WATERLOO COUNTY.

This County is composed of five Townships—Waterloo, Wilmot, Wellesley, Woolwich and North Dumfries, the towns of Berlin, (the capital), Galt and Waterloo, the incorporated villages of Ayr, Elmira, Hespeler, New-Hamburg and Preston. It is bounded on the South by Brant and Oxford Counties ; on the West by Perth ; on the North and East by Wellington. When first settled, its official or county business had to be done in Niagara, then in Toronto, after that in Hamilton, till the united Counties of Waterloo, Wellington and Grey were formed into what was for many years called the Wellington District, the official headquarters of which were in Guelph. In 1852, Waterloo, as above composed, became an independent and separate County and Berlin selected as the County Town, where the Court House and Jail were then erected. The original settlements made in Waterloo Township commenced in and about the first year of this century, the principal settlers being people of German extraction from the State of Pennsylvania. In the course of a few years a company of these people purchased a large portion of that Township, these lands being known to this day as the German Company Tract. Being a very industrious and economical people, Waterloo soon became noted for its great prosperity, and settlements were quite rapid, not only from the above class, but from many countries, chiefly from Germany, the people of which being attracted by the similitude of language. Without entering into particulars as to the progress of the different Townships, Towns and Villages which comprise this County, it may be safe to say that no County in the Province can equal it in the wealth, standing and general comfort of its inhabitants. In comparison with all others Waterloo County has fewer mortgages on its farms in proportion to their value than any other, and taken altogether it may be safely be called the Banner or Model County of Canada. Assessed value \$13,718.45. Area 315,535 acres. Population 45,000.

TOWNS.

TOWN OF BERLIN.

The county town of Waterloo County is situated on the main line of the Grand Trunk Railway, 62 miles from Toronto, 58 from London and 12 from Galt, with which it is connected by the Berlin and Galt branch of the G. T. R.

The town is located in a very healthy and well settled portion of the County on an eminence gradually sloping towards the south and west. The first settlement was made in 1830, and a store and blacksmith shop opened. Berlin was made the county town in 1852, and the handsome and excellent county buildings erected the following year at a cost of \$35,000, and the town incorporated.

Since then the town has steadily progressed in manufactures and business, and is now one of the leading commercial centres in Ontario.

The public buildings are all substantial structures, prominent among them may be mentioned the Post Office, Court House and Jail, Town Hall and Market House, Central School, House of Industry and Refuge, St. Jerome's College, Churches, etc., and numerous blocks of very handsome stores on the main streets and elegant private houses adorning the suburban portions. Assessed value, \$1,037,726; Population, 5,343.

J. S. ANTHES,

MANUFACTURER OF

Children's Carriages, Patent Slat and Reed Chairs,
 DRY EARTH CLOSETS, ETC.

The rendering of human excrement inoffensive and harmless, is a task to which sanitarians have long given careful attention. All are agreed that no plan can be more disgusting, unhealthful and dangerous than the use of the common privy vault. It is unhealthful from the noxious vapors which continually arise from it, and dangerous because it is certain, sooner or later, that all wells, springs and underground streams will be contaminated with deleterious substances from this source. It is probable that most of the cases of typhoid fever, so common in Villages and Towns, diarrhea of a persistent type, dysentery, and so-called cholera, owe their origin to drinking water contaminated with human ordure. If the vault must be abandoned, what is to take its place? This answer is, some form of closet, disinfected with dry earth or ashes.

Having purchased the exclusive right from the patentees to manufacture and sell these Dry Earth Closets in the County of Waterloo, and which is by far the best system known for Towns and Villages where there are no existing water works and sewerage. I would invite intending purchasers to examine them and get prices before buying an inferior article and paying a higher price for them.

ISAAC L. BOWMAN,

PROVINCIAL LAND SURVEYOR & ENGINEER.

OFFICES—BERLIN, Church Street. GALT, Main Street, above Mara & Co's. Store.

Orders by letter should state place and character of survey, that the above surveyor may consult as to original monuments and former surveys, his extensive field notes of ten years' practice in the County of Waterloo and adjoining counties; also those in his possession of the late James Pollock, thereby saving time and expense, and securing correctness in surveys.
