TORONTO, CANADA

*GUIDE to the Points of Interest
In and Around the
“ Queen City of the Dominion ”*

THE IROQUOIS HOTEL

THE IROQUOIS is one of the best known and most popular hotels in Toronto. Many extensive and costly improvements have been added to this already modern hotel, making it one of the most desirable places at which to stop.

The Offices, Sitting Room and Buffet have received particular attention, new tile floors, new decorations and fittings have been added, making these apartments unusually attractive and convenient.

The Iroquois occupies a commanding position on the corner of King and York Streets, in close proximity to the Union Station and the wharves at which all the magnificent fleet of steamers arrive and depart. It stands in the very heart of the business and theatrical district, and is convenient to all of the many points of interest for which Toronto is famous. A complete guide of these places of attraction to all tourists and travellers may be found in this booklet, together with many illustrations of the same.

Electric cars pass the door for every part of the city and suburbs, and by the transfer system which prevails a guest may reach any point in the city for one fare.

The cuisine is first-class in every respect, and the service is characterized by neatness, celerity and civility. The fame of the Iroquois Table is widespread; upon its

EXTERIOR VIEW

excellent menus may always be found every delicacy that either the local or city markets afford, prepared and served in a faultless manner. The dining-room is a beautiful and extensive apartment with every convenience for quiet, delicate and proper service.

The sleeping apartments throughout the entire house are light and airy, the furnishings substantial, and the decorations pleasing to the eye. These apartments are kept scrupulously clean and in perfect order. The corridors leading to the apartments are broad and well lighted, and the system of ventilation well-nigh perfect.

The entire house is heated by steam, lighted by electricity, has passenger elevator, is fitted with porcelain baths and all the latest hygienic structural appliances and apartments for comfort, health and luxury.

The Proprietor, Mr. Geo. A. Graham, by his affable manner, genial disposition, and 25 years of commendable business methods in catering to their comfort, has won for himself a large place in the hearts of the travelling public. Mr. Graham is ably assisted in the management by Mr. G. W. Fowler, a gentleman of large experience and well known in all parts of the Dominion. The management have surrounded themselves with an efficient corps of capable and obliging assistants, who take pleasure in anticipating and catering to the wants of guests. Each employe is thoroughly trained in his or her branch of work, every duty being performed systematically, quickly and gracefully.

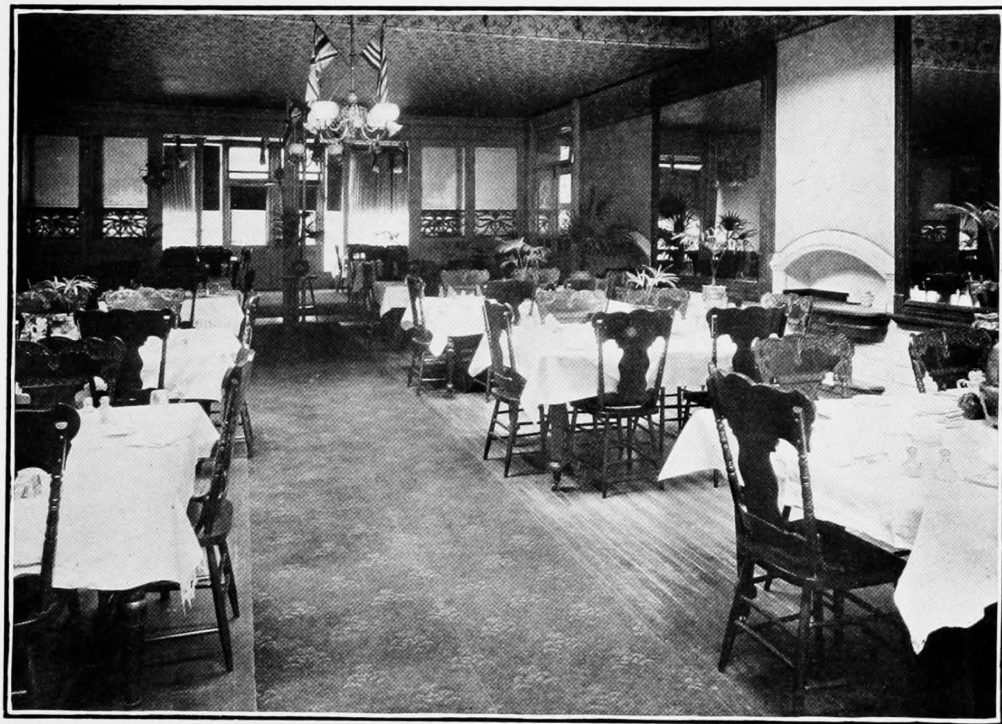

The Iroquois is conducted upon the American Plan, with rates of \$2.00 and \$2.50 per day. These rates include Table d'Hote Breakfast, Dinner and Supper. Those who contemplate a visit to the "Queen City of the Dominion," can find no better hotel home than the Iroquois.

VISITORS are cordially invited to look through this Store's various departments. With strangers, possibly the Costumes, Silks, Dress Goods, Gloves and Rare Laces will be the most important departments, although we see no reason why the Linen section—with its wealth of beautiful Irish and Scotch Linens—should not be equally interesting.

Twenty-five Departments in All.

TORONTO

BEAUTIFUL Toronto! Well may she claim distinction as the "Queen City of the Dominion," for among all the beautiful sister cities of the Canadian Provinces, Toronto easily reigns as Queen for attractiveness of location, for charm of environment and for the picturesqueness of her scenic beauty. She stands like a richly-hued gem in the silvery sheen of Lake Ontario.

The story of the rise and progress of the City of Toronto probably has no parallel in the history of the continent. In place of the trackless forest, whose quietness was disturbed only by the shrill cry of the bird, the fierce howl of the wolf and the savage Sa-sa-quan of the Indian, now stands the majestic commercial metropolis of Canada, 275,000 inhabitants, vast wealth and immense industries.

It is unquestionably true that Toronto's marvellous growth is due to a combination of powerful factors. Primarily must be named its geographical and topographical location. Her outlets, whether by ship or rail, are excellent and perfectly maintained. To the north, east and west lies a beautiful and most fertile country, while on the south is the broad expanse of one of the five greatest lakes in the world, enabling the safest and finest of harbors to be reached from any part of the globe.

In all the Dominion there is no city blessed with a more salubrious climate than Toronto. The meteorological records show that but few cities on the continent have fewer rainy days, and yet the oppressiveness of summer heat of other cities in the same latitude is rarely felt in Toronto, the deep, cool lake in front of the city modifying, as it does, the south and southwest winds blowing over it. It is cooler in the summer and warmer in the winter than Chicago, Cleveland, Buffalo, Detroit or any other city on the chain of Great Lakes, with the exception of Duluth, where, in July, overcoats are frequently worn, and in the winter months the temperature falls as low as fifty degrees below zero.

J. W. T. FAIRWEATHER & CO.

84-86 YONGE STREET - - - TORONTO

From whatever point approached, Toronto presents all the elements and aspects of metropolitan life. On every hand are to be seen evidences of material wealth and prosperity, of comfort and luxury, of taste, culture and refinement. The city is admirably laid out and the streets are broad and pleasant, splendidly paved and kept in excellent condition. The principle shopping thoroughfares are lined with mammoth, and, in many cases, magnificent, mercantile establishments.

Toronto is a city of homes, numbering among its citizens more actual householders than any community of the same area and population in the entire country. In the matter of education it is of interest to note that, with the exception of Boston, New York and Chicago, no city in America has as many high-class educational institutions as Toronto. Her University register shows the names of students from almost every State in the Union.

The religious interests of Toronto have been well cared for ; in fact, Toronto is the Brooklyn of the Dominion—"The City of Churches." There are two hundred and sixty-two churches, and many of the edifices are of striking architecture. Among the most noted places of worship are the St. Andrew's Church, which is, externally, one of the finest specimens of Norman architecture in existence, the St. James' Cathedral, which occupies an entire square, and its spire is three hundred and six feet high, the loftiest on the American continent.

Toronto probably contains as many fine public buildings as any city of its size in the world. Among these may be mentioned the Union Depot, which cost over a million dollars ; the City and County Hall, which, without exception, is the finest in the world ; the Temple Building, the Confederation Life Building, the Canada Life Building, the Parliament Buildings, the University of Toronto, Osgoode Hall, the Normal School, Trinity University, and many others, of which lack of space forbids mention.

Eight lines or branches of railroads tap the city, and during the season of navigation steamers run to and from all salient points, and numerous schooners make Toronto their port of entry and exit. All points in and around the city are made easily accessible by as superb an electric street railroad system as is to be found anywhere in the country.

For the benefit of guests and tourists who may be strangers to the beauties and points of interest of the "Queen City," we append a list of the places that should be visited:—

PRINCIPAL PLACES OF INTEREST

Parks ✱ Toronto's principal Parks are Queen's and Munro. Queen's is located in the north central part of the city, and Munro is east along the lake front. Riverdale and Riverside Parks are also in the east end. High Park is a beautiful spot in the west end, and Exhibition Park in the southwestern part of the city on the shores of Lake Ontario. The north shore of the lake in the immediate vicinity of the city contains many charming spots, as Lorne Park, Long Branch, Kew Beach and Victoria Park. Toronto Island, or Hanlan's Island, as it is familiarly called, is Toronto's "Coney Island," and is a popular resort lying less than two miles south of the city and is reached by a superb line of steamers.

Parliament Buildings The new Parliament Buildings are situated at the southern end of Queen's Park. The principal frontage is 435 feet, with a depth of 260 feet, the main entrance forming a double E, and enclosing within its walls 76,000 square feet. The main entrance is composed of three noble arches 18 feet wide by 20 feet high. This entrance is flanked by the great towers with their domes of copper and wealth of stone design. Magnificent views may be obtained from these towers. The buildings were completed at a cost of \$1,250,000.

University Buildings These buildings are at the left of Queen's Park. Here many of the best professional men of America have received their education. The general outline of the building approaches the form of a square, having an internal quadrangle of about 200 feet square, the north side of which is left open to the Park.

Monuments In the vicinity of the buildings are located several monuments of considerable importance, viz., that of Sir John A. Macdonald, the Hon. George Brown's Monument, the monument erected by the ladies of Canada to the heroes that fell in the North West Rebellion, the Volunteers' Monument erected by the public in memory of the Volunteers who fell in the act of repelling the invasion of a body of Fenian marauders from the United States in 1866, and the Queen Victoria Monument erected by the Ontario Government.

Allan Gardens These Gardens are located at corner of Carlton and Sherbourne Streets, and occupy a space of ten acres, all of which are highly cultivated. They were opened to the public on the occasion of the visit of His Royal Highness the Prince of Wales in 1860. The Robert Burns Monument, erected by the Scottish societies of Toronto, in memory of the great poet, is a special feature of attraction in this park. A handsome fountain 25 feet high is another attraction at this place of public resort.

Cloths, Furs and Skins

**64 King Street West
TORONTO**

Formerly 30 Columbus Ave., NEW YORK, N.Y.

Osgoode Hall Osgoode Hall is located on Queen Street West. It was named after the late Hon. William Osgoode, Chief Justice of Upper Canada. This building contains the court rooms and offices for the Superior Courts of the Provinces. The building is of classic style and is of great beauty, the centre hall being particularly fine. The grounds encircling the magnificent structure comprise about six acres.

Government House At the corner of King and Simcoe Streets is located the residence of the Lieut.-Governor, Sir Oliver Mowat. The modern French style is exemplified in the construction of the house. The main building is three storeys in height above the basement. The frontage of the main structure on King Street is 88 feet, with a kitchen wing extension of 100 feet. On the Simcoe side the frontage is 88 feet, and from the centre of this portion of the building rises a tower 70 feet in height. The main doorway is deeply recessed with massive cut-stone arch and jambs and broad cut-stone steps, and leads into the vestibule twelve feet square, which is separated by an elaborate screen filled in with stained and embossed glass, from an inner vestibule or loggia of the same dimensions. This again is separated from the main hall by an arch springing from fluted Corinthian columns with richly carved caps. The interior of the building is furnished in elaborate style.

McMaster Hall The Toronto Baptist College on Bloor Street is a grand effort in architecture. The building is five storeys in height, and is constructed of brown stone faced with brick. It is considered one of the most complete buildings of its kind in America. It was presented to the Baptist denomination by the late Hon. William McMaster, hence its name, McMaster Hall.

Upper Canada College ♣ ♣ At the head of Avenue Road rises the stately buildings of Upper Canada College, which institution, founded in 1829, for many years occupied the commodious row of brick buildings on King Street West, opposite the Government House. The grounds surrounding the college are extensive and well laid out, and the interior equipment of the structure is all that modern art and appliances can make it.

Normal and Model Schools On Church, Gerrard and Gould Streets, upon one of the most attractive spots in Toronto, are the buildings and grounds of the Normal and Model Schools. The buildings are situated upon the centre of an open square of about seven and one-half acres of ground. The Educational Museum, in connection with the schools, contains specimens of Canadian and Natural History, and the best variety of maps, charts, diagrams philosophical apparatus and school furniture. It also contains an extensive collection of copies of celebrated Dutch and Flemish oil paintings and engravings, and casts in plaster of paris of some of the most noted groups of statuary, together with a collection of English, Canadian and classical busts.

E. BOISSEAU & CO., Temperance and Yonge Streets

Exhibition Grounds The Exhibition Grounds occupy a model site on the Garrison reserve, overlooking Lake Ontario. The grounds are very extensive, and the buildings are commodious, of pleasing designs and perfectly equipped for the purposes for which they were erected. Here is held each year Canada's greatest Exposition, and thousands of people from all parts of the Dominion and the United States pay a visit annually to this, the Province's biggest agricultural and industrial show.

Garrison Quarters To the south and east of Exhibition Park lie the Garrison Commons, and, facing the lake, the New Fort and Barracks, where are quartered a portion of Canada's regulars—infantry and cavalry. A little farther east is the Old Fort with its earthen embankment and old cannon and the remains of its strong wooden palisades. Here, in the war of 1812, about 200 United States soldiers were killed, during the taking of the fort, by the explosion of a powder magazine.

CEMETERIES

St. James' Cemetery is at the head of Parliament St., about eighty acres in extent. The grounds are beautifully laid out and planted. The mortuary chapel is a fine specimen of Elizabethan architecture.

The Necropolis is on the north side of Winchester Street. The grounds are tastefully laid out.

Prospect Cemetery is situated on the north side of St. Clair Avenue, west of Dufferin Street.

St. Michael's Cemetery, the burying ground of the Roman Catholic denomination, is situated on Yonge Street, within the city limits. It is very picturesque, and laid out with great taste.

Mount Pleasant Cemetery is situated on Yonge St., about a mile north of the city, covering 100 acres, in which are beautiful drives, artificial lakes, etc. Jewish Cemetery, east side of Pape Ave.

Diamond Hall

From Toronto

SOUVENIRS of the City of Toronto in Spoons, Brooches, Flags, Match Safes, Belt Buckles, Hat Pins, Etc., we have in most artistic designs.

Numbers of these are made expressly for us.

Those having color effects in hard enamel include correct and artistic reproductions of the British, Dominion, Provincial and City Coats of Arms.

Our prices are very moderate.

Diamond Hall

"Ryrie" Diamonds

The name "RYRIE," as applied to Diamonds, is synonymous with "the finest."

A Diamond of inferior quality is not permitted to enter our stock.

We purchase directly from the cutters in Amsterdam in extremely large quantities.

Our prices are marvelously low and we personally guarantee the quality of every Diamond sold.

Diamonds enter Canada "duty free."
