Aster. This favorite is seen in almost every autumn flower garden. But though all know and admire it, only a comparative few know of the great progress lately made in its improvement and the many distinct new varieties that have been originated. The **ASTER** presents an almost endless variety. It varies in height of growth from little Shakespeare, 6 inches, to Giant Emperor, 2 feet. It varies in size of the flowers from the diminutive button-like blooms of Lilliput, to the mammoth blossoms 5 to 6 inches across, of Washington. It varies in the character of its flowers, some are Peony formed, others Chrysanthemum flowered, others Quilled, etc.

We offer the following fine varieties arranged in the order of their height, from dwarf to tall.

SHAKESPEARE, MIXED, - - - - -	20c.
NEW DWARF BOUQUET, MIXED (BOLTZ), -	10c.
MIXED DWARF CHRYSANTHEMUM, - - -	15c.
