**A NEW AND NOVEL INVENTION,
WHICH COMBINES
Simplicity, Practicability and Cheapness.
AN EXCELLENT IMPROVEMENT
WORTH YOUR CAREFUL INVESTIGATION.**

Regarded by all who have examined it as trustworthy, and containing all the elements requisite to work up a lucrative business. It is of such a nature as to readily commend itself to customers wherever shown, and we, therefore, do not hesitate to fully endorse it.

Apparatus and Track for Moving Houses.

Mr. J. M. ABBOTT, of Sauk Center, Minnesota, has lately procured a patent for an excellent invention in this line. This invention has for its object to furnish a track and equipments to be employed in the removal of houses from one place to another; and it consists in a track made in detachable parts, as hereinafter set forth, which may be readily and easily taken up from the rear and again relaid in substantial form in front of the house, and in other improvements, all of which will be fully hereinafter explained.

Hitherto, in the removal of houses, cumbersome and unwieldy timbers and rollers difficult to apply and control have been employed.

In this invention there is a series of light rails suitably joined at their ends, and held longitudinally together by hooks and staples and laterally by removable ties, the several parts being so constructed that they may be easily detached one from the other and carried from the rear of the house to the front, and laid down and connected together and to the portions of the track under the house, and thus preserve for practical purposes a continuous track with but little labor and no loss of time.

The trucks, which support the house, are composed of a longitudinal head beam and a cross beam, to which are affixed braces, in the lower end of which a roller is journaled. On top and at opposite ends of the head beam there are placed metal strips which serve as tracks for the friction wheels or casters affixed on the ends of the supporting beam. The truck is provided with a king bolt or pin on which it turns.

The supporting beam has a central bolt hole which fits over the king bolt on the truck. On top of the supporting beam are a series of spurs or pins, which are adapted to enter the sills of the house and prevent the latter from sliding on said beam.

Friction rollers or casters are fixed to the under side of and at opposite ends of the supporting beam, and so arranged that they run on the tracks.

The beams and the truck readily adapt themselves to any swinging or turning movement to which the house may be subjected.

With this device the direction in which the house is drawn may be changed without trouble beyond that necessary in drawing it in a continuously straight direction. The track may be laid around the corner between two streets, and the movement of the house made thereon the same as though it were straight.

In the outset the house is raised in the usual manner, the track laid in proper position under it, and the trucks with beams arranged in proper position under it and on the track. The weight of the house is then permitted to rest on top of the beams, the pins entering the sills. Sufficient track is provided and laid down in front of the house, on to which the latter is drawn. The track first laid down under the house is taken apart and carried and laid down in front, and the house is again moved on to it. The track now in the rear is brought forward in the same manner, and is relaid in front, and thus the operation of taking up the rear track and laying it in front is continued, and a continuous track is provided without trouble.

PREFACE

THE Publishers, in presenting this the Second Edition of the City of Winnipeg and Incorporated Towns Directory, beg to state that extra precautions have been taken to make it equal to any work of a similar nature and second to none.

The Compiler having gone to Montreal to superintend the work while going through the press, we are able to place the Directory in the hands of subscribers in 30 days from the time the information was taken.

The best evidence of the advancement of Manitoba is that this year's City and Towns Directory is 40 per cent. larger than that of the preceding year.

Having been repeatedly urged to issue a complete Directory of Manitoba, we have much pleasure in presenting our First Edition. We have had great difficulties to contend with in securing the names and Post Office addresses, throughout the Province. Many of the names may be repeated, but we considered it better so than to run the risk of omitting any. The Post Office is the nearest one to section occupied.

We call particular attention to the Miscellaneous Directory, in which will be found a vast amount of information of importance to all classes.

We take this opportunity of thanking our patrons for their liberal support. The work of revising and preparing for next year's edition will be commenced at once, and is certain to be 20 per cent. larger.

THE PEOPLE OF WINNIPEG

—AND THE—

PRAIRIE PROVINCE, who contemplate returning to Canada and the East, and who desire to travel over the best and quickest routes, should take the *All Rail Route through St. Paul*, and over the

ST. PAUL AND CHICAGO THROUGH LINE,

by way of Elroy and Madison, Wisconsin, *to Chicago*, at which point close connections are made with all Lines running in connection with the Grand Trunk and Great Western Railways.

The St. Paul and Chicago Through Line, which is composed of the Chicago & Northwestern and Chicago, St. Paul, Minneapolis & Omaha Railways, is ***THE ONLY CONNECTING LINE BETWEEN CANADA AND MANITOBA*** that runs into and out of the same depot at St. Paul as the St. Paul, Minneapolis & Manitoba and Canadian Pacific Railways, thus *avoiding disagreeable Omnibus Transfers at St. Paul.*

ALSO REMEMBER that the St. Paul and Chicago Through Line is the **ONLY LINE** between St. Paul and Chicago that runs the **PULLMAN PALACE SLEEPING CARS**, and they run these Celebrated Cars on each of their **FAST PASSENGER TRAINS DAILY**. No other Line can take passengers through St. Paul to or from Manitoba without transfer at St. Paul, and no other Line offers the comforts and conveniences of Pullman Sleeping Cars.

THROUGH TICKETS over this Line to Toronto, Montreal, Quebec, and all principal cities in the States and Canada, are on sale at Winnipeg, and if you want to avoid Omnibus Transfer at St. Paul, and at the same time go over a first-class Line, and the only Line running Pullman Sleeping Cars, be sure you get tickets that take you through Elroy and Madison, Wisconsin.

General Traffic Manager,

Chicago, St. Paul, Minneapolis & Omaha Line, St. Paul, Minnesota.

T. W. TEASDALE,

General Agent,

CONFEDERATION LIFE ASSOCIATION.

HEAD OFFICE, . . . TORONTO, ONT.

A HOME COMPANY,

President:

SIR W. P. HOWLAND, K.C.B., Late Lieut.-Governor of Ont.

Vice-Presidents:

HON. WM. MCMASTER, WM. ELLIOTT, Esq., J. K. MACDONALD, Mang. Dir.

Examples of Profits:

Policy No. 1, for \$10,000, Ordinary Life; Premium, \$238.20. Profits for 1876—Cash, \$74.40, or bonus \$217; Profits for 1877—Cash, \$90.60, or bonus, \$285; Policy No. 7, for \$5,000, 10-payment Life, Premium, \$259.40. Profits for 1876—Cash, \$112.40, or bonus \$297. Profits for 1877—Cash, \$130, or bonus \$333.

The above illustrates the immense advantage we give Policy-holders over the ordinary percentage plan, and it places the CONFEDERATION LIFE ASSOCIATION in the van of life companies in Canada. This position has been attained as follows:—By giving NINETY PER CENT. of the Profits to policy-holders; by not paying more for business than it is worth; by adopting a high standard of valuation from the outset; by the exercise of care and economy in all branches of the business, and by employing a mode of division just in its results.

GARMORE'S
Improved Artificial Ear Drums
FOR RESTORING THE HEARING.

THE ONLY SUCCESSFUL ARTIFICIAL EAR DRUM MANUFACTURED.

Don't be HUMBUGGED but BUY the ORIGINAL and GENUINE.

JOHN GARMORE, - - Prop. and sole Manufacturer.

FOR SALE BY

**J. L. MARCOU & CO., 196 NOTRE DAME STREET, MONTREAL,
CANADA.**

CAUTION.

TO MY PATRONS AND THE PUBLIC IN GENERAL:

My success in the treatment of deafness, and in the manufacture of Improved Artificial Ear Drums, has tempted unprincipled and unscrupulous persons to imitate and counterfeit my Improved Artificial Ear Drums, and represent them to the unsuspecting as their own invention and superior to all others. I would caution all persons to beware of them. These Bogus Ear Drums are manufactured by inexperienced persons, and are perfectly useless, and in most cases are injurious to the ear.

After being afflicted with deafness since a child, and having 15 years' experience in the manufacture and use of different kinds of Artificial Ear Drums for deafness, I think the public will be convinced that I am better qualified to treat the Ears and manufacture Ear Drums than an inexperienced person that never used them, and has no experience or knowledge in treating the Ears. The country is flooded with circulars by unprincipled and inexperienced persons who have no reputation at home or abroad, and no regard for the truth, their only aim is to relieve the afflicted of their money, calling the Artificial Ear Drums by various names, and claiming the high honor of inventing them to perfection; dwelling with great length upon their honesty and integrity, &c., &c.

My Improved Artificial Ear Drum is the result of 20 years' careful study and research; they are manufactured of the best materials, and with the greatest care by myself, not trusting to inexperienced hands.

All orders must be sent direct to me or my authorized agents.

No Ear Drums are genuine unless with signature as below printed on the label of each box:

John Garmore's Artificial Ear Drums for Restoring the Hearing.

Assets, \$41,108,602; an increase of more than Three Million Dollars in 1880.

Surplus, \$9,228,294; an increase of one and three-quarter millions of dollars in 1880.

New business, \$35,170,805; an increase of over eight and a half million dollars in 1880.

Amount paid to policy holders and their representatives during 1880, \$4,792,937.

A liberal surrender value in paid-up insurance is provided for in all ordinary policies, in case of forfeiture.

Tontine Savings Fund Policies may be terminated at the close of certain defined periods, on terms more advantageous than upon any other plan. These policies prove more profitable to the policy-holder than any other form of insurance.

Actual examples can be furnished at the Society's Office of persons being insured for ten years, and then, upon terminating their Tontine Policies, receiving cash, in some instances equal to the whole of the premiums paid, in others nearly all.

No technicalities nor arduous conditions in policy contracts.

Policies incontestable after having been in force for three years. All such incontestable policies will be paid at maturity, without rebate of interest, immediately after the receipt at the Society's Office in New York of satisfactory proofs of death together with a valid and satisfactory discharge from the parties in interest, and without requiring any delay even for sixty or ninety days, as has been the custom heretofore, and is still usual with other companies.

For particulars call at the office of the Society,

WHEN DO THEY LEAVE?

Every Tuesday and Saturday

from Duluth, after arrival of the train from Winnipeg, and

Every Monday and Thursday

from Collingwood and Owen Sound.

They go along the beautiful Island Route of the Georgian Bay, and North Manitoulin Channel, sheltered from rough water, and 200 miles shorter in distance.

They make direct connections, and sell Through Tickets to and from all points in Canada and U. S., by Northern, North Western, Toronto, Grey and Bruce, Grand Trunk and Midland Railroads.

As compared with "All Rail," Passengers take one day longer, but save half their money, while Freight is delivered twice as quickly.

They are the only Canadian Line that keep a resident agent in Duluth all the year round to attend to the business of their patrons.

THEREFORE travel yourself and send your freight by the "Collingwood Line."

ST. LAWRENCE HALL.

For the past thirty years this Hotel, familiarly known as the "St. Lawrence," has been a "household word" to all travellers on the continent of North America, and has been patronized by all the Royal and noble personages who have visited the City of Montreal.

This Hotel has been recently re-taken by HENRY HOGAN, the former proprietor, who has handsomely and appropriately decorated and renovated the interior, and completely re-fitted the whole of the apartments with new furniture.

The Hotel is admirably situated, being in the very heart of the City, and contiguous to the General Post Office, the principal Banks, Public Buildings, Law Courts, Commercial Exchanges, Railway and Telegraph Offices.

The Hotel will be managed by MR. SAMUEL MONTGOMERY, under the immediate personal supervision of MR. HOGAN, than whom no one is better qualified to conduct an hostelry of such magnitude as the St. Lawrence Hall, and than whom no one has gained a better reputation as an obliging, generous and considerate host.

*Winnipeg*—George B. Spencer, collector; C. Uhlal Lindsay, appraiser; John Emslie, chief clerk; George H. Young, clerk; Charles N. Bell, clerk; R. J. Jones, landing waiter; George D. McVicar, landing waiter; J. L. McInnis, acting landing waiter; W. R. Mulvey, acting landing waiter.

*Out port of Emerson*—F. T. Bradley, sub-collector; Wm. Mills and E. G. Simcox, acting landing waiters and clerks.

*Out port of York Factory (Hudson Bay)*—Joseph Fortescue, sub-collector.

*Preventive Station* (opposite Smuggler's Point, 20 miles west of West Lynne)—W. P. Leslie, officer.

The above out-posts are under the survey of the collector of customs, Port of Winnipeg. The old Assiniboine tariff of 4 per cent. *ad valorem*, and 25 cents per gallon on ale, wine and spirits, was continued in force till the 30th June, 1874; subsequent to that date the Dominion tariff of 17½ per cent. *ad valorem*, on general goods and on spirits of \$1.20 per Imperial gallon, etc., has been in force. All goods imported from Great Britain pay the same rate of duty as from any foreign country. The following table showing the amount of foreign goods imported each year, the duty paid, the amount of Canadian goods imported, the exports and the total trade, will give an excellent idea of the manner in which we have prospered:—

| Year | Foreign.    | Duty.    | Canadian. | Exports.  | Total.      |
|------|-------------|----------|-----------|-----------|-------------|
| 1872 | \$1,002,002 | \$16,839 | \$150,000 | \$180,000 | \$1,332,092 |
| 1873 | 1,028,597   | 48,074   | 250,000   | 350,000   | 1,628,597   |
| 1874 | 1,863,664   | 67,171   | 500,000   | 1,000,000 | 3,353,664   |
| 1875 | 1,927,994   | 171,430  | 638,674   | 850,000   | 3,715,998   |
| 1876 | 1,733,421   | 253,043  | 960,557   | 1,100,000 | 3,795,978   |
| 1877 | 1,214,833   | 192,480  | 1,018,166 | 950,000   | 3,183,000   |
| 1878 | 1,171,103   | 223,530  | 1,374,311 | 1,050,000 | 3,595,416   |
| 1879 | 1,196,287   | 274,233  | 2,206,085 | 760,000   | 4,272,372   |
| 1880 | 1,238,157   | 297,709  | 3,509,980 | 562,714   | 5,698,620   |

These figures demonstrate other things than the growth of the volume of trade. They demonstrate that while the imports of foreign goods have increased only some \$350,000 in nine years the inter-Provincial trade has assumed relatively much larger proportions. Beginning with \$150,000 in 1872, it has steadily increased till last year it reached over three millions and a half, and this year it is not too much to assert it will reach four and a half millions. Nine years ago the foreign imports were seven times as much as Canadian. Now Canadian goods out-value the foreign by three times.

Navigation is still kept up by the Hudson's Bay Co. in Hudson's Bay (Arctic Ocean), some five vessels per year coming in there, but as the outport of York Factory, at the mouth of Nelson River (the outlet of Lake Winnipeg), is the only port there, in the Winnipeg Customs District, I can only give the figures from there. Its exports, furs mostly, are about \$90,000 to \$100,000, and imports, of course, much less.

N. B.—Registration stamps cannot be accepted in payment of postage.

## DISPOSAL OF UNPAID OR INSUFFICIENTLY PAID LETTERS MAILED IN CANADA.

If for places within the Dominion.—A letter wholly unpaid is not forwarded, but is sent to the dead letter office, Ottawa. If pre-paid, at least one rate, that is 3 cents, the letter is forwarded to destination, but is rated with double the deficient postage. This rule applies also to city or "drop" letters, the postage on which is 1 cent per  $\frac{1}{2}$  ounce.

If for the United States.—A letter, whether wholly unpaid, or insufficiently paid, is not forwarded from Canada, but is sent to the dead letter office, Ottawa, in order to be there opened and returned to its writer. All classes of mail matter for the United States registered on payment of 5 cents in stamps.

If for the United Kingdom or for any country in the General Postal Union.—A letter wholly unpaid is forwarded, but is rated with double postage, that is 5d. sterling per  $\frac{1}{2}$  ounce.

If for British Colonies or foreign countries not in the General Postal Union.—A letter, whether wholly unpaid, or only insufficiently paid, is sent to the dead letter office, Ottawa.

## LOCAL OR "DROP" LETTERS.

One cent per  $\frac{1}{2}$  oz., to be pre-paid by postage stamps.

## POSTAL CARDS.

Canadian postal cards of one cent each circulate within the Dominion, and are transmissible, without further charge, to the United States and Newfoundland.

Special post cards, at two cents each, are issued for transmission to the United Kingdom, and other countries in the General Postal Union.

Newspapers.—Between places in the Dominion, to the United States, to Newfoundland, publishers prepay their edition in bulk, at the rate of one cent for each pound weight; no further charge on delivery. Transient newspapers within the Dominion, to the United States and Newfoundland, one cent per four ounces to be pre-paid by stamp. Transient papers for the United Kingdom, two cents per 4 ounces—each paper being liable to a separate rate of postage.

Periodicals.—Published in Canada not less frequently than once a month, sent from office of publication, or from news agencies, for places in the Dominion, to the United States or to Newfoundland, the postage rate is the same as for newspapers, i.e., one cent per lb. when paid by the bulk weight. Transient periodicals one cent per 4 oz. Newspapers and periodicals for the Dominion, the United States and Newfoundland, weighing less than one oz. each, may be posted singly; if prepaid by stamp  $\frac{1}{2}$  cent each.

Periodicals and books for United Kingdom, by Canadian Line, are subject to the British Book Post Rate, viz:—2 cents per 2 oz. or fraction thereof, whether by Canadian Line or *via* New York; the limit of weight for a single packet is 2 lbs. 3 oz.

Periodicals and books for France.—The rate is the same as to the United Kingdom. Newspapers to France and samples are sent at the above "French Book Post" rates.

A "book packet" may contain any number of separate books, publications, works of literature and art, maps or prints, photographs, daguerreotypes, when not in glass or in frames containing glass; any quantity of paper, vellum, or

parchment (to the exclusion of letters), and the books, maps, papers, &c., may be either written, printed or plain, or any mixture of the three, and may be either British, Colonial or Foreign. Book packages must be open at both ends or both sides.

Patterns.—Rates between Canada and United Kingdom and foreign countries generally, same as for Book Post.

Patterns or samples must be *bona fide* trade patterns or samples of merchandise for sale, and must not be of any intrinsic value; and this rule excludes all articles of a saleable nature, and whatever may have a value of its own, apart from its mere use as a pattern; nor must the quantity of any material or article sent as a pattern or sample be so great that it could have on this ground an intrinsic value.

Patterns, etc., must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, and such like, which cannot be sent in open covers, may be enclosed in bags of linen or other material, simply tied at the neck, or, provided that bags be transparent, they may be entirely closed, if they are for delivery within the United Kingdom. Bags, however, entirely closed, even though they be transparent, must not be used for the transmission of seeds to foreign parts. Patterns and samples of merchandise, not exceeding the weight of 8 oz., addressed to the United States, may be sent at the rate of 10 cents for each package.

A packet of patterns or samples sent to the United Kingdom or any foreign country, must not exceed 24 inches in length and 12 inches in width or depth. The limit of weight is 8½ oz. in all cases.

Parcel Post.—The following rates are for the transmission of parcels in Canada:

|                                                     |          |
|-----------------------------------------------------|----------|
| For each parcel weighing not more than 4 oz. ....   | 6 cents  |
| Exceeding 4 oz. and not exceeding 8 oz. ....        | 12 cents |
| For each additional 4 oz. or fraction thereof. .... | 6 cents  |

Registration fee, 5 cents. Parcels can only be sent by post to places in Canada.

Postages and registration fee must be prepaid. The limit of weight to parcels is 5 lbs.

There is no Parcel Post to any place beyond the limits of the Dominion of Canada. Parcels to Manitoba and British Columbia must not exceed 2 lbs. 3 oz. in weight.

Parcels weighing 4 lbs. may be forwarded to and from Winnipeg only.

This special does not affect other places in Manitoba or the N.W.T.

**MANITOBA MUNICIPALITIES.**

Organized by Act of Parliament 43 Vict. cap. 1.

Under the above Act the Province was divided into 26 municipalities. The following are the boundaries of each, with such information as we could obtain. To the municipal officers who kindly furnished the information we tender our hearty thanks, and only regret that many of them declined or neglected to furnish the required information, as the publication of the statistics of each municipality yearly will show at a glance the rise and progress of each municipality. As the information is published without any expense to the Councils, we trust that next year's Directory will be more complete in this respect. The names of all the residents in Manitoba and a large number in Keewatin are inserted in the Province Directory, except the municipality of Emerson. Repeated enquiries were made

for it, and the Directory, delayed for nearly two months; it was then promised in 10 days. The book was put in the printer's hands. The list has come to hand; when the book was nearly finished the list will be found in the addenda to the municipalities Directory.

#### NO. 12, OR REINLAND.

Comprises that part of the Mennonite Reserve in the counties of Dufferin and Morris not included in Morris or South Dufferin. The council is elected by a general vote of the electors as follows, tp 1, rg 1 E, tp 1, 2, 3, rg 1, 2, 3, 4 W, and the two Eastern sections in tp 1, 2, 3, rg 5, W.

The Mennonite Reserve west of Emerson comprises seventeen townships, and commences about six miles west of the town and extends forty miles westward. It contains a population of nearly four thousand people, divided among thirty-four villages, in some of which are small stores, while there are churches and school houses, a steam grist mill and a grist mill of which the motive power is a windmill. The first settlement was made in 1876. The population of the reserve in 1879 was 2,841 souls, and in that year the total amount of grain raised was a little over 200,000 bushels, while the value of their stock and implements was \$140,000. It will be seen that the amount of surplus grain in 1880—that is, grain over and above what is needed for seed and home consumption—amounts to nearly 300,000 bushels, while the value of their stock and agricultural implements amounts to nearly \$400,000, showing a wonderful increase.

There were, during the year past, 167 marriages. There is under cultivation on the reserve 17,987 acres, which were cropped this season as follows: Wheat, 10,656 acres; rye, 72½ acres; barley, 1,922½ acres; oats, 2,679 acres; flax seed, 1,395 acres; millet, 128 acres.

The average yield of wheat in many of the villages was over twenty bushels to the acre, but the general average of the reserve was greatly pulled down by severe injury to, and in some cases destruction of, crops in one or two villages by hailstorms. Following is a table showing the resources and wealth of the reserve:
