richard Ransford, who commenced operations in August 1868. It is situated one and a half miles from the village, and the building is 120x80 feet, several hands are employed and an engine of sixteen horse power; pans are here used instead of kettles, and the capacity of the works is about one hundred barrels daily.

Mr. Walter Cook is extensively engaged in the manufacture of sash, doors, blinds, mouldings, and building, he employs a large number of hands and is doing an excellent business.

HOTELS.—The hotels of this village will compare favorably with those of any town or village in the Province of Ontario.

CHURCHES.—There are four churches, viz:

St. Paul's Church (Episcopal).—Situated on Huron and Rattenbury Sts.; a brick building, in the Gothic style; completed April 1st, opened April 12th, 1863; size 40 x 64; cost \$4,000; seats 350, Rev. S. DuBourdieu, Incumbent.

The Canada Presbyterian Church a handsome frame building 40x56 feet, with tower, gilt dome, and vane, erected in 1856 at a cost of \$2,500, having capacity to seat three hundred. This church was organized in 1856 through the labours of Rev. John Rennie and others, and continued to be a mission station until 1859, when the present pastor, Rev. A. D. McDonald entered on the charge. Few churches have increased more rapidly in numbers and influence than this since its organization, the present building is quite inadequate to meet the wants of the congregation, and must ere long give place to one of greater capacity.

The Wesleyan Methodist Church is a handsome brick erected in 1857 at a cost of \$3,000 to seat 350. Previous to the erection of this church the congregation worshiped in the school house and the Bible Christian Church for about three years; Rev. Wm. Hawke is the present minister.

The Bible Christian Church is a neat plain building, it cost \$1,000, and can accommodate two hundred and seventy persons.

MUNICIPAL OFFICERS.—W. W. Farran, Reeve, O. S. Doan, John Steep, Thos. Stanbury, W. Searle, Councillors; George Laycock, Town Clerk, N. Robson, Treasurer.

SCHOOLS.—The Grammar School building is a frame 25x40 feet, most pleasantly situated in a healthy locality, the attendance at this

school is rapidly increasing, and every facility is afforded for acquiring a thorough knowledge of the classics, French, and the higher branches of English literature, there are forty pupils in attendance under the charge of James Turnbull Esq., B. A. Toronto University.

GRAMMAR SCHOOL TRUSTEES.—Horatio Hale, B. A., Chairman, R. Coats, Treasurer, W. W. Farran, Secretary, Rev. A. D. McDonald, Joseph Whitehead, Esq., M. P., and A. S. Fisher.

THE COMMON SCHOOL.—A large attendance of pupils is found in this school, the Trustees contemplate erecting a new school house this year. Their names are, D. B. Strathy, Chairman, E. Holmes, Secretary and Treasurer, C. A. Hartt, D. Buchanan, A. S. Fisher, and Robert Coats.

MASONIC.—Clinton Masonic Lodge of A. F. and A. M., No. 84, holds its regular communications on Wednesdays, on or after each full moon, Richard Sharp, W. M.

ORANGE.—L. O. L. No. 710 holds its regular meetings in the Orange Hall on the second Wednesday of each month, Thomas Cooper, W. M.

TEMPERANCE.—The Huron Star Lodge, British Order of Good Templars, meets on Monday evening's at the Temperance Hall, J. C. Stevenson, W. C. T.

Town of Goderich.

A port of Entry, and the county town of Huron, It is beautifully situated on Lake Huron, at the mouth of the Maitland river, and at the western terminus of the Buffalo and Goderich section of the Grand Trunk Railway, 157 miles north west of Buffalo, 32 miles west north west of London, and 133 miles from Toronto. It is the only shipping port for many miles on the Lake, and has a harbor, protected by a pier with a light house at the mouth of the Maitland river. The town is elevated above the lake 130 feet but there is a good road made to the wharf. The banks of the lake are almost perpendicular and are of a loose gravelly clay.

The Grand Trunk Railway have here erected an extensive elevator for the purpose of facilitating the transfer of grain, shipped to this place for eastern markets,

Goderich originally commenced settling as early as 1827, being laid out, by the late Dr. Dunlop, and its present limits are very extensive.

It made but little progress from the time of its commencement, until, the year 1854, when it began to make considerable advancement, and now is one of the most important towns in the Province of Ontario. It has a spacious market ground, octagonal in form, in the centre of which is the court house, a handsome brick building, containing a commodious hall for a court room. The County offices are on the ground floor. The entire cost of the building has been eighteen thousand dollars. It is two stories high, and quite an ornament to the town.

The jail, a very strong and substantial stone building, two stories high surrounded by a high stone wall, fourteen feet high, is situated in the

northern part of the town, near the banks of the Maitland river. The streets diverge from the square, or rather the octagan, and on these streets are erected some very fine business houses, of which many are brick. The town contains many fine churches, a list of which will be found in another page. A large central school building, built of brick, two stories high and erected at a cost of ten thousand dollars. There are several extensive manufactories of iron, sash, blinds and doors, woolen goods, lumber, leather, flour, and several salt wells. The salt well companies have lately amalgamated into one company, having Mr. Wm. Seymour Esqr., of Goderich, as agent. The salt manufactured here is of the very best description, and the prospect for success in this very important trade is of the most flattering kind.

Mr. Platt of Goderich, lately invented and obtained letters patent for a new process of evaporation, realizing a saving of about two thirds the fuel ordinarily employed; and being thus enabled to supply the demand with a cheaper and better article, several hundred barrels of salt are turned out at these wells daily, and a large number of hands kept employed.

Mr. Wm. M. Savage employs about eight hands in his cooperage, and turns out about five hundred barrels weekly.

There are two newspapers published here viz: the Huron Signal, one of the oldest newspapers in the Province, and the Goderich Star, a conservative journal.

It has branches of two banks here, the Bank of Montreal, and Royal Canadian Bank.

There are several good hotels, a number of well filled stores, doing a large business in the aggregate.

All the professions, and the various manufacturing and commercial pursuits are fully represented. The present population is estimated at about four thousand souls.

CHURCHES.—There are four churches, the "Trinity" Church of England is a handsome frame building with tower and spire, erected in 1864, being the first place of public worship built in the village. The bell of this church (which is the only one in the place) is rung five times a day during the week for public convenience. The Rev. C. C. Johnson, T. C. D., has been incumbent of this church from its organization.

The Methodist Episcopal Church is a neat frame building erected in 1864 at a cost of \$1,000, and seated for 200. This congregation was first organized in 1863 under the labors of Rev. S. Card. There is another good frame church on this circuit besides two congregations. The Rev. S. Williams, is the minister in charge.

The W. M. Church is situate on Goderich Street; is a frame building, 50x36 with galleries on either side, and at the front end. It will seat about three hundred.

The church was erected in 1865, and in the latter part of 1866 was remodeled, so far as the internal arrangements are concerned, being refloored, pewed, painted inside and out, and an elegant pulpit with communion was erected, a suitable melodeon furnished, in all an outlay of about one thousand dollars was made, all of which has been paid. In 1868 a second lot was purchased adjoining the lot on which the church stands, and a commodious parsonage has been erected, with stable and barn. A neat and substantial fence encloses the two lots, which are perhaps the most desirable in the whole village for church purposes.

In the recent improvements about \$1,300 was expended, and the property now presents a very fine appearance. The congregation

worshipping in this church is good and the cause appears to be in a healthy state. The present pastor is Rev. Wm. Hayhurst.

The Baptist Church a very fine rough cast building was erected in 1869, at a cost of two thousand dollars, and is 30x50 feet in size. It will seat comfortably three hundred persons. The congregation was organized in 1866, during the ministration of the Rev. Charles Northorp, and worshiped in the masonic hall up to the time of the erection of the present edifice. The Rev. Archibald McDonald is the minister now in charge.

The Common School is a handsome 2 story brick building, 60x30 feet, erected in 1867, at a cost of \$3,500. It consists of two departments where about 240 pupils are in attendance, under the charge of Mr. Archibald Dewar, First Class Provincial School Teacher, and principal of the School, assisted by Miss. CHURCHES.—The origin of the Canada Presbyterian Church, Wroxeter, may be traced to the suggestion of Mr. John Wylie, who in the spring of 1856, along with Mr. Thos. Gibson, went through the neighborhood of what is now the village of Wroxeter, to ascertain the feelings of the Presbyterian settlers, as to what branch of the church of their fathers they would connect themselves with. A majority being in favor of the Free Church, a petition for supply of preaching was in Sept. 1856, presented to the T. C. Presby. and a Mr. Rennie was sent accordingly, who labored three weeks, preaching in the houses of Messrs. Gibson and Wylie. Lacking further supply for eighteen months, the settlers united themselves with the Morris Bank Station, under the U. P. Presbytery, when the Rev. Messrs. Barr, Walker and others, preached at regular intervals. In August 1858, the Rev. W. C. Young was ordained over the respective stations of Ainleyville, Morris Bank, Bluevale, Wroxeter, and Wylie. The Wroxeters school house becoming too small, it was resolved to build a church, the Hon. J. Paton granting half an acre for a site. Subscriptions were raised, and a church built, costing about \$1,000. The church was opened for public worship, on the first day of February 1863, sermons being preached by the Rev. Messrs. Young and Irvine. Mr. Young's connexion with this congregation was dissolved August 1865. The Rev. G. Brown was called, and inducted into the ministerial charge of the Wroxeter congregation, and what was then called the Howick Station, in April 1866. The congregation prospers, and the church will soon need to be enlarged,

Under the same charge is the Lisadel congregation, Town Plot of Howick. This congregation was formed in 1866, thirteen members being disjoined from Wroxeter, and organized into a separate congregation by authority of the Presbytery. The church which is a neat building, seated for 220, is situated on a rising ground, on one of the branches of the Maitland river, close to the village of Ford-

wich. It was built in 1867, and opened for public worship in January 1868, free of debt; the result of the liberality of the members, and of their active united efforts in securing the generous aid of many friends. Its membership has more than tripled in three years.

VILLAGE OF AYR.

(County of Waterloo.)

Is an important post village, situate in the Township of North Dumfries, County of Waterloo, about one mile from the Brant County line. It is distant from Paris 7 miles, from Galt 10 miles, and from Berlin 14 miles. The Cedar and Smith's Creeks run through the village and afford much hydraulic power. It contains three churches, and a newspaper, the Ayr Herald, a well conducted family newspaper, having a large circulation in the Counties of Waterloo, Oxford, and Brant. It was established in 1867, by Mr. James G. Watson, in the Reform interest, and is rapidly increasing in circulation. There is a good book and job office in connection.

There is a Masonic Lodge in Ayr—Lodge No. 172, G. R. C.; a Mechanics' Institute with a library of over 1,200 volumes; one fire company; a Volunteer Infantry Company; a Temperance Society; a Young Men's Christian Association meets weekly for mutual edification and dispatch of business; a Literary Society which meets weekly for debates, readings, recitations, &c.

This village contains several important and extensive manufactures, foremost among which the agricultural works of John Watson, Esq., may be mentioned. This large establishment was started in 1848. Mr. Watson's shops cover an area of two acres, and are built of stone, brick and wood. Steam and water power are both used in propelling the machinery, and from sixty-five to seventy hands are constantly employed. Reaping, mowing, threshing machines, drills, straw and root cutters, ploughs, and in fact every description of agricultural implement that the most extensive farmer requires as a labor saving machine are here manufactured. About 600 reapers and 50 separators are annually made at these works.

This is one of the most successful establishments in Canada, and its success is only the just reward due to the business energy and integrity of character displayed by its well known proprietor. (*see advertisement.*)
