KENNEDY SHORTHAND SCHOOL

The Kennedy School is different from other schools. It is a school devoted exclusively to the preparation of the better class of students for the highest positions in the stenographic business. It is not a business college. Business college instruction is a thing of the past in connection with the making of exceptionally proficient and skillful stenographers.

The business of the stenographer is not surpassed by any of the professions as a means of acquiring a liberal education and of furnishing a satisfactory income. One of our pupils, only 17 years of age, is receiving over \$1,200 a year for her stenographic services.

The degree of skill and ability now demanded of stenographers in the most desirable positions can be acquired only in a school conducted solely for the purpose of giving this higher training. The Kennedy School is a school for the making of experts. In shorthand we prepare students for the highest official examination in Canada—that of the Chartered Stenographic Reporters' Association; and in typewriting—the Champion Lady Typist of the World is one of our pupils.

If you desire the best in stenographic instruction the Kennedy School is the only one that will entirely meet your requirements. We shall be pleased to send you free, our prospectus, containing much interesting and valuable information about this unique school. Write for it.
