**Verbena.** A splendid bed of VERBENAS thick with brilliant hued flower heads measuring from 3 to 4 inches across and showing every bright color is surely a gorgeous sight and not surpassed by a massing of any single annual flower that grows.

Verbenas are easily grown from seed and thus grown are more apt to be thrifty and free bloomers than if grown from cuttings.

If sown out in May they will bloom in August.

There is no seed sold that will grow more mammoth or magnificent Verbenas than that put up and sold by us.
