CANADIAN STAMP DUTIES.

Up to the 1st August, 1864, there was no stamp required for bills, drafts and notes in the former Province of Canada. But by 27 and 28 Vict., cap. 4, there was imposed a duty on all promissory notes, drafts or bills of exchange, when executed singly, of three cents for the first \$100, and a further duty of three cents for each additional \$100 or fraction of \$100; the duty to be paid by affixing an adhesive stamp. This Act was amended by 29 Vict. cap. 4, which imposed a duty of one cent on notes, drafts, or bills of \$25 and under; of two cents when over \$25 and not over \$50; and of three cents, when over \$50 and not over \$100. The Act also provided that it should not be necessary to obliterate any stamp by writing the signature or initials upon it, terate any stamp by writing the signature or initials upon it, but that the person affixing such stamp should, at the time of affixing, write or stamp thereon the date when it was affixed. This amendment came into force on the 1st of January, 1866, and the law continued unchanged till ist February, 1868, when the Act 31 Vict., cap. 9, came into February, 1868, when the Act 31 Vict., cap. 9, came into force. By this Act, stamp duties were first imposed in Nova Scotia and New Brunswick. No duty is payable under this Act on bills, drafts, or notes under \$25. One cent on notes, &c., of \$25; two cents when over \$25 and not over \$50; and three cents over \$50 and not over \$100, with a further additional duty of three cents for each additional \$100, or fraction of \$100. The duty is payable by stamps, which are to be obliterated by signature, initials, or some material or integral part of the instrument written thereon, or by writing or stamping thereon the date of affixel writing or stamping thereon the date of affixal.

The rates will be more apparent by the following table:-

On Bills of Exchange, Drafts and Promissory Notes.

AMOUNT.	Singly.	Duplicate each part.	Triplicate each part.
\$25	0 03 0 06 0 09 0 12	\$0 01 0 01 0 02 0 04 0 06 0 08 0 02	\$0 01 0 01 0 01 0 02 0 03 0 04

In computing the duty, it must be borne in mind that any interest made payable at maturity with the principal, must be counted as part of the amount.

The tax necessitates great care on the part of business men, as the penalty of neglect in affixing or cancelling the necessary amount of stamps is very heavy, the instrument being rendered null. Thus the Court of Queen's Bench for being rendered null. Thus the Court of Queen's Bench for Ontario recently held a note for a large amount to be null, because, though the necessary stamps were on the instrument, yet, from having been placed one above another, all had not been obliterated. When duties were first imposed in Nova Scotia and New Brunswick, many of the inhabitants of those Provinces neglected to comply with the provisions of the Act, and a measure for the relief of these persons (31 Vict. cap. 52,) was subsequently passed.

LOVELL'S SERIES OF DIRECTORIES.

Dominion, Provincial, County, City. and Town Directories.

THE want of accurate, reliable and intelligible Local Directories has been commonly felt and generally expressed by all classes in Canada, and only in a less degree by the inhabitants of e n eighboring Provinces. Indeed the complaint has become so common, and the requests to remove it so urgent, that the Publisher of the Dominion Directory has determined to make the experiment, and discover for himself what encouragement may be expected for such books as the commercial public have very generally concurred in asking for. Should the first experiment turn out satisfactorily, it is the Publisher's intention to follow it systematically, and at stated periods, with new and enlarged editions of the same works. He begs further to say that whether such Directories be general in their character, like the Domiion Directory; or local, like the Provincial Directories; or Municipal, like the County, City or Town Directories, they will in either and all cases be prepared with the greatest care, constructed on the simplest plan, printed in a uniform manner and bound according to a uniform pattern.

As the Publisher of the Cominion Directory is thoroughly acquainted with the modes in which information for such use should be obtained, and as he has accumulated an immenses stock of the requisite materials, and gathered about him a reliable body of men, whom by constant employment as agents or artizans, have made themselves practically, acquainted with every branch of this department of industry, he is able to offer guarantees of his ability to satisfy the commonly expressed want by printing and publishing accurate, reliable and intelligible Directories.

The Publisher has no hesitation in guaranteeing as thorough correctness as it is possible to attain, and respectfully points to the accompanying Directory as an example of the character of the work and of the workmanship he will study to maintain in the projected series. Intimation from merchants and gentlemen in localities where the want of a Directory is recognised, would be accepted as a special favor, and acted upon wherever practicable.

QUEBEC—The stronghold of military power in British North America, and capital of the Province, is situated on a rock-bound promontory formed by the confluence of the Rivers St Charles and St Lawrence, 180 miles below the city of Montreal. It is very strongly fortified, completely commanding the navigation, and by military authorities is declared impregnable. The city is reputed to have derived its name from the words "Quelibec" the exclamation of its hardy and adventurous discoverers when first its site broke on their astonished view.

Asylum, the largest and finest building of the kind in the Dominion. In wealth, population and importance, Quebec ranks next atter Montreal in the Dominion, and as a seaport town third, or first after Halifax, N. S., and St. John, N. B. She carries on a considerable trade with the surrounding country and with the ports and fisheries below, but her principal business is rhip building and the lumber trade. She annually launches a large number of vessels, rigged and equipped, and of varying tonnage (from 1,000 to 2,000 tons and more) and exports millions of feet of timber, besides other produce of the country. The building of the Gosford railway (recently opened) and the construction of the North Shore and Levis and Kennebec railways, will prove of incalculable benefit to Quebec, and add much to her commercial prosperity. The North Shore railway will give her direct communication with the places lying westward between her and Montreal on the north shore of the St Lawrence, as she now has with the south by the Grand Trunk railway and the Levis and Kennebec railway, with the State of Maine, and, perhaps, New Brunswick. Quebec is well lighted with excellent water from Lake St Charles at an elevation of several hundred feet above the highest level of the town. A continuous stream of water can be thrown, by its own pressure, over the highest buildings in the city, rendering next to impossible, with the assistance of a good fire brigade and an excellent fire alarm telegraph system, recently introduced, the recurrence of any of those serious conflugrations which have acted so injuriously on Quebec's prosperity. Opposite the city are two very important and flourishing towns—Levis and South Quebec. With these there is constant communication by steam ferries. The depot of the Grand Trunk railway is situated in the latter town. From thence trains proceed to all points westward and eastward to Rivière du Loup. Quebec is the summer port of departure of the Allan line of steamers for Liverpool and Glasgow; also of a weekly line

SHERBROOK E—The principal town in the eastern townships, is situated on the River St Francis, on both banks of the River Magog, townships of Ascot and Orford, county of Compton, district of St Francis. Incorporated June 28, 1852. The courts of law for the district, and the registry office for the Division of Sherbrooke, are held here. Here is also the chief office in Canada of the British American Land Co. The town, with the townships of Ascot and Orford, form an electoral district, returning one member to the provincial, and one to the Federal parliament. It is chiefly famous for its water power, which for extent and availableness is scarcely equalled in any other town in Canada. Montreal Telegraph Co. has an office here. The Graud Trunk railway passes through the town. Distant from Montreal 100 miles, from Quebec 121 miles, from Portland 196 miles. Mail daily. Population about 6,000.

Erected as a town in 1850. It is on the site of a fort bulk in 1665 by M. De Tracy, and was for many years the summer residence of successive governors of Canada. The Chambly canal affords the means of water communication with the United States. Sorel possesses an extensive and well supplied market, several ship yards, foundries, breweries, manufactories of boots and shoes and of agricultural implements, and other commercial establishments. The harbour is the winter quarters of nearly all the steamers and river craft plying between Montreal and Quebec, and vessels are loaded here with sawn lumber for the South American and West Indian markets. The Superior and Circuit courts are held here three times a year and the Criminal court twice. The streets are wide, laid out at right angles, and set out with elm and other ornamental trees, which add greatly to its appearance, and the comfort of the inhabitants. The Royal square, with the magnificent elms in its vicinity, is the admiration of all strangers who visit Sorel. Value of assessed property \$1,072,033. Communication between Sorel. Montreal and Three Rivers by steamer daily in summer. Montreal Telegraph Co. has an office there. Distant from Berthier 6 miles, from St Ours 12 miles, from Three Rivers 45

STE ANNE BU BOUT DEL'ISLE

A large village and parish on the Island of Montreal, and north shore of the Lake of Two Mountains, county of Jacques Cartier. Near here is the "fast running stream," on which Moore composed his beautiful Canadian boat song; and, to overcome the obstruction presented by it to navigation, it has been found necessary to construct a short canal for the use of vessels assending the Ottawa. From this place the Grand Trunk railway crosses the Ottawa river on a fine bridge supported by sixteen massive stone piers. The village is contiguous to a station of the Grand Trunk railway. Montreal Telegraph Co. has an office here. Distant from Montreal 21 miles. Mail daily. Population about 1000.
