PREFACE.

THE Publishers in placing before the public their eighth edition of the Halifax City Directory, can state as usual that neither pains nor expense has been spared to make it reliable, as much so as it is possible to make such a work.

There are no doubt errors that have crept in as in every year which it is not possible to avoid, there are some few discrepancies which the publishers hope the public will look over as they have done in the past. The Street Directory will be found as correct as it could be made, some streets yet require numbering.

The Publishers having met with a loss by the St. John fire, and having to look after their business in that city, the publication of this work has been delayed thereby, but next year they hope to have the Directory issued about the first in July.

The Historical Sketch of Halifax in 1877 will be almost similar to last year; a sketch of the names of the streets and from whence they derived their names, although not complete, the publishers would recommend the public to peruse it, and if not correct, or any further information they (the public) could give either for streets named or those not named, would be thankfully received by the publishers for the Directory of 1878–79. To the supporters of this work we return our sincere thanks, especially so as it has been a trying season of depression.

In conclusion the publishers would state that the circulation has fallen off this year most especially from the support of advertisements which is required to make this work pay its running expenses like all similar works or newspapers, they require a large amount of advertisements to keep them alive which the sale of the paper or books alone would not do. As the publishers of this work are the only parties who have published Directories in the Maritime Provinces for the last twelve years and sometimes at a loss, and as they intend to continue publishing even at a loss, they hope the public will consider their position and support the work more largely for the ensuing years.

HALIFAX, 1877.

THE cloud of financial depression which has so long overshadowed e commercial world has been felt in Halifax more than many other aces. It has been intensified here in consequence of the money hich was formerly circulated by this city and province, uncontrolled r outside interference, being now sent to Ottawa; when, after being vided, a certain portion is returned to us for the Government rvice.

Few new buildings have been erected and fewer new enterprises rted, and unfortunately many of our older establishments and houses ist but in a contracted condition, compared with what they were ten ars ago.

The *Academy of Music* has been opened since our last publication, d is giving great satisfaction to the theatre-going population, and we ist, will give like satisfaction to the stockholders. It was formally ened during the first week of January this year and seems to have en well patronized ever since.

The Masonic Hall, though occupied the greater part of last year, s formally dedicated to Masonry on the 6th June, 1877, at ich celebration there was a large procession of the craft, and a zaar held by the ladies. Both those buildings materially im- ve the appearance of the city.

The Railway Depot on North Street has not yet been finished ugh the freight sheds are already occupied. The passengers enter depart by a temporary opening on the Lockman Street side, the ns depart and arrive from the place, though large excava- s and wall buildings are still going on, and thereby giving ployment to a great number of working men. The contract for shing the building was to have been terminated on the first July, alterations and delays incurred on the part of the Government dering it necessary to extend the time till the first September.

The unsightly mass of old buildings opposite the Halifax Hotel ed by the late John K. Murray has been removed, and in their d Mr. DeWolf the carriage builder, has erected a brick structure ly intended for shops and warehouses and partly for dwellings. ir appearance improves that part of the city and was much called and where we hope other improvements will follow.

The Merchant's Bank of Halifax having purchased the corner of ve and Hollis Streets, originally owned by the late Martin Gay

Black, and more recently by Messrs. Lordly & Simpston, the Directors have commenced erecting an extensive building thereon—It is of polished granite and freestone—will when finished cost about one hundred thousand dollars, and will thereby add another to the expensive Banking structures of the city. The corner stone was laid by Senator Northup, on Thursday, the fifth July, 1877, into which were deposited the usual documents placed on such occasions.

Along the whole line of Water Street from the Lumber Yard to the new Railway Depot, there are only two buildings of any consequence in the course of construction—one on the property of R. I. Hart on Lower Water Street. Mr. Hart is erecting a fine brick store in the room of the old house he occupied as his business establishment. The old buildings at the head of Bennett's wharf have been taken down and are being replaced by a store of granite and brick, intended for extending the operations of the firm of John Tobin & Co. No other improvements are to be seen along the whole line if we except a few new fronts, and a building at the head of the Granite Wharf, which has been very effectually repaired and improved since the recent fire in that neighbourhood. This state of things pretty plainly indicates the paralized condition of trade, in the community, as the same may be said of every other street in the city —few new buildings and general stagnation.

The only person who appears to have escaped the contagious influences of the depression is Moir, who has gone extensively into building operations at Bedford, where he has erected extensive Flour Mills with Elevators. His enterprise deserves a rich reward and more extensive notice, it being beyond the city limits. The work is in a fair state of progress and is expected to be in active operation before the first of the year.

The Park and Public Gardens are still objects of attraction to the citizens or strangers who take their drives or walks in those vicinities. An observer remarked the other day "that the gay and expensive appearance of those places very much reminds us of the servant girl who could put all her wages upon a bonnet of the newest and most expensive fashion, while the other garments as well as the boots were of the most shabby description." A slight glance at Water Street and some of the other leading thoroughfares of the city will indicate what the condition of the city must be when we are told that there is so little money for the street service.

The city has lost the advantage derived from the street cars, they were discontinued on the event of the Railway authorities crossing the track and lifting the rails to make an entry into the new station. In compensation for which the public has been accommodated with two lines of Omnibusses which might be made to run every quarter of an hour between the Depot and Freshwater, the whole distance for a fare at ten cents. But at the present time there is a conflict between the two opposition lines not much to the accommodation of the public, as the busses appear to be running at the same time.

An improvement in the sanatary condition of the city is the intro-

duction by the Board of Works of a new method of sweeping the streets by an iron scraper and Whalebone Brush drawn by horses—first tried on the 4th July, '77, which is a vast improvement on the original Preston and Hammond's Plains brooms, and still another improvement of a more private nature has been the contract taken by Wakefield & Naylor for cleaning Hollis and Granville Streets—sweeping, raking and watering those streets. A pump has been procured capable of raising 150 gallons of water per minute, for the purpose of raising the water from the Harbor into the watering carts.

The limits of this paper do not permit details as to the successful completion of the winter port arrangement, which by the Allen line of steamers the Canadian mails were brought to Halifax instead of Portland as on previous winters, and thence transmitted by the Intercolonial Railway to Montreal and the western cities of Canada in less time than by the original route, thus establishing the claim of Halifax to be the Winter Port of the Dominion.

FINANCIAL.

The financial affairs of the city may be stated as follows, as taken from the report of city government for 1876–77 :

Total amount of annual interest thereon	71,515.40
Total amount of School Debentures issued, used	131,200.00

The estimate for the year 1877 may be summed up as follows :

City Prison	10,753 42

Interest	12,333 62
Miscellaneous	17,360 15

The probable income estimated at $21,800.00. The regular assessment of $100,00, and the assessment for debentures and extra assessment set down at $133,181.32—making the total assessment $233,-181.32 for 1877.

The assessed value of the real and personal property of the city this year is	$16,196,042
The value in 1876 was	16,424,036
Showing a decrease of	227,994

It has been intimated that the decrease does not altogether arise from the shrinkage in the value of real estate, but from the fact that two or three years ago the property on which the new depot was

built contained a number of houses which were assessed, and are now replaced by property neither assessed nor paying taxes, and this in itself causes a higher rate to be paid upon the remainder.

In closing this portion of remarks on civic affairs it may not be out of place here to refer to views of both parties on the question of city taxes. We complain that we are so heavily taxed for the little we receive in return. It is replied that Halifax is a city in which the streets, water, watching and other conveniences are in as satisfactory a condition as any other city on this continent, while its taxes are far lighter than any of them. The new city of Ottawa with a population of between twenty-five and twenty-nine thousand, has a debt of two millions of dollars, and the debt of our sister city of St. John, New Brunswick, is about the same as that of Ottawa. House rent is higher in Halifax than in any other city of its size on this continent. The profits of that do not find their way to the landlord, for in point of fact the investments in real estate as owner, is one of the poorest which can be made. The rate of interest charged being too high for mortgages—seven per cent—is beyond the producing power of the money, hence few will be willing to increase the taxable property if they have to borrow even at six per cent. Far less will the capitalist invest in building operations though he has a sure prospect of receiving ten per cent on his capital in yearly rental; hence money will find its way to other places where ten per cent. dividends are duly promised and sometimes drawn, thus capital is drained from the country.

Large sums have been withdrawn for investment in Canadian securities during the past year, there is no method of ascertaining the exact amount drawn from the Province for this purpose, but the published transactions of the Stock Exchange, the purchases through Farquhar, Forrest & Co., and the numerous purchases effected by individuals combined, swell the investments in that direction to a very large sum.

If we compare the assessments of the years 1876 and 1877, they show the following results:

1876.....	$129,351 49
1877.....	133,181 32
Increase of 1877 over 1876.....	3,829 82

This is the extra assessment additional to the $100,000, regular assessments which will make the sum to be raised this year $233,-181.32.

Thus the assessed value of the real and personal property in the year 1877, compared with 1876, decreased $227,994, the amount to be raised *increases* $3,829.83, necessitating a material rise in the rate per cent. to the *paying* tax-payers.

It is a matter of regret that so much is uncollected of both the general taxes and the special charges for curbing, brick sidewalks, and sewerage. The persons in arrears for the general taxes may be divided into three principal classes: First, persons who have died or left the city,

and leaving nothing to meet the demand and for which claims nothing can ever be obtained. Second, persons who are so poor that if their goods and chattels were taken for the payment of the taxes, they would become permanent paupers in the Poors' Asylum, and hence charge for support would be far greater than the taxes if collected would amount to, so that it is really an act of economy as well as mercy to let them alone. But unfortunately there is yet a third class who appear to be really able to pay this and every other of their just debts, but delay or refuse to pay their taxes whether they pay the other debts or not. Those persons ought to be compelled to pay and that speedily. The publication of their names need not be deferred from motives of delicacy. The city official in the receipt of salary, which it is presumed to be promptly paid, would require to live within his means, and if not he would require to suffer more than having his feelings occasionally ruffled by placing before him and the public the fact that his water rates are unpaid. In such cases there should be equal and impartial justice, and the sooner it is meeted out, the better for all concerned.

There are some other accounts uncollected, which to an outside observer seems strange, but are perhaps capable of explanation—the brick sidewalk fund for instance. Part of this work was paid for by the city and the balance by the property adjoining the place where the sidewalks were laid, and in some cases where it was not paid judgement was entered up against the owner, which bound the real estate held by him, and had to be released before the property could be tranferred. It would seem that this encumbrance on the property as a precautionary measure, though strictly enforced in some cases, would appear to have been neglected in others, else the deffi-ciency could not have occurred and the judgements would have been on the property unreleased, except in cases where the property was sold at Sheriffs' sale and the proceeds did not reach the amount to satisfy the judgment or first mortgage.

EDUCATION.

The Educational affairs of the city are similar to what they were in 1876. The school examinations just closed exhibit great skill on the part of the Teachers and corresponding proficiency on the part of the scholars. The Report of the Board of School Commissioners for year ending 31st October, 1876, with its statistical tables, is a carefully prepared document and will amply reward careful study by all interested in such matters.

The long felt want in the city—a High School—is about to be supplied, in the meantime, by occupying the old Masonic Hall, which has been leased by the Commissioners for that purpose, and is expected to go into operation about the first of October this year.

The friends of this undertaking contend that very little extra expense will be incurred by this new educational move, as the bequests of the late Diteman and Reynolds are legally available for that object,

with proceeds of the sale of the Grammar School property, all which when combined will materially assist the undertaking so much required.

INVESTMENTS FOR CAPITAL.—The high expectations once entertained by many relative to the advantages that would accrue to this community from an abolition of the usuary laws, have turned out to be fallacious. Loans had been, for a long period, negociated at five and six per cent., and the sudden raising to seven compelled the raising of rents to meet the difference—rents were higher in Halifax than in any other city on this continent, and consequent derangement was the result which culminated in too many instances in foreclosure of mortgage and Sheriff's sale. Seven per cent is the interest yet demanded on mortgage security for new loans, but reasonable investors did not raise the amount on old mortgages; many remain yet at six, and some even at five per cent.

The Bank rate of interest allowed on deposit is four per cent. Discounts are at eight or seven per cent, or even less according to the kind of paper presented. Money is plentiful at the Banks.

STOCKS.—Provincial and City Debentures still find a ready sale at a considerable premium, which is increased according to the nearness to the time of drawing the interest, sometimes as high as seven per cent.

BANK STOCKS.—All the Halifax Banking Companies' stocks sell at a premium, and are always looked upon as safe investments. But at the prices they usually sell they do not realize six per cent. to the purchaser.

The Stock Exchange Board has not published an annual report of of the transactions during the three past years. The times have been such that comparatively few transactions have taken place in Local Stocks. The Stock Exchange and Farquhar, Forrest & Co., publish tri-weekly the state of the markets, and investors or sellers may, on any day, know the prices, and approximate the value of securities of any kind.

OTHER STOCKS.—With the exception of the Halifax Gas Company other stocks in the City of Halifax are never looked upon with favor, much beyond par. Some local insurance, such as the *Acadia Fire*, is also an exception, as it has been particularly fortunate. But keeping in remembrance the Halifax fires of Granville and Hollis Streets, cautious investors are generally shy of them, even though their dividends are *ten* and *fifteen* per cent.

We publish a copy of one of the reports, published in the month of July after the interest on the debentures had been drawn, and the dividend had been declared. This is, therefore, a fair statement of what Stocks may now be purchased for, but far below the average of sales during the past six months from the time of this writing, (27th July, 1877.)

HALIFAX STREETS.

(Revised and Re-printed from Directory of 1876.*)*

In compiling the following lists of Streets with the only available information respecting the origin of their names the publisher would claim the indulgence of patrons as the field is a new one, and the reliable information is at present only limited, much of it being dependant on tradition.

The first division of the city was made by Col. Morris, the then Surveyor General, into blocks and named after the captains of the Militia as Forman's Division, Galland's Division and so on.

The streets then laid off and named from some circumstance connected with its situation or name of some distinguished individual connected with the early settlement such as Water Street, being along the line of water. Hollis Street supposed to be in imitation of a street of that name in Boston. Cornwallis street after the first Governor and founder of the settlement.

It will be our object in future editions to endeavour to correct the list and render them as complete and correct as possible, and therefore corrections and additional information is respectfully solicited.

AGRICOLA STREET—This street is presumed to be named in honor of John Young, father of the Sir William Young, who published a series of letters on Agriculture in the Acadian Recorder, during the years 1822-3-4, over the signature "Agricola."

ALBERT STREET—In compliment to H. R. H. the late Prince Consort.

ALMON STREET—Presumed to be in honor of Hon. M. B. Almon or some other members of the Almon family.

ARTZ LANE—The Artz family owning property in the vicinity.

BAUER STREET—The Bauer family owning the field through which the street runs, they also owned Bauer's, now Bennett's wharf.

BARRINGTON STREET—General Barrington succeeded Governor Hopson in the command of the expedition to take Guadaloupe, W. I., 1759.

BEDFORD ROW—In honor of John Russell, 4th Duke of Bedford who was Secretary of State, at the time of the Settlement of Halifax.

BLOWERS—In compliment to Judge Blowers whose residence and property was in the immediate vicinity.

CAMPBELL ROAD—Sir Colin Campbell was the chief projector of this Road, which then lead to the Governor's farm so called. It was executed by the military.

COGSWELL—This was originally named Willow Tree Street on account of a large willow tree growing on the corner at Gottingen Street, but in compliments to the Hon. N. H. Cogswell, then a member of H. M. Council, was called Cogswell Street.

CORNWALLIS—Edward Cornwallis, Captain General, Governor in Chief and Vice Admiral in the Kings Province of Nova Scotia, Commander of the expedition for founding Halifax.

CREIGHTON—This street was run through Chreighton's field about 1848.

CUNARD—There seems to be some connection with the name of this street and the Cunard family, but then it was a street and so named before Samuel Cunard contracted to carry the mails by a line of steamers across the Atlantic in 1840. It was originally named the Road to the N. W. Arm.

FALKLAND—Lord Falkland was Lieut. Governor of the Province in 1840 to 46.

GAS LANE—Lane leading to the Gas House.

GEORGE STREET—Probably after King George the Sovereign.

GERRISH—Joseph Gerrish was Naval Storekeeper at Halifax, and was appointed Counsellor in 1759. His brother Benjamin was agent of Indian affairs in 1760. The Gerrishes were probably from New England, their names are often met with there. Murdock's Hist. N. S., p. 200.

GRANVILLE—T. Granville, one of the Lords of Trade, in the time of the Settlement of Halifax.

GREEN STREET—This is a modern street though its name may have some reference to Hon. Benjamin Green, who accompanied General Pepperel to the capture of Louisburg and remained there as Government Secretary, removed to Halifax where he was appointed a member of H. M. Council, and administered the Government on the death of Governor Wilmot.

HOLLIS—There was a Hollis Street in the City of Boston at the time of the Settlement of Halifax, and it is probable that the name may have been adopted from that circumstance.

INGLIS STREET—Probably in compliment to Bishop Inglis.

JACOB STREET—The original founder of the Jacob's family was a German who owned considerable property in the North suburbs of the city. Jacob street was then beyond the northern boundary of the town.

KAYE—The field through which this street runs was owned by Joseph Kaye, Esq., who opened the street and laid it off in building lots some years ago.

KLINE STREET—In the vicinity of the Kline lots so called then, owned by the Kline family.

LEMARCHANT—Sir Gaspard LeMarchant was Governor when this street was opened.

LETSON'S LANE—In the vicinity of Letson's property.

LOCKMAN STREET—Leonard Lockman was a German, promoted to the rank of Major in the British Army for services rendered the government; he came out with the settlers in 1749 and settled in the north suburbs; he was buried beneath the old German Church in Brunswick Street, where his monument still remains.

MACARA STREET—This was originally the property of Doctor McAra, whose widow lived in the adjoining house till recently.

MAITLAND—Sir Peregrane Maitland was Governor at the time this street was opened.

MAYNARD—This street was run through the Maynard field about 1844.

MITCHELL—This street seems to be named by Thos. Mitchell, who originally owned the property as part of the Halifax foundry.

MORAN—This street was opened by J. P. Moran who purchased part of the Bayer's field, and opened the adjoining property by Sarah street into Bayer's street, which is known as Agricola, but the northern part of Agricola was originally Bayer's street.

MORRIS—There were three generations of Morisses connected with the the public land departments of Nova Scotia, and it is presumed that to some of them was given the name of this street, but at what time we are scarcely able to say as the street is comparatively modern.

QUINPOOL ROAD—A person of the name of Quinn had property here which was a swamp, hence the derivation.

SALTER STREET—In honor of Malcom Salter, Esq., M. P., for Lunenburg in the first General Assembly, a native of New England; the old house at the corner Hollis and Salter streets was built by him.

SEYMOUR—Lord Seymour, the Admiral on the Station.

SMITH—The Smiths who owned the Smithfields property were of German descent, and got a grant from Government for the purpose of establishing a Tannery on the property in the South end of the city.

STARR STREET—This street was originally part of the garden of David Starr.

TOBIN—The Tobin family were the owners of the field.

TOWER ROAD—Road leading to the Round Tower, Point Pleasant.

VEITH—The Veith family owns large property in the neighbourhood.

VICTORIA LANE, } Queen Victoria.
VICTORIA ROAD, }

WATER STREET—Its proximity to the water.

WELLINGTON—Probably in honor of Duke of Wellington.

WEST, } Are all part of the property once owned by the family of

ARTIFICIAL TEETH.

Entire, or parts of Sets, Plain Gum, Single or Block Teeth, on Gold, Silver or Vulcanite. TEETH FILLED with Gold, Amalgam or White Fillings. TEETH REMOVED with or without condensed Nitrous Oxide Gas, a safe and reliable agent, having been administered in this office to over 2000 patients.

SPECIAL NOTICE.

Many persons are constantly calling and desiring Dental operations at a reduced price, who actually require the services of a Dentist, but whose pecuniary circumstances will not permit their paying the usual fees for first class work. In order to meet the requirements of every one, I have made arrangements to have all kinds of Dental operations done at my office, at the following cheap rates.

In so doing I desire to give every patient satisfaction; and although the work at these prices will be done by the Assistants, every case shall be carefully looked after. Parties so desiring cheap work will please state the fact when making engagements, and on completion of work the CASH will be required for services rendered.

Fillings from 50 *cents to* $1.50. *Sets and parts of Sets, on Vulcanite, from* $3 *to* $20. *No charge for removal of Teeth preparatory to inserting Sets.*
