P R E F A C E .

We respectfully present our fellow citizens with a New Edition of the CITY OF OTTAWA DIRECTORY, being the third compiled by Mr. James Sutherland, and the second printed and published by us.

In preparing this edition, the Compiler has been careful to meet as far as possible the wants of all classes in our community, and with this end in view, in addition to the usual Alphabetical List of the inhabitants, he has given a full and faithful Business Directory—names of the Farmers in the Counties of Carleton and Russell—the Officers of the several Societies and Institutions in the City;—with an Appendix giving the names and Post Office Addresses of the Members of the Confederate Parliament and Senate, and of the Members of the various Local Parliaments and Legislative Councils of the Dominion—list of names of the Officers of the Civil Service located in this City, with their residences—brief notices of our Manufacturing Establishments—and historical sketches of the Churches of all denominations here.

In referring to our Alphabetical List it will be seen the City is gaining in population, and in a few years, if the present annual increase continues, it will rank in importance with any of the cities of the West. Below, for the information of our readers, we give a summary of names of householders in the Directory, which will, when compared with the number published by us in the fall of 1866, shew an addition of 1,385; or presuming each householder to represent four individuals, an increase in our population of 5,540. Our list of course includes the inhabitants of New Edinburgh and Hull.

For the benefit of our advertising patrons, we have had struck off a large edition of the ADVERTISEMENTS and SKETCHES as they appear in this work, for free distribution throughout the surrounding country. By this means we hope to give more prominence and publicity to the business interests of the City than we have ever before attempted.

We desire to present our acknowledgments to Arthur Harvey, Esq., and other gentlemen connected with Government Departments, for supplying us with such information as enables us to print correct lists of the Members of the various Parliaments of the Dominion, and of the Civil Service at the Seat of Government,—to Edward Bearman, Esq., County Clerk of Carleton,—and to the Newspaper Press of Ottawa. To our Advertisers and Subscribers our especial gratitude is due for the liberal support they have given the enterprise, and we assure them it shall be our constant aim to meet their wishes in all respects.

In future we will endeavor to publish the Directory during the first month of the year, instead of at irregular periods as formerly.

THE PUBLISHERS.

ÆTNA LIFE INSURANCE COMPANY,

Incorporated, A. D. 1820, in Hartford, Conn.

Policies Issued 50,000—Amount Insured \$100,000,000.00.

BY means of the superior system practised by this well-known Company, a policy of Life Insurance may be procured by paying only half the ordinary premium, the balance remaining unpaid at 6 per cent. interest, until cancelled by profits or the settlement of the policy. The following table shows the

Annual Cash Premiums for \$1000.

Age 15	Age 20	Age 25	Age 30	Age 35	Age 40	Age 45	Age 50
\$ c.	\$ c.	\$ c.	\$ c.	\$ c.	\$ c.	\$ c.	\$ c.
7.80	8.88	10.26	11.94	13.80	16.38	19.20	23.46

Profits are divided among policy-holders *annually*, commencing two years from date of entry. These are applied in cancelling loans, so that it is expected the loans will never exceed \$23.88 per \$1,000 policy, to a person aged 30, the interest on which is \$1.43 per annum. Total expense of a \$1,000 policy, age 30, only \$13.37 instead of \$24.70 to \$24.86, the prices charged by the leading old style companies on the Bonus system. A saving is thus effected of \$113.00 per annum on a policy of \$10,000.

Why is the ÆTNA the most economical and most popular Life Insurance Company doing business in Canada? Because, First, with only **ONE SET OF EXPENSES** it does as much business as **FIFTEEN** leading old country companies and has insured more persons the past year than the largest European company has done in the past **TWENTY YEARS**. Secondly, its accumulated funds (now over \$7,000,000) are securely invested at about double the rate of interest usually obtainable in the old country. As profits are divided two years from date of entry, and annually thereafter, only two loans are necessary, and the interest payable by a person aged 30 will probably never exceed \$1.44.

The following testimonial bears twenty-six well known names, embracing some of the best business and legal talent of the metropolis of Canada. Several of them have been insured in the ÆTNA for many years, Messrs. Alex. Milloy and C.F. Pratt holding two of the first policies issued in Canada, 17 years ago. The twenty-six names represent insurances on our books to the amount of over *Two Hundred and Twenty-five Thousand Dollars*.

MONTREAL, Dec. 21st, 1867.

We, the undersigned, having examined original documents, reports and certificates, shewing the standing and position of the ÆTNA LIFE INSURANCE COMPANY, have no hesitation in testifying that we regard the Company as entirely reliable, responsible and honorable in all its dealings, and most worthy of the confidence and patronage of the Canadian public.

CANCERS CURED

By a new, but certain, speedy, and nearly painless process, and without the use of the knife. The cure will be guaranteed, and, as a proof of this, no pay is required until the cure is complete. The moment a cancer is discovered, it should be cured, as it will cost less and is more speedily cured than when of longer standing, and there is nothing to gain, and everything to lose by delay. What now seems a harmless lump in the breast, neck, eye-lid or elsewhere, or small wart or sore on the lip, may in a few short months, become a hideous, disgusting, destroying mass of disease. If required, references can be given to parties who have been cured many years since, and who are now sound and healthy. All communications promptly answered.

E. SPENCER. PHOTOGRAPHER!

24

SPARKS STREET, CENTRAL OTTAWA.

SIGN OF THE CAMERA.

PHOTOGRAPHS ALL SIZES.

Particular attention paid to Cartes de Visites, which are sent by mail, prepaid, to any part of Canada, if desired.

He would call particular attention to his Stereoscopic and other Views of PARLIAMENT BUILDINGS and OTTAWA SCENERY, of which he has a large variety constantly on hand, for sale.

N. B.—The Trade supplied with Stereoscopic and other views at very reasonable rates.

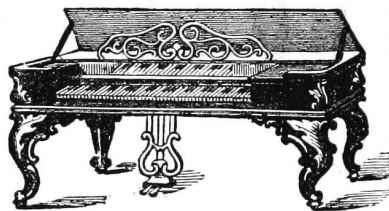

HE HAS LATELY INTRODUCED THE NEW SIZE —OR— CABINET PHOTOGRAPH.

And has, also, at considerable expense, added to his Gallery a new POSING APPARATUS, by the use of which a variety of graceful and easy positions may be obtained, thereby avoiding the stiffness and sameness which unavoidably occur in using the old style of head-rest.

A trial will convince any one of its superiority, both as to comfort in sitting, and grace and elegance of position.

The new size Photograph is a much more pleasing picture than the common card, being nearly four times as large, and only twice the cost. It makes a nice picture for framing, and is in fact the nicest size and style that has yet been introduced. Call and see for yourself, at the old stand.

PROVINCIAL EXHIBITION, 1867.

### BOOKBINDING AND ACCOUNT BOOK MANUFACTURERS.

GEORGE E. DESBARATS, Esq., Sparks Street, commenced business here in the year 1865, and employs a large number of hands. The establishment is furnished with every description of machinery requisite in a first-class Bindery, and is the most complete in the Dominion; the machinery is propelled by steam power. On entering the Bindery, which is a room 96 by 36 feet, we find, on the right and extending half way up the room, the folding and sewing department; here about twenty girls are generally at work and are screened from the view of the sterner portion of their fellow-binders by a partition, which divides the room for a portion of its length, as far as the lifting-way. After being folded and gathered, the books are pressed into solidity by a powerful *smashing machine*, standing near at hand. The book is then striated by a set of circular saws, the teeth of which, when revolving, can scarcely be seen above the table through which they furrow the volumes, and, afterwards, in these furrows are placed the twines to which the sheets are subsequently stitched. For pressing single volumes in sheets a *roller press* is used, which stands next in order; then comes the *board cutter* and two *backing machines*, also a *bevelling roller*, with emery surface, which grinds away with tremendous speed the square of the boards gripped by the annexed jaws, and lifted to meet its ragged surface; its work, nevertheless, is quite smooth and perfect. Then we have two *paper-cutting machines*, whereof the long sharp knives perform a sawing motion, and wait for the books or paper to be raised, by a

---

powerful lever, against their razor-like edge; close by is a machine for sharpening those knives: the abrasive medium here is again emery, mixed with oil, and applied to the surface of a heavy lead wheel, which gradually meets every portion of the knife's edge, the latter being carried backwards and forwards with mathematical precision by an automatic chariot. All these machines are driven by steam, and governed by a main shaft, some forty feet long. Further on are three *standing presses*, in which the books, when covered, are squeezed into solidity; stones for beating and rounding the backs of the books before the boards are fastened thereto; another *board-cutter*; a press for cutting paper to any square, with *plough knives*; a *perforating machine*; two *paper-ruling machines*; and a *steam-gilding press*, for stamping titles, embossing, &c. At the furthest extremity of the room is the *finishers'* stand, where every variety of tool, pallet and roll, is brought into requisition for the finer class of work. Hence have issued books which have been awarded the first prize in our Provincial Exhibitions at London, (Ont.), and at Montreal, and have lately won a bronze Medal at the Paris Exhibition, where they were in competition with the whole world. The tables whereat the *forwarders* work, occupy all one side and end of the room, close to the wall. The room is well lighted, and heated by steam. Altogether, we may say that, outside of New York, Boston and Philadelphia, Mr. Desbarats' Bookbindery can find few rivals in completeness and comfort, as well as in the elegance of its productions.

ALEXANDER MORTIMER, Esq., Metcalfe Street, south of Sparks; established himself in Ottawa, in 1865. His business has largely increased since his commencement here, and during the past season extensive additions have been made to the establishment in first-class machinery imported from the best British manufacturers. The establishment contains the following machines, viz.: one large book cutting machine, three standing presses, two fine ruling machines, a paging or numbering machine, a book rolling or solidating machine, one first-class perforating machine, with other machinery and tools necessary for the turning out of very superior work in blank or account books and general binding. About twenty-two hands are kept in employment.

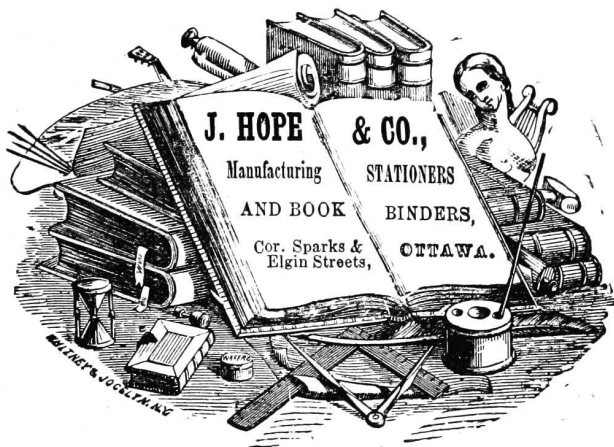

MESSRS. JAMES HOPE & Co., corner of Sparks and Elgin Streets, manufacturing stationers and bookbinders, were established in Ottawa, in 1842. They now employ about ten hands, and are doing a good business.

---

**BREWERS.**

The VICTORIA BREWERY was established in 1847, by JAS. ROCHESTER. It is now carried on by JOHN ROCHESTER, jun., Esq. The brewery is built of stone, three stories high, 56 feet by 32. The malt-house is 80 feet by 27, and is also three stories high. The malt-kiln is 24 feet square. From seven to ten hands are employed in and about the establishment.

very handsome two-story stone building, on a new principle, and entirely adapted for the purpose of Photography. It is 52 feet long and 30 feet wide, with full glass front and side. **FOUNDRIES AND MACHINE SHOPS.**

THE VICTORIA FOUNDRY and Machine Shop is situated on Middle Street, Victoria Island, and is owned and carried on by Messrs. N. S. Blasdell & Co. The main building is of stone, and is 60 feet by 35 feet, three stories high, of which the first and second stories are occupied as machine shops and the third story as a pattern store-room. The blacksmith shop is a one-story stone building, 60 feet long by 39 feet wide. The moulding shop is 50 feet long by 30 feet wide, with an additional store-room of 80 feet by 30. The pattern shop is 40 feet by 40. Opposite the foundry the firm have a very handsome stone building, with cut stone facings and dressings, two stories high, and occupied as a counting-room and offices. This foundry has been established for many years, and contains the very best kind of machinery—some originally designed and manufactured by the proprietors. They received, in 1861, the Prince of Wales' Gold Medal for their patent planing machine, which is considered the best machine of the kind in America. They employ about twenty-five hands, and manufacture saw and grist mill machinery of every description and other heavy and light castings. In connection with the Victoria Foundry, there is a very powerful force pump, requiring a force equal to 80 horses to work; this is fully supplied by the almost unlimited power afforded by the Chaudière Falls. This pump is put up in a suitable stone building in a position where, in case of fire on either side, hose can be attached, and half a dozen streams be made use of. The hose is sufficient to reach any of the main establishments in the vicinity. This pump was manufactured by the proprietors of the Victoria Foundry. It has the capacity of pumping two thousand gallons per minute.

THE CITY FOUNDRY was established in 1848, by Mr. T. M. Blasdell. Mill machinery and agricultural implements are the chief articles manufactured.

### FLOURING MILLS.

THE OTTAWA FLOUR AND OATMEAL MILLS were originally established in 1855. Thomas McKay, Esq., is now the proprietor, and employs about twenty hands. These mills are the most extensive in this section of the country. The flour mill is built of stone, three stories high, 72 feet by 60, and contains six run of stone. The oatmeal mill is also of the same size and height, built of stone, and contains four run of stone. The kiln is a stone building, entirely fire-proof, being 25 feet square. There are two store-houses connected with the mills—one being a stone building, two stories high, 30 feet by 120, and the other a frame, 70 feet by 60. On the premises there is a frame dwelling-house, 35 by 40 feet, two stories high. The counting-room is a brick building, 25 feet by 21. The saw mill, at present carried on by Messrs. A. Baldwin & Co. (about 50 feet square), is a portion of the Mill property.

Messrs. WM. MORRISON, Bridge Street, JAMES WILKINSON at Thompson's Mills, and the HULL MILLS are all kept running, and doing a good business.

### HARNESS MAKERS.

Messrs. HENRY & Co., manufacturers of Harness, Saddles, Trunks, &c., have been established since 1844. They now employ ten to twelve hands, and are doing a large trade. The establishment is situated at 24 York Street.

Messrs. S. & H. BORRIDGE, corner of Rideau and Mosgrove streets, have been in business in this line in Ottawa for a number of years, They are now doing a fair trade, and employing a number of hands.

Messrs. HUGHES & Co., Elgin Street, opposite the Post Office, in business here over two years, manufacture the finer kinds of Harness, Saddles, Ladies' Side Saddles, Trunks, etc. This firm is doing a good business, and turns out remarkably fine work.

### HOOP SKIRT MANUFACTURING.

THE CITY HOOP SKIRT FACTORY was established by Mr. David Millar in the spring of 1867, at No. 43, Sparks Street, Ottawa. The quality of the goods made at this factory is in every respect equal to the best imported, and can be supplied to the retail merchant at a much lower figure. Mr. Millar employs a number of hands, chiefly women, who earn from \$5 to \$6 per week. A number of machines are required for covering and glazing the steel. There are a variety of processes necessary to convert the rough, unpolished wire into the grace-

ful and elastic hoop-skirt: the round wire is first drawn through polished steel rollers by which it is flattened out; it is then passed through a furnace of molten lead into oil, and, thus hardened, it is again drawn through molten lead, which reduces it to the temper or elasticity required to make it fit for covering. The braiders for covering are of the most ingenious character. Sixteen spools revolve round the wire, passing and winding about it in the most curious manner, and with extraordinary rapidity, but with perfect harmony. One of these small machines will cover about three hundred and fifty yards daily; but as each lady's skirt contains from 50 to 100 yards of steel, it takes a large number of these machines to carry on a business. The steel, when covered, is then passed through a composition like paint, on to cylinders heated by steam, which gives it a fine gloss, after which it is taken in hand by the shirt-maker, who weaves it through tapes fitted to forms for the purpose; and after passing through about half a dozen hands in the various processes of finishing, it is ready for sale. Mr. Millar also manufactures Ladies' Corsets. Manufacturing establishments of every kind should be liberally supported by the people among whom they are located. There should be sufficient business in Ottawa to support a Hoop Skirt Factory, and Mr. Millar, as the pioneer in this line, may reasonably hope for success.

feet per diem—there are also edging and butting saws, a new improved filing machine, &c. The firm are now adding another building, 80 feet by 40, for the purposes of sawing lath and pickets. They are also about to erect a mill, 100 by 70 feet, to contain five gates. Mr. Baldwin of this firm commenced operations in the lumber trade in Ottawa, in 1854.

MR. J. R. BOOTH established his mills in 1857, on the Chaudière Island. One is built of stone, 114 by 45 feet, three stories high; the other of wood, 80 by 60 feet; in addition to these Mr. Booth is now adding a new frame building, 96 by 70 feet. One hundred and seventy hands are here employed, and about fifteen millions of sawed lumber turned out during the season. These mills contain 238 upright saws, two circulars, edgers, butters, &c. The counting-room is situated on Albert Island. During the last season Mr. Booth erected a three story stone building, on Albert Island, for the purposes of a warehouse; it is 45 by 48 feet.

MESSRS. BRONSONS & WESTON, established in 1852, on Victoria Island. They now employ 125 hands. Took out, last season, about 125,000 pieces out of the woods; saw, on an average, about twenty million feet. The mill is about 100 feet square, and contains seven gangs, comprising about 175 saws, besides edgers and butters, having a daily capacity of 150,000 feet. This spring a lath and picket mill has been added, 40 by 60 feet, and from 25,000 to 30,000 lath, and about 15,000 pickets, are turned out daily. Lath are here sawed by gang machines, and every piece of slab or edging is made of use, and a source of profit to the Company.

THE NEW EDINBURGH SAW MILLS were established originally by Hon. Thos. McKay, in 1846, but have been carried on by Messrs. J. M. Currier & Co. since 1852. The power is supplied by the Rideau River, near its confluence with the Ottawa. The mill contains three gates, together with a large circular saw, having a capacity of sawing sixteen million feet of lumber during the season. 150 hands are kept employed in and about the mill.

MR. E. B. EDDY, of Hull, has now in operation three saw mills, in which he keeps 160 men employed. A large match factory, built of stone, during the last season, in which 150 hands are employed, besides about half the families in Hull, who are kept at work making paper boxes for the matches. Mr. Eddy has also a very extensive factory for the manufacture of pails, tubs, washboards, clothes-pins, &c. In this department he employs about 65 hands. Through the enterprise displayed by Mr. Eddy, no less than from 600 to 700 men, women and girls, are kept employed, and thus earn the means of subsistence.

MESSRS. PERLEY & PATTEE established their mill on the Chaudière Island in 1859. The counting room and offices are on Head Street, cor. of Bridge. This mill contains five gates, and has the capacity of sawing

sixteen million feet of lumber during the season. They employ about ninety hands in the mill.

During the winter of 1866-7 this firm took out about seventy thousand standard logs. A large number of men are also kept employed in the woods, taking out logs during winter.

Messrs. GILMOUR & Co. have been established about thirty years on the Ottawa River and its tributaries. The mills are located on the Gatineau River, about eight miles from Ottawa, and about two hundred hands are employed; twenty-five million feet are turned out during the season. The lumber yard is about three miles from the mills, and a lumber slide is used for the conveyance of the lumber over the rapids to a navigable point on the Gatineau. A large proportion of the lumber manufactured here is shipped to Great Britain.

Mr. LEVI YOUNG, Middle Street, Victoria Island, commenced business here in 1854. He now employs about ninety men, turns out eleven million feet of sawn lumber during the season, and took out, during the winter of 1866-7, about 70,000 logs. The mill is 60 by 40 feet, has 3 gangs of from 50 to 60 saws each, besides circular saws, edgers, &c. The counting room is east of the Victoria Foundry, and is a one and a-half story stone building, and is also used as a dwelling.

Messrs. WRIGHT & BATSON have been established during the last season, at Hull Landing, opposite the Parliament Buildings. Their mill is 120 feet by 60, containing six gang of saws, and has a capacity of turning out 20 million feet per season. A lath, shingle and picket mill is about to be added. During last summer this firm has built extensive wharfage at the Landing, for the purposes of piling and facilitating the shipment of their lumber.

Messrs. WHITCOMB & PETRIE, Saw Mill and Carding and Fulling Mills, Montreal Street, L.B.F. This firm employs about 30 hands in the saw mill, and anticipate cutting 20,000 logs next season; they usually employ about five or six hands in the carding and fulling mill, and are also manufacturing about 300,000 lath per week, or about 1,000,000 per month.

Messrs. LAW & JOHNSTONE, Le Breton's Flats, have a mill driven by steam, using a forty-horse power engine, and employ 14 men. They manufacture during the season one million feet of lumber, and also run two of the latest improved shingle machines, and saw on an average 30,000 shingles per diem.

### CHURCHES:

#### CHRIST CHURCH (CHURCH OF ENGLAND).

This Church edifice, situated on Sparks Street, is the oldest in the city. It was built about forty years ago, and was enlarged to its present cruciform shape about twenty years ago, during the ministry of the Rev. Dr. STRONG. The Congregation speak of building a more ornamental building, suitable to the present position of the Parish. The Clergy of this Parish now are the Rev. J. S. LAUDER, M.A., Rector, and the Rev. C. F. STREET, M.A., Curate.

The hours of Service, Morning, at 11 o'clock; Evening (*free seats*), at 7 o'clock.

---

#### THE CHAPEL OF EASE

To Christ Church, stands on the valuable site corner of Rideau and Sussex streets. It is intended for a School House, as soon as an intended Church or Cathedral is built close by. The same Clergy serve this Chapel as Christ Church.

The hours of Service, Morning, 11 o'clock; Evening (*free seats*), 7 o'clock.

#### ST. ALBAN'S CHURCH,

Daly, corner of King street. This Church, that forms so ornamental an addition to the new quarter of the city in which it is built, was erected last year and is not yet quite completed. There still remain to be erected the chancel tower and vestry, when it will be one of the neatest, as well as most correct Gothic Church edifices in the Province of Ontario. The nave (a temporary chancel being arranged inside of the east end) is used at present; and was opened for Divine Service on September the 8th, 1867. The whole structure, including a splendid basement-story of the same dimensions as the Church (78 by 38 feet), was completed in six months. At present there is comfortable accommodation for 350; when finished it is expected to seat 500. The cost of site, building, furniture, heating and lighting was over \$10,000, of which \$7,000 remains due, the contributors up to the present being a few friends from various parts of the Dominion, and the gentlemen of the Civil Service residing in the neighborhood; very trifling aid, it is to be regretted, has been given as yet by local Church members. Large numbers of the working classes and the poor at once availed themselves of this Church, the seats of which are all free and unappropriated, while all expense, including the stipend of the Clergyman, are defrayed by the offertory collections. It should be stated that the style and character of the building reflect much credit on the Architect, King Arnoldi, Esq.

**ST. JAMES' CHURCH, HULL.**

The Clergyman officiating in this Church is the Rev. JOHN JOHNSTON, Incumbent. This is a beautiful little church of Gothic architecture, and built to replace the old one, burned down in 1866. The finishing inside is exceedingly chaste and appropriate, and the stained window over the chancel with the tablets at each side add greatly to the beauty and solemnity of the interior. The building cost about \$6,000, and is an ornament to the village and credit to the congregation. Capable of seating about 400 people.

**THE "CATHOLIC APOSTOLIC CHURCH,"**  
(HULL VILLAGE),

At present holding services of worship and prayer in an upper room of the house occupied by the Chief Minister in charge; but, preparing to erect a suitable building for these purposes, and having funds collected for it to a considerable amount. Rev. ED. J. WM. ROBERTS (Episc.), Minister in charge, with several priests, deacons, under deacons, deaconesses, &c., serving under him. The whole congregation numbers about 150 souls. It was organized first in Ottawa in the year 1855, under charge of the Rev. JOSEPH ELWELL, but placed under the present minister in 1856. In 1860 it was found expedient to remove the Altar and hold the services thereat in Hull. Being a small congregation, the members whereof are much and widely scattered, all the services which, under more favorable circumstances, would be fulfilled by it, are at present impossible. Those actually fulfilled are—1st. The Holy Eucharist, with a preliminary Forenoon Service, beginning at 10 A.M., and Evening Prayer, at 5 P.M., every Lord's Day (Sunday). The Holy Eucharist, at 10 A.M., every Tuesday, and on all the principal festivals of the "Catholic Church;" Evening Prayer, daily, at 5 P.M., and Forenoon Prayer, with the Litany, at 10 A.M., on Wednesdays and Fridays. The general doctrines held and taught, of all, without doubt or dispute, are embodied in the three Creeds, commonly called: "the Apostle's," "the Nicene," and "the Athanasian." The particular differences between

---

this and similar congregations and others, consists: 1st. In the former believing in the necessity of an Universal Centralizing Ministry of "some Apostles, some Prophets, some Evangelists and some Pastors and Teachers," having divine authority to care for and to minister to *all the Churches* of the Baptized, binding all together in one doctrine, one fellowship, one breaking of bread, and one object and hope of prayer, with *Apostles*, both those who were given at the beginning, and others believed to be given in these days; and 2nd. In an assured faith and lively hope of the second personal (as distinguished from spiritual) coming of the Lord Jesus Christ, to receive His whole Church—the great body of His faithful baptized people—unto Himself, some by resurrection and others by a change of their bodies; to destroy "the beast and the false prophet," and to set up His Kingdom in visible power, glory and honor upon the earth. The name "Catholic and Apostolic" is assumed not in arrogance, or by way of separation from the rest of the baptized; but, because it is the only true name for the whole Church, and serving as a connecting link with *all* who profess and call themselves Christians, and are baptized into the one body—the Church. The ends contemplated, in all the services of worship and prayer are, first, the restoration of all the Churches of Christendom to unity and peace, as members of "the One Holy Catholic Apostolic Church," and ultimately to that spiritual as well as corporate Ecclesiastical condition, in which they need to be in order to be ready for the Lord's second coming, "as a Bride adorned for her Husband."

**NOTRE DAME CATHEDRAL,  
SUSSEX STREET.**

This elegant Church edifice, erected in 1841, is of the early English Gothic style of architecture, of cut stone, being two hundred feet long and seventy-two feet wide. It is decorated internally in the Polychromatic style, and within a few years has had a very extensive addition made to the original building, and the basement has been elegantly finished and comfortably seated in almost as fine a style as the main edifice. The entire structure will not cost less when finally completed than one hundred and twenty thousand dollars.

The organ, which cost four thousand dollars, was built by Mr. Joseph Casavant, and lately restored and power increased by Messrs. Mitchell & Forté. It is divided into two parts, and appears to be two distinct instruments, but by a neat and ingenious mechanical appliance, the musical powers of both sections are brought under the control of the organist. It has 26 stops, and 16 feet open diapason. For names of Clergy and hours of service, see page 71.

**Young & Radford, Jewellers, 30 Sparks Street, Ottawa.**

Church was built in the year 1857, and was enlarged in 1866. The Church belongs to the Society of the Missionary Oblates. It is built of stone, and cost about \$20,000. The first parish priest was the Rev. F. TRUDEAU, whose memory is still held in veneration; Rev. F. CORBETT COOPMAN followed, and the Rev. J. GUILLARD is the present parish priest, who has been here since the year 1862. The Church contains 220 pews, which can accommodate one thousand persons. An excellent choir, under the direction of the Rev. F. DERBURY, is in attendance; Miss RYAN is the organist, and her talent places her among the first-class artists of the country. Mass, on week days, at 6½ and 7 o'clock in the morning; in Advent, 6½ and 8 o'clock mass; in Lent, 6 and 8 o'clock mass; Sundays, 6, 8 and 10 o'clock mass. Vespers, at 7 o'clock in the evening. The congregation is Irish and French, and the preaching alternates in French and English. The Church is most advantageously situated, next to the Ottawa University.

**ST. ANDREW'S CHURCH.**

With the exception of a small wooden edifice occupied by the Wesleyan Methodists, but which has since ceased to exist, this Church was the first built in Ottawa. It was opened for divine service in 1828. Originally it was a stone building 55 by 45 feet. But to meet the wants of a gradually increasing congregation, it was enlarged in 1854, and although void of all architectural beauty and ornament on the exterior, is nevertheless a neat, commodious and in every way comfortable Church within.

The first minister of this Church was the Rev. JOHN CRICKSHANK, now a minister of a parish in the North of Scotland. He was succeeded in 1844 by the Rev. ALEXANDER MACKID, now retired from the duties of the ministry. The Rev. Mr. MACKID was succeeded by the Rev. WM. DURIE, who died after a very brief incumbency. Mr. DURIE was succeeded by the Rev. ALEXANDER SPENCE, D.D. Dr. SPENCE studied at the Universities of Aberdeen and Edinburgh, and was ordained on the 22nd of February, 1841, as the first minister in connection with the Church of Scotland in the Island of St. Vincent, West Indies. He was inducted as pastor of this Church on the 27th, July, 1848, and resigned his charge on 28th October, 1867. The present minister is the Rev. DANIEL M. GORDON, B.D., inducted 17th December, 1867.

**KNOX'S (FREE) PRESBYTERIAN CHURCH.**

This Church is situated on Daly Street, and was built in 1845. It is a frame building, 80 feet by 40, and cost about \$3000. It will accommodate between 600 and 700 people. The congregation have acquired the corner property adjoining the present site of the Church, on which they are about to build a fine edifice.

The Rev. THOMAS WARDROPE has been the Minister in charge of this Church since its establishment.

Hours of Service—11 A.M., and 6.30 P.M.; Prayer Meeting every Wednesday evening at 7.30, summer, and 3.00 P.M. in winter.

The Manse is on Stewart Street, immediately in rear of the Church.

---

**BANK STREET PRESBYTERIAN CHURCH.**

The building at present occupied by this body is situated at the corner of Bank and Slater streets. This Church, the second in the city in connection with the Canada Presbyterian Church, was organized on the 27th of August, 1865. For some months the congregation worshipped in the Mechanics' Hall on Sparks street, but removed to Bank street when their temporary place of worship was completed, 1st July, 1866. Contracts have been given out for the erection of a handsome and commodious stone church, which is to be erected on the site of the present building. The congregation is under the pastoral care of the Rev. WM. MOORE.

---

**CONGREGATIONAL CHURCH.**

This neat stone building, situated in Town Hall Square, corner of Elgin and Albert streets, Centre Town, was erected in 1862, and is capable of accommodating over three hundred persons. The denomination to which it belongs, first appeared in Britain about the beginning of the Reformation, and have ever since occupied the front rank of the dissenting bodies in that country. At present, in England, Scotland, Ireland, Canada, the United States of America, and other parts of the world, they have more than seven thousand Churches in fellowship with one another. The Church in this city was formed in 1860. In the beginning of 1859, the Colonial Missionary Society, London, England, determined on the commencement of a Congregational cause here, no doubt deeming such a movement of especial importance, as Ottawa had been selected as the future Capital of the Canadas,—and with this object in view, the Committee entered into correspondence, on the subject, with the Can. Cong. Missionary Society, and, under the auspices of the two societies conjointly, the Rev. J. ELLIOT, formerly of Bury St. Edmunds, England, who is now pastor of the Church, entered on the undertaking in July of that year. The few in Ottawa who were prepared to join in the undertaking, rented the Temperance Hall, in which religious services were conducted till 1862, when, with the generous aid of friends of the cause in England and Canada, their church edifice was erected and opened in the course of that year. In 1865, an effort was successfully made to wipe off all the debt that remained on the building; and last year, a handsome end gallery was erected, an organ

introduced, and both paid for. The only debt now remaining on the property is part of the price of the site—payable 20 years from the time of purchase,—and when this is paid, the value of the whole will be about \$8,000. The Trustees are Messrs. James Foote and John Lamb, sen.

Services are held every Sunday, at 11 o'clock in the Forenoon, and 6:30 in the Evening; and Thursday Night at 8 o'clock.

The Sunday School is under the able superintendence of Mr. W. C. SMILLIE, and meets in the Afternoon, in winter, at 3 o'clock, and in the Forenoon, in summer, at 9 o'clock.

---

**BAPTIST CHURCH,**

Queen Street (near Elgin), was erected in 1862. The building is of stone, 40 feet by 50, cost nearly \$4,000, and will seat about 300 people. The first pastor was the Rev. J. MACKIE, who was succeeded by the Rev. R. J. LANGRIDGE. The Rev. Mr. McPHAIL is the present pastor. The hours of service are 11 A.M., and 6½ P.M. Sabbath School at 3 P.M. in winter, and 9½ A.M. in summer. Prayer Meeting every Wednesday evening, at 8 P.M.

---

**WESLEYAN METHODIST CHURCH.**

This Church, situated corner of Metcalfe and Queen streets, was opened for Divine Service in 1853. It is a plain substantial stone edifice without any exterior adornments, but well finished and comfortably seated in the interior, having a gallery on each side and in front. The Church is about 80 feet long by 55 feet wide, with parsonage in rear on Queen Street, and cost originally ten thousand dollars. Services are held at 10.30 A.M. and 6.30 P.M., on Sundays; and Wednesdays, at 7.30 P.M. Sabbath School, 2.00 P.M.; Bible Class, Sundays, 2.00 P.M., in the basement of the Church. Prayer Meeting, on Friday evenings, at 7½ o'clock. Rev. E. B. HARPER, M.A., Minister.

---

**METHODIST EPISCOPAL CHURCH, YORK STREET.**

This Church was built in 1844, during the pastorate of Rev. JAMES GARDINER, and re-built during the past year (1867). It is a handsome brick building, with white brick corners and window arches, and a basement of stone. It is situated at the corner of York and Dalhousie streets, and will accommodate about 400 persons; is provided with a fine large basement for the use of the Sunday School, and is worth about \$6,000. This congregation has established branches in various parts of the adjacent country, and organized what is now a flourishing cause at
