THE "SEEGMILLER" TRUSS BEAM PLOW

— WITH —

Flexible Wheel, Universal Standard Joint and Jointer Attachment.

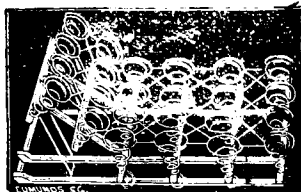

The attention of farmers and dealers in agricultural implements is called to this Plow, in the full confidence that its merits will be at once recognized and appreciated. The lightness and strength of the beam is secured by its being constructed on the truss principle, and, as will be seen by reference to the above cut, not one bolt, thread, nut or rivet enters into its construction. By an ingenious but simple arrangement a sort of universal joint is formed between the beam and the top of the standard, by means of which the Plow is adjusted to take more or less width or depth of furrow. This device does away with the necessity for the use of the cumbersome old-time clevis, and completely upsets the old theory of the impossibility of securing "centre draft" on a plow. Farmers will find this Plow very neatly polished and finished. My agents are instructed to sell it under the warranty that it will run light; work well in hard, dry ground; will scour and clean well in loose and sticky clover, stubble, manure, &c. In sections where I have no agencies established, I will, on application from responsible parties, send a Plow direct from the factory. For agencies, circulars, or other particulars,

GODERICH, ONT., CANADA.**

THE BEST ON EARTH

THE ABOVE CUT REPRESENTS

Burns' Patent Spring Bed.

It shows the head of the Bed raised to a suitable position for the occupant to sit up, which is the best thing in the world for those who are suffering from Asthma, Heart Disease, or anything that would make it uncomfortable to lie in a horizontal position, the mattress always resting on a smooth, even surface of springs.

The Springs are made from the best Bessemer Steel that I can get. The workmanship is perfect, and our patent on fastening the springs both at top and bottom is far superior to any ever before invented, making it most elastic, soft, noiseless, clean, durable and bug-proof in the market, east or west, yielding only to the even pressure of the body—there being no hard places and no rolling to the centre or tipping—being in fact the bed that makes the nearest approach to perfection.

Call and examine. A liberal discount made to dealers, hotels and public institutions.

FEATHERS CLEANED.

Feathers need cleaning as much as your bed-clothes, floor, or any part of the house, and I can remove all dirt and smell caused by children soiling them, sickness, death, or any cause whatever. It becomes the duty of every housekeeper to have them thoroughly renovated. There is no one can give as good satisfaction for the money as I can. Send a postal card directed to me and I will call and give you prices and full particulars.

Hair, Wool, Sea Grass and other Mattresses manufactured to order.

Dealers, send for Illustrated Price List.

INTRODUCTORY.

The work of compiling and publishing a County Directory entails a vast amount of labor and expense. We trust that the mercantile and professional men of the County of Huron will encourage us by each taking a copy. Neither pains nor expense have been spared to make the work as complete and reliable as possible, and we hope it will be found acceptable.

Those desirous of obtaining copies may either order them from their bookseller, or they will be sent post free by addressing

COUNTY OF HURON DIRECTORY.

GODERICH.

This town contains a population of about 5,000 inhabitants, and is beautifully situated on Lake Huron at the mouth of the Maitland River. It is the County Town of Huron, and the northern terminus of the Buffalo and Goderich branch of the G. T. R., 160 miles north-west of Buffalo, and 78 miles n. n. w. of London. The growth of the town is retarded for the want of increased railway communication. Efforts are now being made to fill this want, and with better railway shipping facilities there is no doubt the town would soon become a city. As a summer resort it has no equal on the chain of lakes. Visitors will find ample accommodation at the excellent hotels in the town, and if they desire to ruralize, no better spot can be selected than Point Farm Hotel, situate four miles north of Goderich on the lake shore. Goderich is also celebrated for its Salt Works, which are of great value and a source of considerable wealth to the town. It has daily communication by steamers during the season with Sarnia and Detroit, and ports on the south shore of Lake Huron. It is a port of entry, the only shipping port for miles on the lake, and has a good harbor, protected by a pier with lighthouse.

SEAFORTH.

Seaforth is an incorporated town of about 3,000 inhabitants, and to use a Yankee expression is "a right smart" place. It is 21 miles from Goderich, on the Buffalo branch of the G. T. R. Every branch of trade is well represented, the exports of wheat and grain exceed a million bushels annually, and the salt wells, for which the town is famous, turn out immense quantities of salt.

TOWN GOVERNMENT.

THE "SEEGMILLER" TRUSS BEAM PLOW

--- WITH ---

Flexible Wheel, Universal Standard Joint and Jointer Attachment.

The attention of farmers and dealers in agricultural implements is called to this Plow, in the full confidence that its merits will be at once recognized and appreciated. The lightness and strength of the beam is secured by its being constructed on the truss principle, and, as will be seen by reference to the above cut, not one bolt, thread, nut or rivet enters into its construction. By an ingenious but simple arrangement a sort of universal joint is formed between the beam and the top of the standard, by means of which the Plow is adjusted to take more or less width or depth of furrow. This device does away with the necessity for the use of the cumbersome old-time clevis, and completely upsets the old theory of the impossibility of securing "centre draft" on a plow. Farmers will find this Plow very neatly polished and finished. My agents are instructed to sell it under the warranty that it will run light; work well in hard, dry ground; will scour and clean well in loose and sticky clover, stubble, manure, &c. In sections where I have no agencies established, I will, on application from responsible parties, send a Plow direct from the factory. For agencies, circulars, or other particulars,

Address—

CLINTON ARTIFICIAL STONE MANUFACT'Y

The undersigned having commenced the manufacture of Artificial Stone,
in Clinton, for building purposes and cemetery work, such as

WINDOW SILLS, CAPS, KEYS, &c.,

Also GRAVE WALLING FOR CEMETERY LOTS, &c.

Parties building brick or stone houses, would consult their own interests
by writing to or calling on us, as our stone is acknowledged by both architects
and builders to be far superior to any heretofore made in this part of Ontario;
and as it comes at about one-half the price of cut stone, taking the work into
consideration.

All New Patterns! No Old Styles!

Special patterns made when required. Orders should be booked fully
three weeks before needed. Also, all kinds of marble and granite work done
as cheap as the cheapest and as good as the best.

Your patronage is respectfully solicited.

FOREST CITY MACHINE WORKS

GEORGE WHITE,

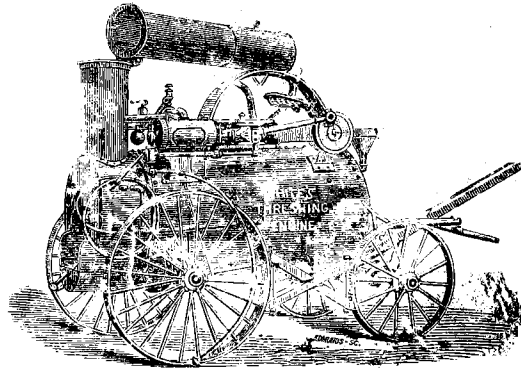

King Street West, London, Ontario

MANUFACTURER OF

IMPROVED PORTABLE AND STATIONARY

STEAM ENGINES & BOILERS.

WHITE'S THRESHING ENGINE

LICENSED by INSURANCE CO'S.

TESTIMONIALS

ESSEX CENTRE, 23rd Aug., 1880.

MR. GEORGE WHITE,—

DEAR SIR,—With pleasure I inform you that the Threshing Machine is doing splendid work, and your engine cannot be competed with in this county. Last week we booked \$120 and not more than one day's threshing at one place.

Yours truly,

JOHN McMAHAN, Engineer.

MAIDSTONE, March 7, 1881.

MR. GEORGE WHITE,—

SIR,—The engine we bought of you last summer gives us the most decided satisfaction. The little affair seems a thing of life; like a well trained animal, she is off at the touch, and continues on without jar or jingle, with a most surprising and well merited power. In a word, we consider our little steamer perfected perfection. Our engineer is an experienced one, has duly attended to its wants in care-taking, and our little horse has performed his part so well as not to have cost his owners so much as one cent as yet. All our customers are loud in their praise of our little steam-horse. A due proportion of fire and water, with a little oil to smooth his joints, the little fellow will continue on his course, so smooth as to draw plaudits of praise and admiration from all who behold him. The sawing machine gives us entire satisfaction.

Yours truly,

JOHN & AMBOISE BUREAU.
