Le rapport du surintendant du Département de l'Assurance de l'Etat de New-York, (fait après un examen de la condition de la Société lequel a occupé l'examineur en chef du Département, avec dix de ses comptables près de trois mois), conclut comme suit :

“ L'examen a été du caractère le plus complet et le plus minutieux, et le surintendant croit qu'aucune corporation faisant des opérations d'assurance n'a été soumise à des épreuves plus sévères que cette société, rien n'ayant été pris pour accordé, mais chaque item et du passif et de l'actif a été scrupuleusement et jusqu'à dans les moindres détails. Pour accomplir cette œuvre, dix personnes, dirigées par l'examineur en chef du Département ont été constamment occupées pendant près de trois mois. Le surintendant est très-heureux de pouvoir établir que le résultat de cette investigation démontre la complète solvabilité de l'institution; et que si la même énergie et la même habileté sont déployées dans son administration et sa direction, aujourd'hui comme par le passé, elle a devant elle une carrière de prospérité commerciale solide.”

“ JOHN F. SMITH, Surintendant.”

Le rapport d'un comité de détenteurs de polices et de leurs représentants (après un examen embrassant une période de plus de deux mois, aidés par un corps complet d'experts et de comptables) conclut comme suit :

“ Les opérations de cette Société ont été conduites avec énergie, habileté et systèmes, et son accroissement sans parallèle, depuis son incorporation en 1859, comptant comme elle le fait, près de \$32,000,000 d'actif, et environ \$5,000,000 de surplus de profits, selon l'état de la Société, démontre une industrie et une vigueur peu commune de la part de ses officiers et directeurs, et dans l'opinion de ce comité, place la Société d'Assurance Equitable sur la vie au premier rang des institutions de ce genre.”

A. B. Cherrier, Editor, Publisher and Compiler.

PUBLISHED ANNUALLY, PRICE \$3.00 PER COPY.

Entered according to Act of Parliament, in the year one thousand
eight hundred and seventy-seven, by the Proprietor, in the office of
the Minister of Agriculture and Statistics of the Dominion of Canada.

PREFACE.

In presenting to the Public the **Nineteenth Annual Edition** of «**Cherrier's Quebec Directory**,» it is with pardonable pride we congratulate ourselves that for a *fifth of a century* we have published the Quebec Directory. During all that period we have given our best energies to the task, and each year's additional experience has been used to the very best advantage, so that our Work might be as complete in every respect as it is possible to render a publication of this nature. How it has grown in importance and magnitude may be seen by comparing the earlier issues compiled by G. H. Cherrier, senr., Esq., with the present publication. What it may reach in another *fifth of a century*, we hardly dare predict.

This issue of 328 pp. contains a larger and fuller amount of information than has ever been before put together.

These improvements which we are adding to the Directory year after year, and of which we give a nomenclature in this Preface, are not without additional expense ; but we are willing to do all in our power which shall tend to its accuracy and completeness, relying upon the Public to generously patronize the Work as our reward.

Taking a retrospective view of the past year, we are led to say that the last twelve months have wrought but slight changes in the general affairs of the City. We are yet without the many long looked for and desired improvements, but still hopeful for the future. At present the business outlook appears brighter and hope is entertained that with this year, matters may resume their wonted activity.

In reference to our labor we are compelled to allude to many difficulties encountered in perfecting it, the aversion many have to their address being made known, going so far as to appeal personally at our office for its suppression.

The partial burning and rebuilding of Montcalm ward have caused considerable annoyance and trouble in the compilation, and great care had to be bestowed on that part of our work in order to obtain a satisfactory result. We would also state that it is almost impossible for a work embracing such an

area, to be entirely free from faults, but whatever there may be (and the publisher has every reason to believe there are few, the whole information having been **compiled exclusively by himself**) are mainly due we must say, to the obstinacy of some people who, through ignorance or ill-will, persistently refuse to give information. No expense or pains however have been spared to render this Edition in the highest degree reliable and to that end the cooperation of our numerous patrons and the Citizens in general is herereafter cordially invited.

See register page 325.

Prominent among the many difficulties we had to contend with this year was the unwarranted and uncalled for opposition made to our work in the shape of a rival Directory. One or two comparatively worthless publications having been previously palmed off, proved more or less detrimental to a really valuable work, and it is once more the painfull duty of the publisher to remark that *business men* are yet to be found to advertise in such mediums unable to secure in this City, a legitimate and guaranteed circulation. In order to avoid hereafter, and as much as possible such deceits, the publisher would state that out of the many subscribers to be had to the work including Levis and St. Sauveur, he had secured up to the time of going to press, a *bona fide* list of *over* three fourths of the usual number ; thus leaving what might indeed be considered very poor prospects for the work of our adversary and the **circulation of advertisements** therein inserted. These statements we do make not in any way to criticise the doings of such advertisers, but simply because we have the best of reasons to believe they have been unknowingly and wilfully deceived and mislead, in being induced to advertise in another publication detrimental to us and their own interests.

As it is however we cordially thank our patrons for their favors, having notwithstanding received, what we consider under the present difficulty, a fair share of advertisements. Some there are, who bestow much of their advertising upon "trashy" mediums. Let them consult our terms, keeping in mind that "every body" refers to the Directory, that it is a permanent work and we believe they will find it to their advantage if we are permitted to inform the Public how cheap and good are their productions.

We now beg to draw attention to the improvements and additions made in this edition.

CHERRIER'S NEW GUIDE to the location of the Streets, Public Buildings, etc., etc., is worth studying, see pages 35 to 45. In its new and original features are given the ward location of every street and also cipher indices to all our Public Buildings from the Common School to the University, etc., etc.

We call attention to the new style in which names of copartnerships are inserted in this volume. The full name of each individual member is given in connection with the firm name, thus combining with our usual work a Copartnership Directory. The advantages of this will be apparent to all; this moreover not interfering with the regular insertion of the same names in their Alphabetical order.

The **GENERAL BUSINESS Directory** is added as usual see pages 47-70 and will be found more complete than any of its predecessors.

In the **MISCELLANEOUS Directory** embracing 52 pages, see pages 71-122, more than usually full and accurate, will be found matters of considerable interest connected with Quebec, the Governments, the Banks, the City Government, etc., etc.; refer specially to pages 18-21-29-31-72-87-92-93-94-95-102-112-114-115-120 and following.

Full and complete **INDEX** or **TABLE** of **CONTENTS** to the various matters embodied in the work will be found on pages 14-15-16.

☞ In preparing this year's issue we have noted 1923 removals, have erased 1210 and have added 1922 names; the number of names in this year's Directory being 8,375 shows a net gain during the past year of 782 names, there being only 7,593 in the last edition. At the time of going to press, 20th of May, there were still 104 houses unoccupied; a fact which will more than account for the few omissions that may be found during the year.

These statements go to show that a last year's Directory is about as useful as a last year's Almanac.

In their proper places have also been given reliable alphabetical lists, **designating tenants from proprietors** in the following places: Town of Levis, Municipality of St. Sauveur, Villages of St. Joseph de Levis, Bienville, Lauzon, Stadacona, St. Charles, Mount Pleasant and the 16 Coves of the North Shore. This, the Publisher hopes will be found of much practical convenience to professional men.

Do not fail to peruse pages 1 to 8 of ads. and those that are on the covers and inside the book, as the same represent a number of most respectable firms in this City.

To the Public, the publisher begs to tender his appreciation of their very generous support and also his sincere thanks to many of our Citizens who aided in supplying information and bringing the Directory to a successful issue. To G. T. Kingston, Esq., Superintendent of the Meteorological Service, Toronto, the publisher cordially offers his thanks for a most valuable record of the Climatology of Quebec City for the past ten years, compiled expressly for the work (see pages 33-34); also to Horace Tetu, Esq., for a carefully compiled list of newspapers published in Quebec since 1764.

Suggestions made to the Publisher towards improvements have always received his serious attention, and it is but just to state that many have been acted upon.

The Publisher would finally remark that the above statements have been made not so much to show the care, pains and labor which have been taken on his part in the getting up of a reliable Directory, as to enable such as are not subscribers to the Work, to secure a copy with the full confidence that they will have in hands a really useful book of reference.

The Compiler,

A. B. CHERRIER.

CHERRIER'S

NEW GUIDE TO THE LOCATION AND NUMBERS OF STREETS,

to which is added the Ward location, also giving Number Indices to Churches, Colleges and Schools, Banks, Government and other Public Offices, Terraces, Chambers and Squares, City Hall, Police and Fire Stations, Asylums, Charitable Institutions, Convents, Hospitals, Railway Offices and Stations, Clubs, Rinks, Consulates and Newspapers Offices, Hotels, Restaurants and Reading Rooms, Quebec Exchange, Boards of Trade, Railway Commission, Telegraph Companies and Branch Offices, Halls, Post Offices, Markets, Water Cisterns, Manufactures, &c., and Cherrier's Quebec Directory Office.

EXPLANATIONS.

The chief object this Guide has in view is to show the location of each street, also indicating what other streets end on it, run from it or intersect it, with, whenever possible, the corner numbers of such streets ending, commencing or intersecting.

It will be noticed that the names of the streets are set down in Alphabetical order, giving the course which they run, according, as near as possible, to the points of the compass.

In accordance with the new numbering of the City enacted by a special meeting of the City Council, held on the 10th of March and confirmed by a subsequent meeting, held on the 7th of April, 1876, and which took place early in the spring of that year, it was decided that all streets, outside of the *Enceinte*, running from the Cape to the River should be numbered from South to North, odd numbers on the left or West side and even numbers on the right or East side; and that all streets running from East to West should be numbered accordingly, odd numbers on the left or South side and even numbers on the right or North side. However as regards the streets of the Upper Town, St John and Montcalm wards, this order was reversed, and streets inside the *Enceinte*, and in St. John and Montcalm wards were numbered from North to South, odd numbers being on the left or East side and even numbers on the right or West side.

With these and the following explanations no doubt this GUIDE TO THE STREETS will be thoroughly understood and the Compiler hopes that it will be found of great practical convenience.—It is, however, his painful duty to state that through the apathy of some of our City Fathers, Montcalm ward has not yet been renumbered, though many efforts were made on the part of the Compiler to that effect, unfortunately without avail. Owing to this deficiency the Guide to the Streets of Montcalm ward will not be found so useful; it is however hoped that before the expiration of the year, this inconvenience will have been remedied by a proper renumbering of this district.

This Guide is especially intended to indicate at a glance the proximate locality of any number on any street, for example: if you desire to know where No. 221 (French Prot. Ch.) St. John street is located, the Guide tells you that being an odd number it will be found on the left or South side of John street and about midway between St. Eustache and St. Augustin streets. Again desiring to know where No. 12, (Cherrier's Quebec Directory Office, established in 1858) St. Ann street is located, you will readily perceive by reference that No. 12 being an even number, will be found to be the corner house on the right or North side where Du Fort street ends.

Entered according to Act of Parliament, in the year 1877, by A. B. CHERRIER, in the Office of the Minister of Agriculture and Statistics of the Dominion of Canada.

A — denotes that there is no number on the corner.

Hébert, 23.

In 1663 was founded the Quebec Seminary which afterwards became a regular College, and it had, by successive addition, acquired a high degree of importance, when it was erected, by Her Majesty's Royal Charter, into a University, under the style and name of *The Laval University*. By this charter, which bears date December 8th, 1852, no change was effected in the constitution of the Seminary itself; but a council composed of the directors of the institution, and the three senior professors of the several faculties was empowered to possess and enjoy all the privileges granted to the Universities of the United Kingdom, and especially that of conferring degrees in the Faculties of Divinity, Law, Medicine and Arts. His Grace the Roman Catholic Archbishop of

Quebec is, by virtue of his office, Visitor of the University. The Superior of the Seminary, for the time being, holds the office of Rector.

WEIGHTS, MEASURES, INTEREST, &c.

Previous to 1828, there were used in Great Britain as legal standards, the Ale Gallon, Wine Gallon and Corn Gallon, of all different capacities ; also the Winchester Bushel for dry measures, besides Heaped Measures ; all of these are now abolished, and but one standard Bushel and Gallon for all measures, both dry and liquid, is used, called the Imperial Bushel, one-eighth of which is the Imperial Gallon.

The change from the old wine to the Imperial is not compulsory till 1280, up to that time the old wine gallon may be used by those who desire to do so, upon the condition that all bargains effected by it shall be specially mentioned.

The imperial bushel is an upright cylinder, whose internal diameter is 18.789 inches and depth 8 inches. The imperial gallon is one-eighth of this, and cubical contents equal to 10 lbs. water. We may quote from this, as imperial measure, "a pint of water a pound and a quarter," and from the weight of water given below corresponding to the different measures, it follows, that if measures were

lost, we could find their equivalents by weight of water, and if weights were lost, we could find their equivalents by cubical contents of water.

The standard of the United States consists of two measures, namely the Winchester Bushel for dry measure, and the old English Wine Gallon for liquid measure. The Winchester Bushel, so called because the standard measure was formerly kept at Winchester, England, is an upright cylinder, whose internal diameter is $12\frac{1}{2}$ inches, and its contents equal to 2150 2-5 cubic inches and equal to 77,627 lbs. of pure or distilled water at a temperature of 62 and barometer at 30.

The proportion between the Imperial measure and that of the United States is very simple and convenient for reduction, being nearly 5 to 6. Thus 5 Imperial gallons are equal to 6 gallons United States standard. The Imperial bushel is about 1,32 part more than the Winchester, 31 bushel Imperial being equal to 32 Winchester.

There are still used in the United States, the old beer or ale gallon of 282 cubic inches, equal to 10. 18 lbs. of water and a New York State bushel of 2211-84 cubic inches, and gallon of 221-184 cubic inches, or 8 lbs. water. All transactions involving the measuring or purchasing of liquids, &c., should state the measures understood. By an act of a Canadian Parliament, the following are the legal weights per bushel of the different kinds of grain: but when bought or sold by weight shall be specified by the cental (100 lbs.) and parts of a cental.

	lbs.
Wheat, peas, beans, cloverseed, potatoes, turnips	60
Carrots, parsnips, beets, onions	60
Indian corn, rye, salt	56
Flaxseed 50, barley, timothy seed, buckwheat	43
Hempseed 44, Castor Beans 45, malt 37, Oat	34
Dried Peaches 33, Dried Apples 22, Blue Grass Seed	14
A Ton weight 2000 lbs., a Hundred weight	100
A ton of Timothy, Clover, or other Hay or Straw	2000

The following are the cubical contents and weights in pounds of water, of the different Standard Bushels, Gallons and Subdivisions.

A Cord-wood pile is 4 feet high and 8 feet long.

French Canadian Cord 4ft. $3\frac{1}{2}$ in. high and 8 ft. $6\frac{3}{4}$ long.

The side of a square acre is $69\frac{1}{2}$ yards in length, and is often quoted by French Canadians as a unit of length for short distances.

1 French Foot is equal to 12 10-12 the English inches.

10 $\frac{1}{4}$ " lbs "	122	Pounds
1 Canadian Minot	=	1 024 Imperial Bushels.

A Bundle of Straw 12 lbs. of Hay 15 lbs., and if tied with a withe, one pound additional.

The new Copper Coinage of Great Britain, 1860, is composed of 95 parts Copper, 4 of Tin and 1 of Zinc. A pound of this is coined into 48 pence of 80 half-pence or 160 farthings, and the half-penny measures one inch in diameter. The Canadian Cent is the same diameter, and 100 of them weigh one pound.

In the absence of Apothecaries weights and measures, the following items are worth remembering:

About 25 drops of any tin liquid will fill a common sized teaspoon,—three table spoons will fill an ordinary sized wine glass,—four wine glasses will fill a common sized tumbler.

Fluid Drachm.	Ounces.
1 Teaspoonful = 1	1 Wineglassful = 2
1 Desert = 2	1 Teacupful = 5
1 Thimbleful = 0 $\frac{3}{4}$	1 Tumblerful = 8
1 Tablespoonful = 4	

Interest.

General rule for calculating interest for days. Multiply 1 year's interest on the amount by the number of days, and divide the result by 365.

SPECIAL RULE FOR 7 PER CENT.—Multiply the amount, days, and the decimal 0.19178 together; the result will be the answer in cents; or multiply the principal, days and 19178 together, and from the result cut off 6 figures from the right, the remainder is cents for the answer; if there be cents to multiply in the principal, cut off 8 figures.

To convert Sterling into Currency.—To the given sum, add one-fifth of itself and one-twelfth of that one-fifth.

Currency into Sterling.—Multiply, by 60 and divide by 73

Exchange Calculations.

In the absence of tables, the following calculations will be found useful; and as there are various modes of calculating Exchange, we choose the following as being the most easily understood. As before stated, such are made upon the old base or par, rendering it necessary to convert all sums to that standard, to enable us to find the required result. Four shillings and six pence sterling and one dollar at old par are equivalents; and as that relative value has been altered, but still retained as a

base of calculation, it follows that 9, 9½ or 10 cent, premium quoted, means, 9 9½ or 10 cents on the dollar, or dollars, on the hundred, or pounds, &c., in addition to the old par value; and as in these calculations we shall use the dollar as basis, quotations as above will read as \$1.09, \$1.095, or \$1.09½ and \$1.10; and the sums are to be multiplied or divided by the required premiums, written in a similar manner.

Sterling into Dollars and Cents—At any premium. Multiply the pounds by 40, and divide by 9; this result gives the sum in dollars at old par; then multiply this result by the quoted premium, expressed as before stated.

Example.—What must I pay for a Bill of Exchange for £300 sterling, the quoted rate being 8 per cent, or \$1.08?

Solution—£300 multiplied by 40 and divided by 9, gives £1,333.33 at old par; then 8 per cent, added to this, or multiplied by \$1.08 gives the answer, \$1,440.00.

Dollars and Cents into Sterling—At any premium; (this operation is the reverse of the preceding). Multiply the dollars by 9, and divide by 40; this sum will be dollars into sterling at old par, which divided by the quoted premium, gives the required result.

Example.—What amount of Exchange on London can I buy for \$1,440.00, the quoted rate being 8 per cent, or \$1.08?

Solution—\$1,440, multiplied by 9, and divided by 40, produce pounds at old par, this sum, being divided by \$1.08, gives the answer, £300 sterling. *Note*—When shillings and pence are in the sterling amounts to be operated on, it will be necessary to reduce them to the decimals of pound. A very little practice will soon familiarize one to the easiest method; say for 17 shillings and six pence, then 10 is £5, then say 5s half of that or £125; these added, give £875, the required decimal. This mode will expedite all calculations in other denominations, especially where there are fractional quantities.

EXCHANGE WITH FRANCE.

London and Paris par of Exchange, one pound sterling equal to 25 francs 57 centimes.

United States and Paris.—20 francs Louis Napoleon equal to \$3.84 or one dollar in gold, 5 francs 21 centimes. The *real* value of the francs is about 93.10d sterling and the *real* value of the pound sterling is 25 francs and 26 centimes in gold, and 25 francs and 26 centimes in silver.

CANADA AND FRANCE.

French invoice are reduced to dollars and cents for Canadian Custom Entry at the rate of 19 3/10 cents per franc, or decimally expressed, 19.30.

Francs, into Dollars at Custom value.

Multiply the amount by the decimal, 19.30. Dollars into Francs.

Divide the amount by the decimal 19.30.

Bank Exchange here with Paris assumes a par of 25 francs to £1 sterling governed by quotations of sterling Exchange, with ½ per cent additional for difference between Paris and London; thus, if sterling Exchange be 10½ our Bill must be based on 11.

Question—I have a Bill from Paris to pay, amounting to 216, 05, sterling Exchange being 10½ per cent; what must I pay here in dollars and cents?

Solution.—216.05 francs divided by 25 produce £8 12s. 10½ sterling and this amount into dollars and cents at 11 per cent. (½ par more than the quoted rate), produces \$92.63, which I have to pay, to settle my account with Paris.

Canadian Pounds into sterling at 9½ or New par of £1 4s. 4d. to the pound sterling.

Multiply by 60 and divide by 73.

Sterling into Pounds Canadian at 9½ or New par

Reverse the preceding rule or to the sterling add 1-5 and 1-12 of that fifth, equal to 21-2-3 per cent, of the whole amount.

Sterling into dollars, at 9½ or New par

Multiply the sterling by \$4.866, or divide by the decimal 20.5.

Dollars into Sterling at 9½ or New par

Divide the dollars and cents by \$4.866, or multiply the amount by the decimal, 20.55; the result will be pounds and decimals of a pound.

CHERRIER'S QUEBEC CITY DIRECTORY.

ALPHABETICAL LIST.

EXPLANATIONS:

ABBREVIATIONS USED IN ALPHABETICAL DIRECTORY: bdg hse *boarding house*; bds *boards*; h *house*; r *rear*; sq *square*.

The names in CAPITALS are those of Subscribers and Advertisers.

When hill, lane, place, road, square, or any other such word, does not follow the residence, the word *street* is to be understood; for example: Abgrall Victor, laborer, Champlain 809, means Champlain street 809.

When two numbers are given in connection with one name, and only one street mentioned, the number first given is the place of *business* and the second the *residence*, and both in the same street.

It will be noticed that the names of all members of a firm are added directly after the name of the firm. This, it must be understood, does not interfere with the regular insertion of the same names in their *Alphabetical order*.

For full indices to the CONTENTS, see pages 14-15.

Our advertising patrons may be found by referring to the Index, page 16. We feel justified after many years' acquaintance, in saying we believe them to be among the very best in their vocations, in the City of Quebec.

In preparing this year's issue we have noted 1923 removals, have erased 1210 and have added 1922 names; the number of names in this year's Directory being 8,375 shows a net gain during the past year of 782 names, there being only 7,593 in the last edition. At the time of going to press, 20th of May, there were still 104 houses unoccupied; a fact which will more than account for the few omissions that may be found during the year.

QUEBEC MERCURY (THE), daily, evening, annual subscription \$6.00; G. T. Cary, editor printer and printer, Buede 11-13, "THE MERCURY" FILES—We have had the satisfaction of receiving, by this day's English mail, intimation that the file of the *Quebec Mercury* bound in yearly volumes from its foundation by T. Cary, senior, barrister, first editor and proprietor, in January 1805, (and *grat* father of the present editor and proprietor,) has been received complete and in good order at the library of the British Museum in London, where it will be preserved with all the other historical works open to the British public in that valued and venerable institution. Canadians can thus at any time refer their friends or correspondants in England to the *Mercury*, for reliable records of local events during recent or remote years; and it shall be our endeavor always to make it as full and authentic a diary in the future as it is admitted to have been during the past. Complete files of this paper are also among the archives of the Parliament of the Dominion of Canada, at Ottawa, and that of the Provincial Legislature in this City. *Mercury*, June, 1877

COURS DE LECTURE, PRONONCIATION ET DECLAMATION
EN LANGUE FRANÇAISE
PARM^R MAUGARD,

ARTISTE DRAMATIQUE FRANÇAIS.

Les personnes appelées à porter la parole en public, et particulièrement les jeunes gens qui se destinent à l'état ecclésiastique ou au barreau, pourront, en prenant pendant fort peu de temps des leçons de M. MAUGARD, acquérir la netteté de la prononciation, la richesse de l'articulation, la distinction du langage, et la noblesse du geste, qui, toujours doit-être en harmonie avec la parole.

Au moyen de lectures faites, simultanément, par le professeur et les élèves, et prises dans les maîtres de la littérature française, on arrivera à un résultat merveilleux.

PRIX DU COURS (2 leçons par semaine)..... \$5.

Leçons tous les jours, par mois.....\$13.

TOWN OF LEVIS.

A large and flourishing town on the south shore of the river St. Lawrence, opposite Quebec, Seigniory of Lauzon, part of Notre-Dame-de-la-Victoire, county of Levis. It is divided into three different wards, namely: the wards of St. Laurent, Notre-Dame and Lauzon. The head post office is in Lauzon ward, and branches of it in St. Laurent and Notre-Dame wards. An extensive trade of timber and fire wood is carried on here, which is surpassed in the Province only in the cities of Montreal, Ottawa and Quebec. Several manufactures are in operation. Montreal Telegraph Co. has two offices here, one at the railway depot, and another in Hadlow Cove. The station of the Grand Trunk railway is situated in the St. Laurent ward. Two steamboats ply every quarter of an hour between Levis and Quebec. Distant from Quebec one mile, fare 3c.; from Richmond 96 miles, and from Montreal 174 miles. Mail daily. Population about 6691.
