POST CARD

CORRESPONDENCE

NAME AND ADDRESS

STAMP

It was the only time I have
in this place - 100's of miles
from the heart-land. The rest were
just wooden

Government House
Jasper Park
The Rockies

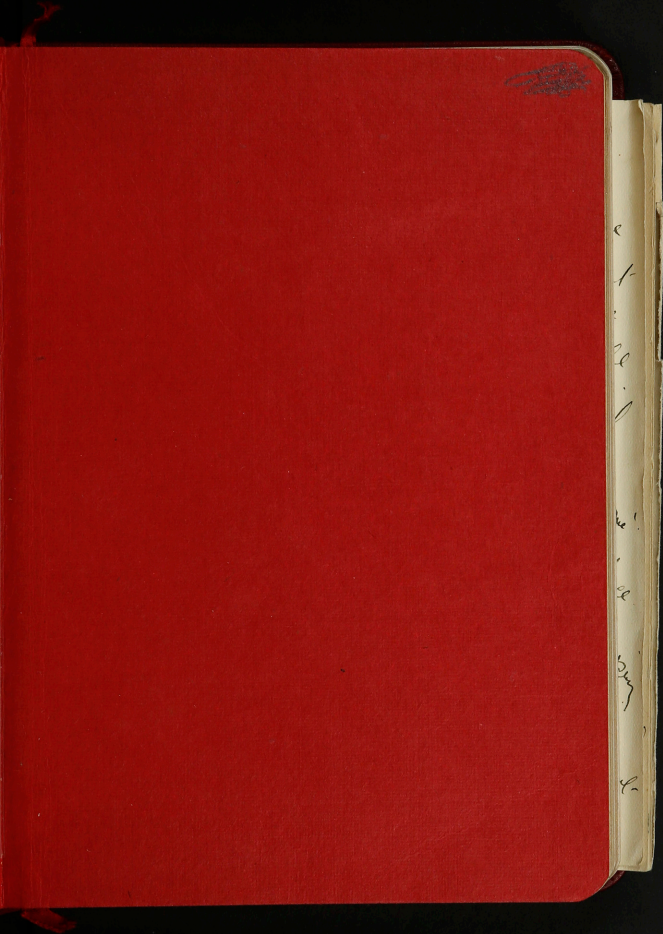

he were the first-
Canadian Govt to stay here.

Sundays and Fast Days are legal holidays in all the States which designate them as such.

There are no statutory holidays in Miss., but by common consent the Fourth of July, Thanksgiving and Christmas are observed. In N. Mex., Washington's Birthday, Decoration Day, Labor Day, Flag Day (June 14) and Arbor Day are holidays when so designated by the Governor. In S. C., Thursday of Fair Week is a legal holiday.

ARBOR DAY is a legal holiday in many States, although in some it is observed as designated by the Governor.

Population of the Earth by Continents

CONTINENTAL DIVISIONS	AREA IN SQUARE MILES	INHABITANTS	
		NUMBER	PER SQ. MILE
Africa.....	11,513,579	170,000,000	14.76
America, N.....	8,037,714	110,000,000	13.68
America, S.....	6,851,306	35,000,000	5.10
Asia.....	17,057,666	900,000,000	52.76
Australasia.....	3,456,290	8,000,000	2.31
Europe.....	3,754,282	400,000,000	106.54
Polar Reg.....	4,970,265	300,000	0.06
Total.....	55,641,102	1,623,300,000	29.22

The estimate in areas is by Prof. Supan of Gotha. That of the inhabitants is from Whitaker's (London) Almanack for 1912, excepting that of the Polar Region.

Domestic Weights and Measures

APOTHECARIES' WEIGHT: 20 grains = 1 scruple; 3 scruples = 1 dram; 8 drams = 1 ounce; 12 ounces = 1 pound.

AVOIRDUPOIS WEIGHT (short ton): 27 11-32 grains = 1 dram; 16 drams = 1 ounce; 16 ounces = 1 pound; 25 pounds = 1 quarter; 4 quarters = 1 cwt.; 20 cwt. = 1 ton.

AVOIRDUPOIS WEIGHT (long ton): 27 11-32 grains = 1 dram; 16 drams = 1 ounce; 16 ounces = 1 pound; 112 pounds = 1 cwt.; 20 cwt. = 1 ton.

TROY WEIGHT: 24 grains = 1 pennyweight; 20 pennyweights = 1 ounce; 12 ounces = 1 pound.

CIRCULAR MEASURE: 60 seconds = 1 minute; 60 minutes = 1 degree; 30 degrees = 1 sign; 12 signs = 1 circle or circumference.

CUBIC MEASURE: 1,728 cubic inches = 1 cubic foot; 27 cubic feet = 1 cubic yard.

DRY MEASURE: 2 pints = 1 quart; 8 quarts = 1 peck; 4 pecks = 1 bushel.

LIQUID MEASURE: 4 gills = 1 pint; 2 pints = 1 quart; 4 quarts = 1 gallon; 31½ gallons = 1 barrel; 2 barrels = 1 hogshead.

LONG MEASURE: 12 inches = 1 foot; 3 feet = 1 yard; 5½ yards = 1 rod or pole; 40 rods = 1 furlong; 8 furlongs = 1 statute mile; 3 miles = 1 league.

MARINER'S MEASURE: 6 feet = 1 fathom; 120 fathoms = 1 cable length; 7½ cable lengths = 1 mile; 5,280 feet = 1 statute mile; 6,085 feet = 1 nautical mile.

SQUARE MEASURE: 144 square inches = 1 square foot; 9 square feet = 1 square yard; 30¼ square yards = 1 square rod or perch; 40 square rods = 1 rood; 4 roods = 1 acre; 640 acres = 1 square mile; 36 square miles (6 miles square) = 1 township.

TIME MEASURE: 60 seconds = 1 minute; 60 minutes = 1 hour; 24 hours = 1 day; 7 days = 1 week; 365 days = 1 year; 366 days = 1 leap year.

Facts About Land and Water

The area and cubic contents of the earth, according to the data of Clark, are: Surface, 196,971,984 square miles; cubic contents, 259,944,935,515 cubic miles.

Murray (Challenger expedition) states the greatest depth of the Atlantic Ocean at 27,366 feet; Pacific Ocean, 30,000 feet; Indian Ocean, 18,582 feet; Southern Ocean, 25,200 feet; Arctic Ocean, 9,000 feet. The Atlantic Ocean has an area, in square miles, of 24,536,000; Pacific Ocean, 50,300,000; Indian Ocean, 17,084,000; Arctic Ocean, 4,781,000; Southern Ocean, 30,592,000. The highest mountain is believed to be Deodhunga, one of the Himalayas, 29,002 feet.

The Metric System

LENGTH.—The denominations in practical use are millimetres (mm.), centimetres (cm.), metres (m.), and kilometres (km.).

12 mm.=1 cm.; 100 cm.=1 m.; 1,000 m.=1 km. **NOTE.**—A decimetre is 10 cm.

WEIGHT.—The denominations in use are grams (g.), kilos* (kg.), and tons (metric tons).

1,000 g.=1 kg.; 1,000 kg.=1 metric ton.

CAPACITY.—The denominations in use are cubic centimetres (c.c.) and litres (l.).

1,000 c.c.=1 l. **NOTE.**—A hectolitre is 100 l. (seldom used).

Relation of capacity and weight to length: A cubic decimetre is a litre, and a litre of water weighs a kilo.

APPROXIMATE EQUIVALENTS.

A metre is about a yard; a kilo is about 2 pounds; a litre is about a quart; a centimetre is about $\frac{1}{2}$ inch; a metric ton is about same as a ton; a kilometre is about $\frac{1}{2}$ mile; a cubic centimetre is about a thimbleful; a nickel weighs about 5 grams.

The Ancient and Modern Year

The Athenians began the year in June, the Macedonians in September, the Romans, first in March and afterward in January, the Persians on August 11, the ancient Mexicans on February 23, the Mohammedans in July. The Chinese year, which begins early in February, is similar to the Mohammedan in having 12 months of 29 and 30 days alternately; but in every nineteen years there are seven years which have 13 months. This is not quite correct, and the Chinese have therefore formed a cycle of 60 years, in which period 22 intercalary months occur.

Territorial Growth of the United States

THERE have been thirteen additions to the original territory of the Union, including Alaska, the Hawaiian, Philippine, and Samoan Islands and Guam, in the Pacific, and Porto Rico and Pine Islands, in the West Indies, and the Panama Canal zone. The area of the original thirteen States (years 1783-1817) comprised 894,407 square miles.

The additions to the territory of the United States subsequent to the peace treaty with Great Britain of 1783 are shown by the following table:

TERRITORIAL DIVISION	Year	Area Added. S. Miles	Payment
Louisiana purchase.....	1803	824,607	\$ 15,000,000
Gained through treaty with Spain.....	1819	12,732	
Florida.....	1819	58,666	
Texas.....	1845	389,382	
Oregon Territory.....	1846	287,430	
Mexican cession.....	1848	529,543	15,000,000
Purchase from Texas.....			
Gadsden purchase.....	1853	30,022	10,000,000
Alaska.....	1867	590,884	7,200,000
Hawaiian Islands.....	1898	6,449	
Porto Rico.....	1898	3,435	
Guam.....	1898	210	
Philippine Islands.....	1898	114,958	20,000,000
Samoan Islands.....	1899	77	
Additional Philippines.....	1901	68	100,000
Panama Canal Strip.....	1904	474	10,000,000
Total.....		2,848,937	
Total United States including original 13 States.....		3,743,344	

No money payments were made upon the acquisition of the other territories mentioned in the list.

NOTE.—The population of Chinese cities other than Canton, Peking, Tientsin and Shanghai is omitted, because reports respecting it are untrustworthy. There are forty or more Chinese cities whose inhabitants are numbered by rumor at from 200,000 to 1,000,000 each, but no official censuses have ever been taken; and setting aside consideration of exaggeration, there is reason to believe that the estimates of population in many instances covered districts of country bearing the same name as the cities, instead of definite municipalities.

To Lady
Conan Doyle.

Rosemary for remembrance.

TUESDAY, MAY 26, 1914

146 days past

219 to come

Wednesday - May 27th 1914

Arrived at New York early in the morning - about 8 o'clock. Crowds of Press men came on board & surrounded Arthur photographing him - & me! Mr. Burns - the great detective came on board to meet us. Other people also came to the decks to see us. It was a great reception. All day long the telephone was ringing in our rooms & interviewers coming to interview us. A. & I. Mr. Hall lunched with us & Major Williams dined with us. There was a terrific thunder storm soon after we arrived - it was the hottest day I have experienced for a long time - it was quite overcast. I am, as fully impressed with New York - & I like the people very much. They are most kind - & a happy people - & most capable. Their ideas of comfort in the little ways in the hotel are not as good as ours. Arthur is made a tremendous hit -

WEDNESDAY, MAY 27, 1914

147 days past

218 to come

SS. Olympic arrived New York.

W. The Plaza Hotel. After
lunch after a most
thorough day thought he
would like a cocktail
with dressing for dinner.
He rang the bell and ordered
a clam cocktail.
20 minutes later there
appeared two waiters
with a table on which
was iced water, bread
rolls & butter, a large
plate of crushed ice, 6
clams and a glass of
iced tomato juice. Price
\$1.40.
No more clam cocktails
for him.

THURSDAY, MAY 28, 1914

148 days past

217 to come

Arthur & I went to the top of the Lookout building - 59 stories high! We had a most wonderful view from the top. Arthur did the Tomb's prison & then was the Guest of the Pilgrims Club to lunch. All the great men were there to entertain him - Mr. Choate was in the Chair. Arthur gave a splendid address - various people who were there told me it was fine.

I lunched with Major Williams & Mr. Hope at the Plaza - it was a jolly little lunch. Met A & we drove with Mr. Knapp to the Stock & Exchange - it was such a fascinating sight - the shouting of the men was terrific! So many recognized Arthur. The telephone at the Hotel was going all day long - with hardly 5 minutes rest! People here wanting to see A all day long - & give! So many wanted to interview me! In the evening we had a box of men & by Mr. Mark Clam for "the scrap of paper" with Ethel Barrymore & Mr. John Drew in it - She is one of the most charming & natural actresses I have seen - he also is excellent - very like Charles Hooten.

has been to see the mayor of New York
 at the City Hall at 100 Cort St. He is a
 young man of about 32. All the men
 around him are quite young also. A number
 of press men were at the Hall to see
 Arthur. We lunched with the Sullivans
 at Leroy's Restaurant - the most famous
 restaurant in New York. They had a
 number of interesting people to meet -
 among them Roosevelt's daughter -
 Mrs. Derby, a very nice fire. After
 the luncheon party I went shopping -
 where I met with the greatest courtesy
 & attention whenever I came by hand.
 We dined with the Happers - they had
 a lot of interesting people to meet. Mr.
 Happer is the real boss of the District.
 A charming American man and I have met.
 He just loves Arthur & thinks the
 world of him. The phone has been going
 all day - Somebody told Arthur that not
 for a very long time has there been such
 excitement - so much has been made over anyone
 in America - as there has been over us.

SATURDAY, MAY 30, 1914

150 days past

215 to come

I had a quiet morning at the Hotel.
The phone was going all the time for
Arthur. He went to see the day camp prison
with Burns.

After lunch Burns kindly came for
me in his car to take me to see the
great Base Ball match. There were
about 20,000 people there. Arthur & I
enjoyed it immensely. The people
was very keen on the game. It was
a very orderly crowd. The only thing I did
not like was that they made a great
noise whenever their adversary was
in to put him off his game - which
was not sporting.

After dinner we drove round the city
to see it lighted up in an open
taxi. It is wonderful at night -
there are hundreds of lighted up advertisements
everywhere & the effect is beautiful.
It is indeed a great city. Such a
feeling of life & energy & bustle. The
people in the streets too are so clean cut
& happy & alert-looking.

SUNDAY, MAY 31, 1914

Sunday - May 31st 1914

Continued.

Which was going on. A Band came through the crowds & stopped in front of our platform & played 'God Save the King' - Crowds & Crowds of people gathered round. Then the official Wiltshire - waved the Union Jack & the band then played 'Home Sweet Home'. All the attendants in the huge place wore their scarlet uniforms in our honour. Later when we were walking through the grounds of the other half of Gray Island - a great annual Centre - the band there struck up 'God Save the King' when we came.

It was all most touching and
unforgettable. Arthur is so tremendously
popular - & every one who knows him
speaks with such admiration & affection
for him. They are all so impressed with
his sweet simplicity. We left Long Island
at 12 o'clock midnight; & got back to the
Hotel in the motor at 10 o'clock. When he
arrived at the Hotel, he found a woman
journalist - waiting to interview me - & as
she had been waiting since 7 o'clock I
had to see her - although I was dead tired

happy & alert - working.

This was a day of great touching
 & periences for us. We went in the
 afternoon with the Barns part-filling
 a large cars to Coney Island.
 There were 300,000 people there - it was
 a great sight. Even sort of attraction & side show
 is there for the people - it is a sort of Olympia-
 & Earl's Court & 2 or 3 other large amusement-
 places thrown into one with the sea round
 3 sides of it. We stopped on our way at
 the house of a friend of the Barns - Mr.
 Hennys. At Coney Island when we entered
 the huge Restaurant there - the band struck
 up "God save the King" & all the people
 who were dining & there were hundreds of
 them rose from their seats - all in
 honour to us. At the end of "God save the
 King" Clapped Arthur. It was really most
 touching. After dinner we went to a theat-
 er placed in place full of amuzing side
 shows - a fantastic place. The head of
 it - who escorted us round took us
 up to a sailed in round platform
 from which we could see every thing.

MONDAY, JUNE 1, 1914

152 days past

213 to come

Arthur was up at 7, & worked hard at answering letters etc - he had a awfully hard day having important-Tuck business again to settle, also important - cinema of request to go into with Paget. Besides these things he did numerous other things - I wish I would have collapsed had they done half as much as he did.

In the afternoon I called upon Lady Bennett & liked her very much & did some shopping, etc. ~~At~~ I went to see a private view of ourselves on the cinema of our landing on the Olympic - it was very good - and amusing.

An old friend of Arthur's came to the Hotel & we dined together - his name is Mr. Brock - he is one of the best Americans I have met - & he is so fond of A. I saw Paget - dined with her - I like him - but he is not - Crap in his business at the moment - I think

TUESDAY, JUNE 2, 1914

Thursday - June 2nd 1914
Continued

My Cabin & Artium. Then comes a delightful little dining room with a large bowl of flowers in the centre of the table. Breakfast was already laid for us in it. I then has a very nice little cabin to herself, just past the dining room. Then come the Pictou gharles. The black servant (all dressed in white) is an excellent man, & has been in the employ of the Company for 20 years.

MONDAY, JUNE 1, 1914

152 days past

912 to come

~~he stopped at Edinburg~~

The Scenery from New York to Albany - along the Hudson river is most beautiful - the great precipitous red cliffs, covered with trees on the one side is so fine & unique. The Hudson is so splendidly wide - it gives it great dignity. At Albany a pressman came on the train to see Arthur. Also a Mr. Hild - the manager of the passenger

TUESDAY JUNE 2, 1914

traffic of the line has been on. He
travelled with us to Fort William
Henry. The wooden houses of
America with their wide verandahs.
I large windows - look just homely
& comfortable. But the people
do not seem to take any interest
in their gardens & they do not plant
creepers round their houses. The gardens
& plots are not divided.
I saw several different kinds of birds
I have never seen before. Many of the trees
~~which~~ were all leafless - eaten up by a large
caterpillar - the beamed nests of which I
saw several in the trees.

MONDAY, JUNE 1, 1914

Saw hundreds of in the leafless trees. The manager of the Hotel met us at the Station here. The Hotel is most open-air & comfortable - standing at the end of this most beautiful lake. After tea we went out in the Hotel motor boat for about 2 hours & saw the lake. The beautiful rounded mountains rising in groups round this great bay & most lovely lake - is very very fine. Mr. Hind & Mr. Charlton both dined with us. R. Pringle a photographer here at the Station, having arrived & the photographer was at the landing stage as we went out in the motor boat. Arthur Burns Esq. knows about all the historical history of this part - that he is much interested in it all.

we got up at 6.45 & left the hotel
at 8.15. We drove in Mr. Burn's car to
the station - the Station - the most
beautiful, lightest & finest station
I have ever seen. There we found our
Grand Trunk private car on at the
end of the train, & Mr. Charlton the
Grand Trunk Railway Officer who
came to New York especially to
escort us, awaiting us at the station.
The car is delightful. There is a sitting
room at the end of the car, with a sofa
& four arm chairs, 2 tables with
maps on them & foot stools - cushions
etc. - also a speedometer. There are
four large lights in drow & two at the
back. The door (glass top) & when
that is open, there is a fine breeze.
We have a door to Chgo. - letting in all air & keeping
out mosquitoes. We have each a very
comfortable little cabin - as I call them
with a wide bed - a washing stand -
a seat - & a night wardrobe &
a drawer in it. There is a door between

WEDNESDAY, JUNE 3, 1914

154 days past

211 to come

Fort William Henry. We left by motor car
at 12 o'clock with Mr. Charlton & Mr. Hears
we passed "Bloody Pool" where the English
threw the bodies of the French & Indians
after a desperate fight in 1755. We got
to Glen Falls where our private car was waiting
down a siding. We had lunch on board & then
Mr. Hears left us to go back to Albany.
We came with us yesterday & saw us on our
way today out of compliance to Arthur.
The scenery we have been through today
has been beautiful - we coasted ^{pleasantly} along
Lake Champlain which is 100 long & in one
place 12 miles broad. My darling has
had a more restful day today - he is
so sweet & kind - he said just now.
That he is quite silly when I am about!
No man ever loved a woman more or
showed it more at every turn in every way.
We arrived at Montreal about 9:30. A
Mr. Noble met us at the station. A party of Presmen
were at the station to see Arthur. There was the motor of
the G.T.R. waiting to take us to the Hotel. A hall to
be in time at the Hotel - poor dear, he was so tired.

155 days past

THURSDAY, JUNE 4, 1914

210 to come

Montreal. Arthur had a very busy morning. I stowed
 up my boxes & at 12:45 I lunched at the Windsor
 Hotel with Mr. Doble (whom I liked immensely) &
 a party of his women friends - after lunch we
 all went up to the gallery in the great
 marble columned hall where the Canadian
 Club were entertaining Arthur to lunch.
 There were 600 men there - the biggest in?
 Charlton said he had ever seen the Club
 house & Arthur made a great speech -
 upon literature & Canadianism - it was
 splendid - & Mr. C. said he heard all
 the men saying afterwards that it was
 the greatest & one of the greatest, adding
 that the Club had ever listened to. Somebody
 in the gallery presented me with a
 bunch of flowers & a vase
 after lunch I went shopping, while I
 had a little rest. Then I had tea &
 went out in the water with Mr. C. to see
 the city. It was wet & grey & dark
 all day. I have not fallen in love with
 the place. The city is fine - but the streets
 are awful. Thanks to Jeff. We got on board our
 train at 9:30.

FRIDAY, JUNE 5, 1914

156 days past

209 to come

he travelled all night in our private car. Had a nice breakfast on board then left out side car - which I threw away! he stopped at London! where there were several Press men to interview & take photos of Arthur. A big oil magnate came into our car & travelled with us for some time. We lunched on the car, & got to Savona where everyone got out; but they put an engine on to our car & took us straight to the dock. I press reporters had come all the way from Detroit - & see A. so he gave them an interview. he was introduced to all sorts of Officials of the Northern Navigation Co. whose guests he are on the steamer which we are on - the ~~Namoric~~. ~~he left Savona~~ he left Savona about 3.30. Before leaving they ran us round the town in a car. The cabin is quite nice with a bath room etc. but there are no holes - there is a small convenience. There is an orchestra on board.

SATURDAY, JUNE 6, 1914

On board the Harmonie - on the Great Lakes.
 we got to the narrow channel approaching
 Sault Ste Marie about 7:45. The Sault Ste
 Ste Marie is coming up, beautiful green banks of
 trees all the side. We went up on the Captain's
 bridge to see the approach to S. Ste Marie
 which is fairly fine. A motor car was waiting
 to take us round the town. We drove out (over
 the most awful roads) to see a school
 where Indian children are being taught.
 we also went to see an old Log hut.
 We got back to the boat in time
 for lunch - when we sailed again.
 It is wonderful how the towns are
 growing up - but they have not had the
 time - or money perhaps, to bother about
 the roads, which are much worse
 than our bad country roads. The houses
 I like. We saw one house at S. Ste Marie
 all ready to be turned - raised up from
 the foundations & slightly on one side!
 All the housewives I heard wore large caps all
 over their heads - they do all the work themselves
 I should imagine!

SUNDAY, JUNE 7, 1914

We had an unpleasant night, - as about
12 o'clock there was a severe thunder storm - when
that had cleared, there was a thick fog - & the
fog signal was going all the time. We got
to Fort William about 7.30. There is about
300 yards of the forest cleared away from the banks
of the river where the Kamouristagauk is, & at the
back it is all wild forest. A moose came
into the pen & stayed there some time - we saw
it from the boat. Some citizens came
in a yacht & took us round the harbor
& river. Fort William is a very coming
town. Our car had travelled good miles
from Larrivée to meet us at Fort W.
It was waiting along side the boat for
us. We had a special train from
there to Winnipeg, consisting of the engine
a baggage van - our escorts car (Mr. Clarke)
& the head of that part of the train was
our car. We lunched - dined & slept
on the train. The country we passed through
all day was terribly lonely - just
great forest stretching for hundreds
of miles in all directions - with

MONDAY JUNE 8 1914

Sunday - June 7th 1914
Continued.

In the train:

Wild deer - moose & bears
in it. Hour after hour of the
lonely forests, I have an impression
of great-wildness of the country.
The trees were all conifers &
white stemmed beeches - with
some low soft-green undergrowth
trees. There were occasional small
station houses along the line - where

the men women & children & dogs
came running out to see our train
pass. The track we were on - was
a single line & only 1 train a day
runs on it - to Winnipeg.

In all directions there were
large tracts of burnt ~~forest~~
forest - where there had been
forest fires. The men at the
stations were a strong voice for.
There is very little bird life in
the forests. I saw a few species
I have never seen before.

MONDAY, JUNE 8, 1914

that as he was riding ahead of us. He heard a bear going all along parallel with us by the trail. We got to Medicine Lake at 6.30 - having been going since 9.30 - since had ridden. Since 106. We were all very tired. The packers set to putting up our T. P. tent close to the lake - some of them cutting small fir branches for our beds - the cook prepared the supper. The tea was in a huge sauce pan which

So it was laddled out of - & we all
went round outside the log house
and ate our supper, packers & all the
horses were cobbled & harnessed
off down the lake side.

The pine bed was not comfortable. There
had small air cushions for pillows & the
~~pillows~~ were so scribbly - still it
was an experience.

The others slept in the log house - also
on pine beds.

Arthur took down our T. P. & packed
the beds up, etc.

MONDAY, JUNE 8, 1914

We arrived at 8 o'clock in the morning at
Winnipeg. Two men met us at the station.
We went to the Union Hotel - a 1st class
Hotel - had breakfast - then I was interviewed.
I had a bath & freshened up. A box of
lovely pink roses arrived for me from
the Canadian Club. Arthur & I were the
guests of the Canadian Club - there were
1200 people there. Arthur made a
splendid speech. I sat next to the Arch-
bishop of Manitoba & the Governor of Mn.
After lunch they took us round in cars
& showed us the outskirts. It is
a fine city - with 2 very wide main
streets. I charmed in presidential horses
on the outskirts. We got back to
the car about 5.30. Dined & slept
on board. Mr. Little - who is by open &
kind & good a man - has his meals in
his own car with his father-in-law - who is a
lover for us, & is on our cozy quiet time
together. We have been coming through all
Prairie country since we left Winnipeg.

TUESDAY, JUNE 9, 1914

In the train to Edmonton. we have been very comfortable travelling - it is cool & we had good night. The prairie country is fascinating. The houses along the railway are built in easy reach of each other - a mile or so off - further back from the railway - they are much more lovely, they tell me. The houses are all wood & mostly painted white. The villages are very neat & charming of course - just a group of wooden houses - some were chalets calling themselves Restaurants! Horse breeding would have a great success here, he tells us. We have seen lots of wild ducks - ~~stags and~~ And enormous hawks.

Col & Mrs. Rogers met us at Station about 12 hrs down the line from Edmonton. I like her very much. We got to Edmonton at 1000. Found it a rough & raw place - such a rough crowd of men about. It is like a town outside a mining centre, I should think.

WEDNESDAY, JUNE 10, 1914

Edmonton. I did shopping this morning. After lunch a Mr. Harris drove us around the town & showed us the place. It is a very lovely town - built in the rough. Such types of men one sees here. That was indicated. He gave me an address at the Canadian Club - he has been introduced as here at the numerous people. Arthur said yesterday that I have been such a wonderful comrade to him - that - but one of the old grey moments had he had since he started on the journey from England.

THURSDAY, JUNE 11, 1914

We arrived at Jasper Park at 8:00 in the morning. Col. Rogers' house is quite close to the little station. This is a truly wild spot. So unspoiled - one feels that the people here are the first on the spot. There are quite a lot of little log houses springing up. The Colonel's house is not comfortable. There is a great stone fire place in the centre of the house which divides it into two rooms. In the afternoon Arthur, the Col's son? Little & Beatrice (Mr. Rogers' niece) rode & we drove out to Primed Lake where I fished for a short time & got a trout. There is a beautiful blue bird which has a nest on the house, & I saw muskrats & a. I saw three large eagles, I saw their nests. The scenery is not only the mountains all round stand far back & are snow clad. Then up to a point just from which flows a truly fresh brook. There are numerous lakes which are a beautiful blue & blue-green shade. It is a perfectly natural beautiful & easy distance being here, for the inhabitants

FRIDAY, JUNE 12, 1914

Jasper Park. We started off about 10.30 on horse back. I rode in Astride for the 1st time. There were 2 sets of horses on horse back & he? Little she? T & Japeman came in the carriage - Carl. & V. Ethical with 3 seats which holds 2 in each & has a splendid pair of rooms. We rode to Canyon - such a glorious spot. The Col. cooked the bacon & made the tea & we all sat & dined - delicious meal at the Canyon - outside a log hut - they have put up for campers but we saw humming birds at the Canyon & I saw chipmunks & song along. Also a wreath pink & grey bird! All kinds of beautiful birds & wild flowers I found. I got awfully bruised on the saddle! And so did poor Arthur. It was all a delightful experience.

SATURDAY, JUNE 13, 1914

Jaeger, he took it easily in the morning, wrote letters etc. At 13.30 we all went off in the chairs & on horses to Lake Patricia - the drive there was beautiful. Arthur, Mr. Little & I & the boys to row spent in one boat - the others in the other boat. Mr. Rogers caught a trout - & heavily landed - to that I must have been a very large one - as it was all I could do, to hold on to the rod. At 8.00 we had a delicious supper by the lake - cooked by the Colayed - which we ate with our fingers. Then we drove home - it was 9.40 when we got back & was still daylight - we had a delightful day. I got letters from home which made me very happy.

SUNDAY, JUNE 14, 1914

200 to come

Yacup Park. We have had a quiet-
morning here. It is such a lovely hot summer
day with a nice cool breeze. Mr. Lett lunchd
here. He is such a noble man. A heart-
of-gold - & so straight - & sympathetic &
gentle & kind - a perfectly beautiful nature
he has. Arthur & he went up to a hill
top a little way off to see a proposed site
for a Hotel, & to mark out a golf course in
theory.

the
We started off at 9.30 - Arthur & I
in the rig with the Sergeant to drive us
& the Col & Mr. Rogers. Ben & Mr. Lett
on horse back. The rig took us as far
two miles beyond the Canyon where we
mounted our horses - with the pack
horses - which came on after us. There
were 16 horses altogether. We got
tea for the lunch at a camp - one of
the road makers. Then we went on. The
trail was very rough, he had to find
3 rivers - 2 of them quite little & after
torrents. Some of the trail was on very
narrow paths cut in the side of steep
banks. The last part of it was through
a dense gloomy endless forest - which
gave a feeling of loneliness - it was
so silent & dark. In it we found some
small-scented mouse with yellow markings on their
they were so dainty & bright. We saw tracks
on the trees where bears had been gnawing.
My horse was very nervous going through the forest.
pricking his ears up & looking all the time to
the right - where the Colonel told us to be.

We left the camp at 12:00 & got
to the Canyon at 6:30. where we
stayed the night. we slept in the log
house - but we had a sleep from
~~uncomfortable~~ night - as the mosquitoes
were awful. Mr. Pitt is a splendid
travelling companion - he is so easy going
& thoughtful - & such a lover of nature -
a really beautiful character he has -
Arthur thinks so much of him.

We saw some balm of Gilead trees
which I smell deliciously - also a
fine tiger lily - gum trees with a honey
resin scent. No ferns like at our home
I saw in Canada.

WEDNESDAY, JUNE 17, 1911

168 days past

197 to come

we had breakfast at 8 - all eating
together as usual - & we got off on
our horses on the home trail at 9:00
we got to Jasper at 11:30 -
I was glad we were to get back -
but still we wouldn't have missed
the experience.

We saw a bare ball game at
Jasper - Arthur hit off the first ball
for them - he made a fair hit.

THURSDAY, JUNE 18, 1914

169 days past

196 to come

We started off at 10-30 with a special-one car. Mr. Letts & an engine to go into British Columbia. We did mount Robson. We were a very jolly party - Arthur - Mr. Lett - Mr. Topley - Mr. Poyers - Mr. Spenser & her two daughters - Bee - Mr. Mr. Call & I - the scenery was fine - but unfortunately Mr. Robson was half hidden in clouds - so we did not see the summit. We passed some funny very rough construction places - they call apart-hunt-houses - "Roguing houses". We passed Yellow head Lake & the Inverness River.

We had lunch & dinner on the train - & got back to Jasper at 9 o'clock. Arthur had to lay the foundation stone of the Methodist - Presbyterian Church. He gave such a fine little speech.

170 days past

FRIDAY, JUNE 19, 1914

195 to come

There was great excitement in Yafen
at the Colonel's over a case which was
held at the Colonel's house today - about
a clerk named Jackson who was
supposed to have sold some whiskey
to some of the men - the man in question
being a discharged jockey & the other
a Drunken brute who has been being
jealous of Jackson's billet & also being
urged on by a gang who are working
in the place against the Colonel.

The poor man was convicted - it
was a wicked case - poor Jackson
being the scapegoat - he left
at 9.15 - they all came down to see
us & seemed very sorry to part with
us. The station was crowded to
see us off - everyone in the place apparently
turning up -

SATURDAY, JUNE 20, 1914

193 to come

we got to Winnipeg at 10 o'clock.
had lunch then he unpacked
(he stayed at the Fort Garry Hotel)

I had a bath. In the evening
were the guests of honor at -
the Lord: Governors. It was
a dinner party of 26. I sat on
the Governor's right. The ~~food~~
Governor's wife, Lady Cameron
is a most beautiful white haired
woman. but not at all attractive
in manner.

173 days past

MONDAY, JUNE 22, 1914

192 to come

I did shopping in the morning -
at Eatons - a huge store.
In the afternoon Mr. Little took
us to see a Cinema where there
was a film of Arthur & Sue - they
tried to take cinema pictures of us
as we came out of the place!

TUESDAY, JUNE 23, 1914

174 days past

191 to come

In the morning Mr. Lett brought
his wife round - she is very small
& common place - but - I think
hates him quite a good wife. A
friend of his brought his car &
Lett is all for a drive round.
They Lett's dined with us.
In the afternoon we left cards
at the Governors.
We got into our car & left
Winnipeg at 10.30.

WEDNESDAY, JUNE 24, 1914

175 days past

190 to come

We had rather a bad night - as
the car swayed about so much.

We got to Fort William at
5-30 where several people came to
meet us, among them the Mayor -
who had brought his car to take us
for a ride. The outskirts of Fort-
William are beautiful - Arthur bought
a plot of land with a small wooden
house on it - in the main streets - which
ought to prove very valuable.

We got on our car at 6-30 - &
one of two men turned up to see
Arthur then we dined & slept in
the ~~car~~ ^{train} - the car remaining in the
station all night & being sent on
to a train early in the morning.

we had a good night - the train left Port
William at about 7 p.m. From there we have
been on the Canadian Pacific Railway - they
kindly put us on at the end of one of
their trains. The scenery from Port William
has been the prettiest & most charming
I have seen in Canada. We have come
along side Lake Superior for hours - just
bays of the Lake - with sudden glimpses
of the Great Sea-lake. The rocks
of the coast-line are a beautiful pink-
red which with the fresh green growing
on them is lovely. Numerous wooded
islands - light & dark green trees
on them - & all the hills round are
so finely wooded. I have seen ferns for
the first time today in Canada - bracken -
& a feathery kind of bracken. The country
is all very virginial - only occasional
little wooden settlements round the lake
stations.
