ST MAURICE FORGES—A small village in the parish of St Etienne, county of St Maurice, district of Three Rivers. Its importance is derived more particularly from its foundry for stoves made from iron collected on the spot. The river St Maurice, on the border of which lie the forges, is navigable some 5 miles above the works to a place called the Gabelle Quarry, whence fire stone is extracted, as also the lime stone required for the smelting operations. The furnace yields from 4½ to 5 tons of metal a day from bog iron ore found, within a circuit of about 6 miles, on the surface of the ground, in layers of from 6 to 18 inches in thickness. The works employ about 200 men. The Grand Falls of Shawenegan are about 15 miles further up the river. Distant from St Etienne 7½ miles, from Three Rivers, opposite a station of the Grand Trunk railway, 7½ miles. Mail tri-weekly. Population about 300.

* ST PHE DE DEGUIRE—A thriving and romantic village in rear of River David, on the River La Vache, seigniory of Déguire, county of Yamaska, district of Richelieu. This parish is but recently canonically divided from that of River David. The St Francis Iron Co. have here extensive iron works. The ore is obtained from the neighboring woods, with which the village is entirely surrounded. The foundries employ a large number of men as well in the smelting operations, as in the manufacture of charcoal for feeding the furnace and digging ore. The produce of the works are transported to the River Yamaska, thence they are conveyed by water to Montreal and other large towns. The La Vache is a small stream emptying itself into the River St Francis. The Co. has good water power thereon, which has been utilized for creating their blast. Distant from River David 7 miles, from St François du Lac 71 miles, from Sorel, a landing of the Montreal and Quebec steamers, 25 miles, from Montreal 70 miles. Population about 225.

*ST THOPIAS (Pierreville)—
A village on the south-east shore of the river St Francis, opposite the village of St François of Lac, district of Richelicu, county of Yamaska. It is inhabited by French Canadians, and a tribe of Abenakis Indians, and is a place of considerable enterprise. Buck and mooseskin gloves, mitts and shees are largely manufactured here. There is a considerable shipyard for the erection of barges. From 10,000 to 12,000 cords of firewood are annually exported from this village to Moutreal, and from 40,000 to 50,000 bushels of grain to different parts of the province. About 4 miles from the village, on the south-east shore of the St François river, near Lake St Peter, the Pierreville Steam Mill Co. has very extensive works, which consist of saw, grist and carding mills. The saw mill turns out annually 12,000,000 feet of sawn lumber. The Company, having enlarged its premises, expects this year to manufacture 15,000,000 feet. The grist mill has 5 runs of stone, supplying the greater part of the surrounding population with flour. Montreal Telegraph Co. has an office here. There is access in summer by teamer from Sorel, fares 4 c, and 25c. Distant from St François due to the form the control the Grand I runk railway, 30 miles, from Montreal 60 miles, fare \$1.50. Mail daily. Population about 1200.

STANSTEAD PLAIN—A picturesque and flourishing incorporated village in the township and county of Stanstead, district of St Francis. It is a port of entry, and possesses a superb Wesleyen church. The Circuit court and registry office for the county are located here. The strata in the region of the Massawippi river are in many parts pierced by considerable masses of beautiful granife. One of the largest masses, measuring about six square miles, occurs between Stanstead Plain and Lake Memphremagog. The stone appears to compare favorably with the best granites of Great Britain and of New England. Its superior beauty and durability cause it to be preferred for structures destined to be of a lasting nature. With the facilities now offered by railways, it is hoped that it will soon find its way into the Canadian markets. The township also contains a soft talcose slate. This has been employed, mixed with oil, for painting houses. Stanstead is contiguous to the Massawippi Valley railway, which is a continuation of the Connecticut and Passumpsic rivers railway. Its railway station is at Rock Island 1½ miles distant. Montreal Telegraph Conand the Western Union Telegraph Conhave offices here. There is a short branch railway from Stanstead to North Derby. Distant from North Derby, the terminus of the Massawippi Valley railway, 5 miles, fare 25c.; from Georgeville 13 miles, fare 75c.; from Coaticook, a station of the Grand Trunk railway, 19 miles. Mail daily, Population about 1000.

THREE BIVERS—The third city in the province, and capital of the district of Three Rivers, is most pleasantly situated on the north shore of the River St Lawrence, at the mouth of the River St Maurice, which is included within its limits, together with the several islands there lying. It is equa-distant (90 miles) from the cities of Montreal and Quebec. The law courts for the District are held here, presided over by a resident judge. Three Rivers is the seat of a R. Catholic Bishop; and the Cathedral is one of the finest edifices in British North America. The improvement of the River St Maurice by the government, in 1852, gave additional impetus and life to Three Rivers; about \$200,000 having been expended in crecting booms and slides on the river, which has already attracted the investment of more than \$1,000,000 in

lumber operations. The source of supply of lumbor furnished by the St Maurice and its tributaries extends over a territory of about 200,000 miles. The St Maurice Lumber Island Company, and Messrs. George Baptist & Sons, have there extensive steam saw mills and machine shope at the mouth of the St Maurice, in which they manufacture a large amount of lumber, chiefly for the American market. The "Gres Mills," the property of G. Baptist & Sons, situated nineteen miles up the St Maurice, also turn out large quantities of lumber yearly. There are numerous other saw mills of minor note; this place being the chief depot whence; this place being the chief depot whence; this place being the chief depot whence; there is shipped to Quebec, England, the West Indies, and the United States. Three Rivers has been a port of entry for some years past, and goods are bonded here if necessary. The steamers from Montreal and Quebec touch at Three Rivers nightly, the time of travel averaging about five hours. The usual cabin fare is \$1.75. A steamer plies semi-weekly between Three Rivers and Montreal; and another, semi-weekly, between Three Rivers and Montreal; and another, semi-weekly, between Three Rivers and Buebec. Extensive iron works are in constant operation in the vicinity of the city. The chief works are those known as the Radnor, St Maurice, Islet and "St Joseph or St Tite." Brickmaking is extensively carried on in the vicinity; and the place affords every facility for shipbuilding. The Quebec Bank has an agency here. There are four efficient fire companies and a company of volunteer rifles, a college and several first-class educational establishments. The causes that have hitherto militated against the development of the numerous resources of the District,—namely, the volunteer rifies, a college and several first-class educational establishments. The causes that have hitherto militated against the development of the numerous resources of the District,—namely, the lack of railway communication, and the extent of impracticable navigation of the St Maurice in rear of the city.—have been greatly removed by the building of a first class brauch of the Grand Trunk railway connecting Three Rivers with Arthabaska; thus opening a direct communication with five New England States, all requiring lumber, and Three Rivers being the nearest and cheapest market whence they could obtain it. An Act of Parliament, granting a land aid, and providing for the construction of a railway from Three Rivers to the Grand Piles on the St Maurice, whence the river is navigable seventy miles further up, was passed several years ago, but no action thereon ever taken. Recent movements, however, lead to the belief that the building of the road will shortly be commenced, as well as the construction of the North Shore railway direct from Quebec to Montreal. These roads will be a great boon to Three Rivers, and facilitate the settlement of the country as well as open an immense field for the manufacture of iron by connecting the above named iron-works with the city and thence with the markets of the whole Dominion. The famous Falls of Shawenegan, second only to those of Niagara, are twenty-four miles from Three Rivers, and those of the Grand Mère thirteen miles further up the St Maurice. The Montreal Telegraph Co. and People's Telegraph Co. lave offices here. Ferry boats are in regular communication with the Arthabaska railway, opposite the city, and different points in its vicinity, fare 20c. Distant from Batiscan 21 miles, from Sorel 45 miles, from Quebec 90 miles, from Montreal 90 miles. Mail daily. Pc pulation about 9000.

VARENNES—A beautiful and flourishing village on the south shore of the river St Lawrence, between Boucherville and Verchères, county of Verchères, district of Montreal. Its position is one of the most magnificent between Montreal and Quebec. Two saline springs are situated about a mile below the village, not far from the St Lawrence, and about 100 rods apart. The one enclosed within the house is known as the gas spring, from the large volume of carbonated hydrogen gas which it emits. This was formerly collected and employed in lighting the house. The outer one is known as the saline spring and is the chief one used for drinking. It yields from 2 to 3 gallohs of water in a minute. The erection of summer residences, and of a first-class hotel is contemplated. These are intended to be for the accommodation of invalids from the Dominion and the United States. Varennes has some extensive carriage factories, and a good flax scutching mill. It is accessible in summer by a steamer plying between Terrebonne and Montreal daily. Distant from Boucherville 5 miles, from Ste Julie 9 miles, from Verchères 9 miles, from Montreal & miles, fares, by stage 50c., by water, 40c. and 60c. Mail daily. Population about

LOVELL'S SERIES OF DIRECTORIES.

Dominion, Provincial, County, City and Town Directories.

THE want of accurate, reliable and intelligible Local Directories has been commonly felt and is generally expressed by all classes in Canada, and only in a less degree by the inhabitants of the neighboring Provinces. Indeed the complaint has become so common, and the requests to remove it so urgent, that the Publisher of the Dominion Directory has determined to make the experiment, and discover for himself what encouragement may be expected for such books as the commercial public have very generally concurred in asking for. Should the experiment turn out satisfactorily, it is the Publisher's intention to follow it systematically, and at stated periods, with new and enlarged editions of the same works. He begs further to say that whether such Directories be general in their character, like the Dominion Directory; or local, like the Provincial Directories; or Municipal, like the County, City, or Town Directories, they will in either and in all cases be prepared with the greatest care, constructed on the simplest plan, printed in a uniform manner and bound according to a uniform pattern. Moreover, they will be issued at a price that will place them within the convenient reach of every person who has occasion to avail himself of such information as a Directory is intended to supply.

As the Publisher of the Dominion Directory is thoroughly acquainted with the modes in which information for such uses should be obtained, and as he has accumulated an immense stock of the requisite materials, and gathered about him a reliable body of men who, by constant employment as agents or artisans, have made themselves practically acquainted with every branch of this department of industry, he is able to offer guarantees of his ability to satisfy the commonly expressed want by printing and publishing accurate, reliable and intelligible Directories.

The Publisher has no hesitation in guaranteeing as thorough correctness as it is possible to attain, and he respectfully points to the accompanying Directory as an example of the character of the work and of the workmanship he will study to maintain in the projected series. Intimation from merchants and gentlemen in localities where the want of a Directory is recognized would be accepted as a special favor, and acted upon wherever sufficient encouragement is guaranteed to justify the experiment.

Dominion Directory Office, Montreal, January, 1871.

liable to an additional rate.

Letters posted in and addressed to any place within the Dominion of Canada, if sent unpaid, are liable to a charge

of 5 cents per ½ oz.

In applying the 5 cent unpaid rate to letters passing within the Province posted unpaid or not fully pre-paid—it should be observed that a letter passes either as pre-paid at should be observed that a fetter passes either as pre-paid at 2 cents per $\frac{1}{2}$ oz., on condition that the whole postage due be fully pre-paid—or at 5 cents per $\frac{1}{2}$ oz. if posted unpaid, or only partly pre-paid—in the latter case the full rate at 5 cents per $\frac{1}{2}$ oz. will be marked, and a deduction made therefrom of the amount which may have been paid—thus on an annual distance are sided. ounce letter pre-paid 3 cents only—the rate will be 10 cents and crediting the 3 cents paid—7 cents will remain to be charged, and collected on delivery.

The object of the 5 cent unpaid rate is to induce pre-payment, and thereby relieve the Post Office from costs and

trouble of account and collection, but this object is equally

defeated whether the letter be wholly unpaid, or but partially pre-paid—and therefore the 5 cent rate applies to the whole charge upon the letter in both cases.

The charge on local or drop letters, viz., letters posted at an office in Canada for delivery from that office is one cent for each letter, which must be pre-paid, or the letter will be sent to the dead letter office for return to the writer.

Transmission of Patterns of Merchandise and Samples between Canada and the United Kingdom, and certain other coun-

- 4. Patterns of merchandise and samples may be forwarded between Canada and the United Kingdom, and Denmark, France, Italy, Belgium, and the German States by the Canadian packet mails, at book-post rates, and subject to the following conditions:
- A. The patterns or samples must not be of any intrinsic value; and this rule excludes all articles of a saleable nature, and whatever may have a value of its own, apart from its mere use as a pattern; nor must the quantity of any material or article sent as a pattern or sample be so great that it could have on this ground an intrinsic value.

On this point an explanation in a subsequent Department

Order, appears as follows:

B. It has hitherto formed part of the Imperial post office regulations that "samples or patterns must not be of intrinsic value," but in consequence of the difficulty that has been experienced in determining what is, and what is not, a pattern or sample of merchandise of intrinsic value, this prohibition has been experienced. bition has been removed.

The modification is a verbal one, and will not alter nor enlarge in any way, the character of the transmission per-

mitted to pass by pattern post.

The special prohibition as to intrinsic value has, it is understood, been withdrawn, not because the question of value will not still influence a decision as to whether an article offered for transmission by pattern post is a genuine commercial sample (or pattern) or not, but because as a general proviso it could not well be enforced; inasmuch as general proviso. every article, whether properly a pattern or sample or not has necessarily more or less of an intrinsic value, and might be held to be amenable to a strict construction of this prohibitory clause in the regulation.

- C. The patterns, &c., must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, and such like, which cannot be sent in open covers, may be enclosed in bags of linen or other material, simply tied at the neck; or, provided that bags be transparent, they may be entirely closed, if they are for delivery within the United Kingdom. Bags, however, entirely closed, even though they be transparent, must not be used for the transmission of seeds to foreign parts.
- D. The rule which prohibited the transmission through the post, as patterns, of articles of cutlery, &c., has been rescinded; and scissors, knives, razors, forks, steel pens, nails, keys, watch machinery, metal tubing, pieces of metal or ore, and such like articles, are now allowed to be forwarded by the post of articles. warded by the post as samples, provided they be packed and guarded in so secure a manner as to afford complete protection to the contents of the mail bags, and to the persons of the officers of the post office. Such articles, whoever, must be so packed that they may be easily examined; and it is made a rule that any packet containing such articles, which may be found to be insufficiently guarded, shall not be forwarded through the post. shall not be forwarded through the post,

A packet of patterns or samples sent to France or Portugal must not exceed 18 inches in length, 12 inches in width or depth; a packet to any other place abroad must not exceed 24 inches in length or 12 inches in breadth or depth.

None of the articles named in the rule D. may be sent as

patterns or samples to any place abroad, except Germany,

Belgium, and the British colonies, and not to these places when addressed "via France."

MONEY ORDERS ON THE LOWER PROVINCES.

The money order offices in Ontario, Quebec, and New Brunswick draw also upon all money order effices in Nova Scotia, New Brunswick, Prince Edward Island, and New-foundland. favor of the same payee.

Applicants for money orders should always use the printed application forms, in which they should fill up the particulars of the order required. These forms are supplied gratuitously at all money order offices.

The Christian and surnames in full, and residences, both of the remitter and payee, should be furnished to the issuing postmaster. When a married woman is either the remitter or payee her own Christian name should be given and not

"Mrs. Mary Smith" not "Mrs. John Smith."
If the remitter or payee be a Peer or a Bishop, his ordinary title is sufficient. If a firm, the usual designation of such firm will suffice, such as "Baring Bros.," "Smith & Son,"
"Jones & Co." "Jones & Co."

Parties procuring money orders should examine them Parties procuring money orders should examine them carefully to see that they are properly filled up and stamped. This caution will appear the more necessary when it is understood that any important defect in these respects will throw difficulties in the way of payment.

Money orders, which, in consequence of misapprehension of the name of the remitter or place of payment, have been erroneously made out, can be returned to the postmaster and a correct order given in exchange; a new commission, however, will be charged on the corrected order.

When a remitter desires an order on the United Kingdom to be paid through a bank, it is left to his option to give or withhold the name of the payee, or to substitute for the name of the payee any other designation or modification, such as "the Cashier of the bank of England," "the chief Clerk of the Foreign Office." Such orders must, however, be crossed by the issuing postmaster with the name of the bank through which the order is to be paid. bank through which the order is to be paid.

The issue of money orders on credit, or for cheques not

marked "good" by the bank drawn upon, is strictly prohibited.

If a payee is unable to write, he must sign the receipt at the foot of the order, in the presence of the paying postmaster, by making his mark, to be witnessed in writing; as His $Joseph \dagger Allen$. for example

In cases of money orders issued in Canada, postmasters are at liberty to accept the written order of the payee on the order itself in favor of a second person, if through illness or insuperable difficulty the payee is prevented from presenting the order in person.

When a Canadian money order has been lost, either by the remitter or payee, the circumstance must be made known to the superintendent, who, under certain precautions, will

issue a dúplicate.

Duplicates of sterling orders can only be granted by the paying country. Thus the British post office issues duplicates of orders drawn in Canada on the United Kingdom, and the Canadian Head Money order office grants duplicates of orders drawn in the United Kingdom on Canada.

Money orders which are not presented until one full year after their date are considered as lapsed orders, and cannot be paid without the special permission of the superintendent.

In all such cases satisfactory reasons should be given explanatory of the delay in the presentation of the order.

The Deputy Postmasters General of Malta and Gibraltar reachering to since proper orders on the same of money.

are authorized to issue money orders on the several money order offices in Canada. Money order offices in Canada do not, however, grant money orders on Malta and Gibraltar.

Amount in Currency to be paid in Canada for Money Orders drawn in Canada on the United Kingdom, and for Money Orders drawn in the United Kingdom on Canada, from 1d. Sterling to 5s. Sterling.

ber of the firm. If addressed to several persons, it may be delivered to any one of them.

A letter delivered to the wrong person in consequence of his name being the same as that of the person for whom the letter is really intended, should be at once returned to the postmaster from whom received, the party writing on the cover "opened by me through mistake," and signing his name thereto.

name thereto.

TRADE.

IMPORTS AND EXPORTS.

The trade and navigation returns of the Dominion for the fiscal year ending 30th June, 1869, were laid before Parliament, in March, 1870. March, 1870.

The comparative statement given below shows a falling off in the value of goods entered for consumption to the amount of \$4,583,126, the figures being as follows:

Yalue.

10,1867-8.

\$71,985,306,1868-9.

This amount is made up as follows: Deficiency in Dutiable Goods...... \$2,586,354 Free Goods. 1,846,991
Coin and Bullion 647,918
Foreign Reprints of British Copy-rights. 1,873 \$4,583,136
The articles subject to ad valorem duties, upon which the largest amounts of deficiency are observable as regards the value of importations, are the following, viz:

Woollens—imported in 1868-9—less than in 1867-8....\$944,779

Manufactures of leather "" 160,702 \$944,779 160,702 87,208 87,612 86,208 80,773 33,026 32,230 " " " Linen, Leather Leather, "Sole and upper leather, "Small wares, "Paper and paper hangings, Silks, velvets, &c., Unenumerated articles, 74,218 Representing duties to the amount of \$244,910.15 The importations of tea, sugar, cane, juice, and wines in 1869-9, also fell short of the importations of the preceding year, as Value. Duty. Tobacco and Snuff Spirits of all kinds Duty. \$3:2.899 Duty. \$27,139 Less in 1869... Flour and meal.... 137,679 2.241 1868-9 Indian corn. \$135,438 On spirits...
On tobacco,
On woollens and the other articles hereinbefore 322,899

244.910 mentioned..... Showing an aggregate falling off on the goods named,\$730,383 As a set off against the decrease here shown, an aggregate increase of revenue amounting to \$225,319 is found to have taken place on the importation in 1868-9 over 1867-8, of the following stricks with articles, viz :

Cottons, malt, meats, ale and beer, fancy goods, stained window glass, hats, caps, and bonnets, locomotive engines and railroad-cars, manufactures of caoutchouc and India rubber, manufactures of fur, machinery, rectified oils, printed books, and iron.

The statement appended giving a comparative view of the Dominion as represented by the value of its Imports and Exports, shows an increase in the Exports of upwards of \$2,906,898, the exact figures being for exact figures being for :-

1868–9. 1867–8.	\$60,474,781 57,567,888
Increase in 1868-9	2,906,893

This increase is found in the Export of articles under the follow-

ing general heads: Produce of the mine. 2 "the forest.
3. Animals and their produce.
4. Manufactures and ships built at Quebec.

4.......Manufactures and ships built at Quebec.

The Exports of the produce of the fisheries and of agricultural products, show a small decrease. The whole trade in Imports and Exports presents an aggregate amount of \$127,876,951. In this computation taken the value of the goods entered for consumption, and not the value as shown by the column of general Imports, which there is reason to believe gives an exaggerated figure, owing to the fact that Importations removed from a first port of entry to be warehoused at another, have in some instances been erroneously treated as importations at the latter port, after having been entered as such at the former.

MONTREAL TELEGRAPH COMPANY.

HEAD OFFICE, MONTREAL.

CAPITAL, - - - - \$1,000,000.

HUGH ALLAN, PRESIDENT; SIR W. E. LOGAN, GEORGE W. CAMPBELL, M.D., PETER REDPATH AND ANDREW ALLAN, DIRECTORS; JAMES DAKERS, Secretary.

THIS COMPANY was organized in January 1847, with a capital of \$50,000. The line extended from Toronto to Quebec, a distance of 540 miles; nine offices were opened and thirty-five persons employed. The number of messages transmitted during the first year was 33,000.

Since then the Company has, year by year, continued to extend its lines, not only in the Provinces of Ontario and Quebec, where nearly every village of any importance has been afforded ample telegraphic facilities, but also through the Province of New Brunswick, and in the States of Maine, New Hampshire, Vermont, New York and Michigan, in which 110 offices are owned by this Company.

The statistics up to 30th November, 1870, shew that the Company possesses 7,800 miles of poles, 12,147 miles of wire, 630 offices, and 986 employees. Number of commercial messages sent over the lines during the year 1870, was 1,060,000. Number of words transmitted over Atlantic cable 153,092. Number of words furnished to the press upwards of 8,000,000. To give an idea of the facilities that the Company has at its command it is only necessary to mention that during the last Parliamentary Session it was customary to transmit night after night, from its office at Ottawa 20,000 to 50,000 words to the press, and on the night of 17th February, as many as 67,251 words were transmitted. The lines of the Company begin at Sackville, N. B., and extend to Sarnia, at the outflow of Lake Huron.

They also run from the United States border to the Georgian Bay and the most northern towns of Canada.

The Company has wires along all the Railways in the Provinces of Ontario and Quebec, and as soon as the Intercolonial Railway is built their wires will be extended over the whole of that road.

In transmitting cable despatches they are sent direct to Sackville, N.B., the present terminus of the Company's lines, over a circuit of 750 miles.

The Company has likewise branches from Montreal working direct through its connections to the following cities in the United States:

PORTLAND, Maine,...300 miles. OSWEGO, N. Y.,....300 miles. BOSTON, Mass.,.....350 " BUFFALO, N. Y.,....450 " DETROIT, Mich.,....550 "

During the year 1870, the Company erected 821 miles of poles, strung up 1920 miles of wire, and opened 86 new stations. In 1871 they will string an additional wire of 450 miles from Montreal to Buffalo, and have agreed to build lines through the remote districts of Bonaventure and Gaspé, which will be of great service to the fishing interest in that neighbourhood, as well as to the shipping entering the St Lawrence the St. Lawrence.

TARIFF—Between all offices in the Provinces of Ontario and Quebec, 25 cents for 10 words and 1 cent for additional words.
