## PREFACE.

### SALUTATORY.

IN placing this small work before the public, the publisher has endeavored to furnish what, in his opinion, will be found a very useful and convenient book. He has every reason to believe this is the first Directory of its kind ever published on this Continent, if not in the world, embracing, as it does, the names and occupations of not only those usually found in the ordinary Directories, but also of all residents of the City, male and female, married and single, over nineteen years of age, so far as it has been possible to obtain them.

Before attempting the publication of this work the publisher gave a great deal of thought to the matter, and at last decided that a Pocket Directory gotten out upon this plan, and sold at a low price, with the price of advertising also placed at a low figure, and a liberality in giving advertisers extra copies, would assure its success both as an advertising medium and also as a quick-selling Book. This success has been achieved, nearly the whole edition being sold before publication, thus assuring a large circulation, of great advantage to advertisers and also to the City at large.

In securing the names, occupations, etc., the publisher has experienced the same difficulty—but to a very small extent in this work—that all Directory publishers have to encounter, viz., carelessness and forgetfulness in answering questions and giving information, and giving wrong or fictitious names, or withholding the name altogether, under the mistaken idea that the work has something to do with taxes or some other money-exacting purpose.

There are errors and omissions in this work, as will be found in all Directories, which are unavoidable in getting out a work of this kind, owing largely to the difficulty above mentioned, and not in any way through the publisher's fault.

The publisher has used his best endeavors to furnish a complete and comprehensive Directory of this City; if he has fallen short of doing this, he asks the forbearance of his patrons, with the plea that it is not through any remissness of his own, but through circumstances beyond his control, and that whatever errors it may contain it will yet be found the best ever published for this City, and well worth the price asked for it.

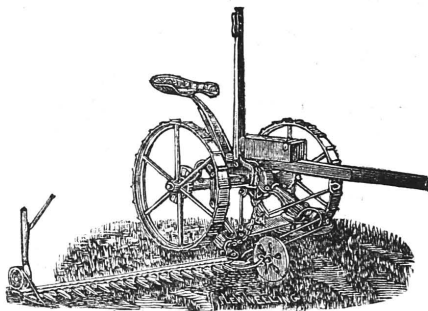

In conclusion, the publisher thanks those who have given him such hearty support through advertising, and also those who in other ways have given information for the work.

CHAS. H. GATCHELL.

**LOCATION POST OFFICE BOXES.**

Queen Hotel; Barker House; Long's Hotel; Parliament Building; Queen street, opposite Post Office; Queen street, front A. N. LaForest; Waterloo Row, corner Sunbury; corner George and St. John streets.

**CITY FIRE ALARM.****SIGNALS FOR WARDS.**

*Wellington Ward.*—Being down as far as Northumberland street, one Tap or one Whistle.

*St. Ann's Ward.*—Being between Northumberland and York streets, two Taps or two Whistles.

*Carleton Ward.*—Between York and Regent streets, three Taps or three Whistles.

*Queen's Ward.*—Between Regent and Church streets, four Taps or four Whistles.

*King's Ward.*—Being below Church Street, five Taps or five Whistles.

**CITY ALARMS.**

The City Alarms are—

1. Whistle on Engine House, Wellington Ward.
2. City Hall Bell, St. Ann's Ward, having electric attachment with gong at Water Works.
3. Methodist Church Bell, Carleton Ward.
4. St. Dunstan's Church, Queen's Ward, having electric attachment with gong at Water Works.
5. Bell on No. 5 Hose Station, and telephone to Water Works from house of J. Rodgers, opposite said Hose Station No. 5.

**HOW TO SOUND ALARM.**

*King's Ward.*—In case of fire in King's Ward, the party sounding alarm will proceed to Rodgers' and telephone to Water Works, "Fire in King's Ward," and also to St. Dunstan's Church and strike alarm by ringing hard for about half a minute, then pausing about ten or fifteen seconds, and then tolling five by five distinct separate taps, then pausing ten or fifteen seconds, and then ring hard as before, and repeat the whole process.

*Queen's Ward.*—If fire in Queen's Ward, sound alarm on St. Dunstan's Church Bell in manner before described for King's Ward, except giving only four Taps when tolling, in place of five.

*Carleton and St. Ann's Wards.*—If fire in Carleton or St. Ann's Wards, sound for Carleton three taps, and for St. Ann's two taps on City Hall Bell or St. Dunstan's Bell, as most convenient, giving the alarm on either of said Bells, in same method as prescribed for King's Ward on St. Dunstan's Church Bell, with the exception of number of Taps tolled.

*Wellington Ward.*—If fire in Wellington Ward, proceed to Engine House (Water Works), where one long Whistle as a general alarm will be sounded for about fifteen seconds, then a pause of about five seconds, then a short Whistle of one second, then a pause of fifteen seconds, then the alarm as before. The Ward signal will always be given by short Whistles, following at intervals of one second, and lasting about one second each.

NOTE.—It is absolutely necessary that the alarm be first transmitted to the Water Works Engine House; hence the reason for proceeding first to Rodgers' telephone, King's Ward, which has a telephone direct to Engine House, or to St. Dunstan's Church Bell, or City Hall Bell, which each have electric connection with gong at Water Works.

Remember process in sounding alarm, or repeating on other bells. First: Ring hard half a minute, then count ten slowly, then toll the Ward Signal—one, two, three, four, or five taps as the case may be, then count ten slowly, and repeat the process of ringing hard, etc.
