STAZON

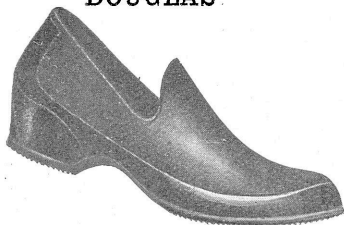

The "Stazon" has passed the experimental stage. It is a cling tight, bulldog grip, never slip, low cut rubber, all combined in one. It will positively not come off—if properly fitted—that's the important point.

METAL HEEL PROTECTOR

F. W. BOXER, Patentee, May 19th, 1908.

This fills a long-felt want. Rubber shoes with this device will last longer, as the heel does not wear down so quickly. It also prevents slipping, because it gives extra solidity, and a heel that is not worn down will not slip as much as one that is.

GUARANTEED PERFECTLY WATERPROOF

Five cents per pair extra.

CARE OF RUBBER FOOTWEAR

GREASE AND OIL are very injurious. They decompose rubber. The oil on store and office floors to allay dust has a pernicious effect on all rubber foot wear.

HEAT will dry and crack any rubber.

SUN—Rubber Footwear lying exposed to the sun will lose its vitality.

STORAGE OF RUBBERS should be in a dry, cool place.
