

# Souvenir of Weston

1857

1907

Published on the Occasion of the  
High School Jubilee

Benjamin Kent,  
Pupil of  
High School,  
Weston, Ont., 1857

**B. & H. B. KENT,**  
**144 Yonge Street, TORONTO**  
**The Oldest Established Watch, Diamond  
and Jewellery House, in Canada.**

Benjamin Kent,  
Head of  
Diamond House,  
Toronto, 1907

HE NAME and reputation of "KENT" is probably more favorably known throughout Ontario, and particularly amongst the older residents of York County, than any existing Jewellery House in Canada. At Weston High School on opening day, the name of Benjamin Kent may be found enrolled. To-day, the same name, the same person, is head of the most successfully conducted Jewellery House on the Continent. The high reputation of anything purchased from Messrs. B. & H. B. Kent, is always admitted. This has been earned by a determination to at all times have attractive price and quality values. Not only "how good," but "how reasonable" in price can an article be sold, are two features which have made this house the attraction for economic purchasers of High Grade Jewellery, etc. Visitors and inquirers always welcome.

**B. & H. B. KENT,**  
**THE LEADING WATCH AND DIAMOND HOUSE,**  
**144 YONGE STREET, TORONTO, ONT.**

# The Object of This Book

---

**T**HE OBJECT of this book is to forge a link between the past and the future. We live in the fleeting present, finding ourselves constantly face to face with the future, where all our hopes and ambitions lie. A review of the past refreshes our memories that we may profit by the light of experience. So it is well at times to rest and let by-gone events pass in order before us.

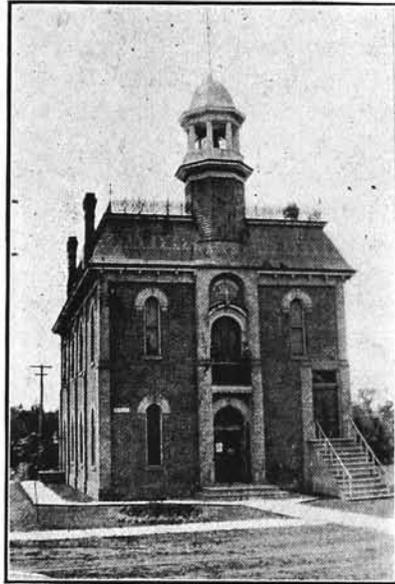

Together with the commemoration of the Jubilee of the High School, we wish to place before the public the many claims of our town as a residential, manufacturing and educational centre. This we have endeavored to do by the use of pen and camera. How far our efforts have been successful, we leave to our readers and the future to decide. If therefore, this volume carries a message of advancement to its readers, marking, as it does, one more milestone in the progress of Weston, and prove—as we trust it will—a benefit to our town, our object and hopes will be realized.

THE EDITOR.

# A Progressive History

---

**F**EW TRACES now remain of the hamlet that once occupied the spot where Weston now stands. In the Gazetteer of York County, published in 1838, by Dr. Smith, we find mention made of Weston when the major portion of the village was situated on the west side of the Humber. There were only two saw mills, a cooper shop, four small houses and an hotel on the eastern side while across the river stood a church and parsonage, two small houses, a grist and saw mill, a public house and a distillery. Since then the town has built on the eastern side of the river. In 1843 a post office was established on the York side, and the plank road built, after strenuous opposition from the property owners in Etobicoke. In 1881 the place was incorporated as a village and in 1882 the first Council was elected, composed of the late Wm. Tyrrell, late J. Conron and Mr. Sykes, Councillors. constant repetition of the same names holding served two terms of five and three years respectively. The late Mr. Tyrrell served for five years; the late Mr. T. Walsreeve in 1890, '93, '94, '95 and '96, and for four years composed of Reeve, Dr. E. F. Irwin; Council-Farlane and H. A. Coon. To the sterling repute that has attended the town. Conventional centre, Weston can more than hold its growth has been substantial. The picturesque summer and electric lighted, renders it difficult road along which the hardy pioneers teamed "Muddy York." If less poetical, however, it and it is in the future that Weston pins its attention, transportation and power facilities, with a Municipal Council picked from their town a continued era of increasing prosperity.

**TOWN HALL**

In the Gazetteer of York County, published in 1838, by Dr. Smith, we find mention made of Weston when the major portion of the village was situated on the west side of the Humber. There were only two saw mills, a cooper shop, four small houses and an hotel on the eastern side while across the river stood a church and parsonage, two small houses, a grist and saw mill, a public house and a distillery. Since then the town has built on the eastern side of the river. In 1843 a post office was established on the York side, and the plank road built, after strenuous opposition from the property owners in Etobicoke. In 1881 the place was incorporated as a village and in 1882 the first Council was elected, composed of the late Wm. Tyrrell, late J. Conron and Mr. Sykes, Councillors. constant repetition of the same names holding served two terms of five and three years respectively. The late Mr. Tyrrell served for five years; the late Mr. T. Walsreeve in 1890, '93, '94, '95 and '96, and for four years composed of Reeve, Dr. E. F. Irwin; Council-Farlane and H. A. Coon. To the sterling repute that has attended the town. Conventional centre, Weston can more than hold its growth has been substantial. The picturesque summer and electric lighted, renders it difficult road along which the hardy pioneers teamed "Muddy York." If less poetical, however, it and it is in the future that Weston pins its attention, transportation and power facilities, with a Municipal Council picked from their town a continued era of increasing prosperity.

The municipal life of Weston has showed a the office of Reeve. The late Mr. Tyrrell spectively, while Dr. W. J. Charlton was worth for three years and Mr. J. Bull who was years, from 1903--1906. This year's Council is lers F. W. Moffat, F. W. Griffith, Wm. Memorial worth of the men who have held the we must ascribe a large proportion of the pros- sidered as an industrial, residential or edu- own. It has had no great boom, but its tree-bordered Main Street, well watered in cult to recall to the imagination, the old plank the produce of their hard-won acres into is vastly more profitable to look to the future, faith. With every possible advantage of situ- a progressive and enterprising population and smartest business men, there is sure to be for the

# What Weston Offers Manufacturers.

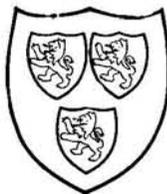

---

 SITUATED within a few miles of Toronto, on the main line of the Grand Trunk, and the Owen Sound, Sudbury and Teeswater sections of the Canadian Pacific Railway, connected with Toronto by the Suburban Electric Railway, Weston is most advantageously placed for industrial purposes. That its claims are recognized, is evidenced by the fact that many industries have located in the town within recent years. The present year has seen very many important additions to Weston's industrial assets. To enumerate some of these newest comers we may mention the Weston Tool and Novelty Company, incorporated last month with a Capital of \$40,000, for the manufacture of Hardware Specialties, while the same Company already has in contemplation the erection of factories for the manufacture of Carriage and Automobile Tires. The Reliable Bedstead Company is another new addition; they are manufacturing Iron and Brass Bedsteads. The Barron Brick Company, of Chicago, has located at the northern end of the town and is erecting a plant that will be one of the best and most up-to-date on this side. At the other side of the town W. G. Trethewey, of Cobalt fame has acquired a large tract of land on which he has erected a Canning Plant, carried on under the name of the Sanitary Packing Company, of Weston. The Company's buildings and plant are the largest yet erected in Canada and will employ a large number of hands. The famous National Stoves and Ranges that are known from one end of this continent to another and that are being extensively used in Europe and Asia are manufactured in Weston, by The Moffat Stove Company, Limited who established here in 1892. An old established industrial concern is the Flour Mill of Messrs. C. & W. Wadsworth, which has been on the banks of the Humber ever since 1815. This mill manufactures the well-known "Three Lion Brand" of Graham and Whole Wheat Flour. Messrs. J. Cruickshank & Sons have been manufacturing the famous Cruickshank Wagon in this town for over half a century and their works are well known throughout the Country. The Weston Machine Shop and Foundry which was established in the early part of last century, by the late James Coulter, is still in the family and is under the management of Mr. Levi Coulter, a son of the founder. In 1830 the late Thomas Longstaff commenced to manufacture Pumps in Weston and at the present day, Walter, the son of the founder runs the Weston Pump and Windmill Works, which have acquired a reputation for Pumps and Windmills.

We would say to all Manufacturers looking for sites,—come and see our town. We can offer all necessary facilities in the way of Power, Light and Shipping Facilities, while the town can be depended upon to give all legitimate assistance to manufacturers establishing here. Many good factory sites are to be obtained, with a nominal assessment on land and buildings. The Hydro-Electric Power By-law has been passed by the town, power can also be obtained from the Street Railway wires and from the Stark Power Company, whose works are situated on the Humber, just outside the town. The Electric Plant owned by the town, provides good and cheap light. Both Railways grant Toronto shipping rates to manufacturers, with all facilities for large shippers. Good houses for workmen can be had right in the town, with easy terms for men wishing to buy or to build.

**WESTON MILLS,**  
**Erected 1856 by C. & W. Wadsworth**

REG. TRADE MARK

**S**ITUATED on the banks of the Historic Humber at the West end of the town of Weston are the flourishing Mills of Messrs. C. & W. Wadsworth. In the year 1815, Jas. Farr built a Flour Mill on the site. In the year 1828 the firm of C. & W. Wadsworth was established and acquired the mill. The old mill was destroyed by fire and in the year 1856 the present one was erected by Messrs. C. & W. Wadsworth, the grandfather and great uncle of the present proprietor. Major C. Wadsworth, who still runs the mill under the firm name. The "3 Lion Brand" of Graham and Whole Wheat Flour which Major Wadsworth, has recently introduced, is meeting with great success and is very popular with the trade. The mill has a capacity of 150 bbls. of Graham and Whole Wheat Flour and 100 tons of Feed per day.

**WALTER LONGSTAFF, Prop.**

The Weston Pump Works—one of the oldest establishments of its kind in the Province of Ontario was established on its present site in 1830, by Mr. Thomas Longstaff, father of the present proprietor. About 1876 the business was transferred to and was carried on by Messrs. R. & W. Longstaff, up to November 25, 1892, when Mr. Walter Longstaff purchased his brother's interest in the business and good will of same.

To-day he is sole proprietor and is doing business at the same old stand and has some specialties to which he invites your attention.

# A Retrospect of Weston High School

1857—1907

---

**T**HE SHORT time at our disposal in getting out this Souvenir will not allow us to give as complete a history of this old school and its many graduates as we would wish. Since its inception, the Weston school has given to the world as many prominent men and women as have its contemporaries. Notable graduates can be found in all the walks of life, but the legal and the medical profession have possibly claimed the largest percentage, as we discovered when we set out to obtain photographs of the ex-pupils for insertion in this book. Had we consulted our own desires in the matter, we should have published portfolios too large a volume. We also found that a large percentage of them not having Particularily was this evident among the gentlemen in favor of higher education then known as the Weston County first board were:—Dr. John Banks, Dr. J. A. Donaldson and J. S. Dennis. The Methodist Church, under the Principalship of the Rev. J. B. Logan, M. A., and Ambrose Kent, prominently known in the commercial life of Toronto, as jewellers, also J. K. Macdonald, treasurer of the County of York and manager of the Confederation Life Insurance Company. The next year the school was removed to a stone building which stood on the north-west corner of King and Main streets, the old Porter homestead. In the fall of the same year, 1858, a building was erected on the present site. In January, 1866, James Hodgson, Esq., father of our present High School Inspector, was appointed principal. He was succeeded in 1871 by John Somerville, M.A. About this time the name was changed to the Weston High School, District No. 1. We also see by the minute-book that the Board of 1871, Dr. Bull, W. R. Wadsworth, J. Conron, J. Cruickshank, J. P. Bull and W. Nason, purchased

**The High School**

gentlemen in favor of higher education then known as the Weston County first board were:—Dr. John Banks, Dr. J. A. Donaldson and J. S. Dennis. The Methodist Church, under the Principalship of the Rev. J. B. Logan, M. A., and Ambrose Kent, prominently known in the commercial life of Toronto, as jewellers, also J. K. Macdonald, treasurer of the County of York and manager of the Confederation Life Insurance Company. The next year the school was removed to a stone building which stood on the north-west corner of King and Main streets, the old Porter homestead. In the fall of the same year, 1858, a building was erected on the present site. In January, 1866, James Hodgson, Esq., father of our present High School Inspector, was appointed principal. He was succeeded in 1871 by John Somerville, M.A. About this time the name was changed to the Weston High School, District No. 1. We also see by the minute-book that the Board of 1871, Dr. Bull, W. R. Wadsworth, J. Conron, J. Cruickshank, J. P. Bull and W. Nason, purchased

the buildings and grounds from the late Mr. Tyrrell. Board during these early times were Wm. Tyrrell, Dr. Board at that time is due some important legislation in Province were forwarded to the Legislature, which the Counties into High School Districts for the proper of 1871, Mr. J. Cruickshank, is still a member of the Principal, when he was succeeded by G. Wallace, B. A., The Principals since were appointed as follows:—R. T. E. Elliott, B.A., 1890; J. W. Forbes, B.A., 1901; Campbell, M.A., 1906.

In 1874 the old school was destroyed by fire and held in the basement of the Methodist Church. In 1875 added in 1889. For a short time after the opening of the lishment of Continuation Classes at Woodbridge, the old a hard fight forging steadily ahead, and this year has been and the teaching staff, earnest, conscientious and capable.

The late Joseph Barker,  
Contractor on first  
High School

Some of the other men who served the School on the Jennings and Dr. Aikens. To the Weston High School education. By it, petitions from different parts of the resulted in the County Councils being required to divide maintenance of the schools. One member of the Board Board. From 1874 to 1875, J. W. Raville, B.A., was until his very sudden and unexpected death in 1886. Dawson, B.A., L.L.D., 1886; Mr. J. W. Gray, 1888; T. Kennedy, M.A., 1902; G. V. McLean, 1906; A. L.

during the time of the re building the classes were again the present building was completed and additional rooms Collegiate Institute, at Toronto Junction, and the estab- school had hard work in keeping up, but it is now after The school at present is well equipped

## The British American Business College, Toronto,

**C**ESTABLISHED in 1860—has the proud distinction of being the oldest Commercial School in Canada. It has a fine equipment, and a most desirable location, and possesses superior facilities for giving an education that will most quickly and surely qualify young people for the practical affairs of life. This School has more positions placed at its disposal each year than there are students enrolled. The College is open the year round, and students are admitted at any time. Catalogue and full particulars, mailed on request.

# When Buying A Piano

---

Bird's eye view showing the enormous plant of Gerhard Heintzman, Limited, grown to these proportions through the merits of their pianos. The small building shows where the first eight Gerhard Heintzman pianos were made entirely by Mr. Gerhard Heintzman himself.

**T**HE most important thing to consider when buying a piano is who made it. Is the maker an experienced piano maker?

You can't tell much about a piano by just looking at it. You can't tell about its lasting qualities by playing on it a few times, **BUT** you CAN tell everything about a piano if you know the record of the maker

For nearly half a century the "**Gerhard Heintzman**" pianos have held the place of honor as "Canada's best piano," a record gained entirely through merit; the makers, whose lives have been spent in manufacturing pianos, can safely say that no piano of even medium grade has ever left their factory; the "best possible" has been and is their motto, so that the wonderful growth of the "**Gerhard Heintzman**" factory, as evidenced by the above picture, is only a fitting tribute to Canadians to their favorite high-grade piano.
