BULBS FOR AUTUMN PLANTING

For Winter Blooming in the House, or for Early Spring Flowering in the Garden. These Bulbs must be planted this Autumn. You CANNOT obtain them in the Spring. Hyacinths, Tulips, Crocus, Narcissus, etc., are most charming, sweet-scented, and attractive Spring Flowers. ORDER NOW. All are to be found in this Catalogue.

HINTS ON GROWING BULBS

I. IN THE OPEN GROUND

- (a) Start with really good bulbs; the Steel, Briggs' quality is unbeatable.
- (b) Commence early in the fall for best results.
- (c) Light land is desirable, although any good garden soil will do.
- (d) Prepare the soil by thoroughly digging, clearing away sticks, stones and debris.
- (e) Study the diagram here shown and plant your bulbs accordingly.
- (f) Apply a two-inch layer of manure to protect the bulbs against the alternate freezing and thawing during and at the end of winter. When April comes rake manure off.

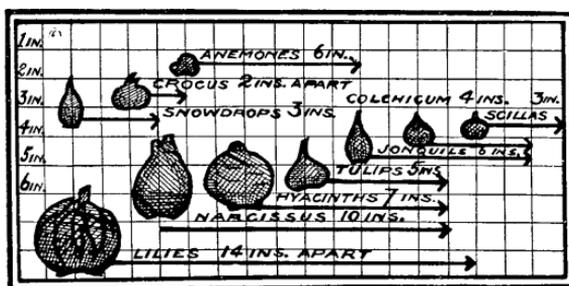

II. IN POTS IN THE CONSERVATORY, SUN ROOM OR SITTING ROOM.

- (a) Sound, healthy and mature bulbs such as supplied by Steele, Briggs Seed Company, Limited, are necessary.
- (b) Commence with Roman Hyacinths and Polyanthus Narcissus, both of which may be had in bloom for Christmas, following with Dutch Hyacinths, Daffodils, Tulips, etc.
- (c) Sweet, fresh porous soil of a light nature is preferable; start with it just damp
- (d) Plant so that the soil is $1\frac{1}{2}$ inches below the level of the pot when finished, and allow one-third of the bulb to project above the earth. This leaves room for you to apply a top dressing of soil and fertilizer when the flower bud is first seen. Place "corks" over the drainage hole of the flower pot before filling with soil.
- (e) Place the pots in a cool, dark, airy cellar or cupboard, giving them a very little water occasionally, or cover them with ashes or earth in the garden. After five or six weeks remove them to the full light of a sitting room window away from draughts, and as growth proceeds, give them plenty of water

III. IN FANCY BULB BOWLS

You may make good use of your best china bowls, jardinaires, etc., by planting Hyacinths, Daffodils, Narcissus, Tulips and Crocus in Steele, Briggs' Special Bulb Fibre without drainage. This material is so proportioned that the planting is done in exactly the same way as described in section II, except that the Compost is used in place of soil and no drainage hole is necessary. Absolutely first grade bulbs are essential for this pleasing method of "Parlor Gardening."

HYACINTHS

Hyacinths are among the most popular and satisfactory flower bulbs grown. Their wax-like bell-formed flowers, borne in buxom trusses, are of matchless beauty and also delightfully fragrant. The colors, shades, and tints are wonderfully varied, ranging from purest white, through blush pink and rose, to deepest red, from daintiest porcelain through blues to black purple, and from cream through yellows to orange and rosy apricot. Hyacinths may be had in flower throughout the winter grown either in fibre, soil, or glasses of water, while for gardens or beds on the lawn they are gorgeously effective when in flower during the spring. The bulbs of different varieties of Hyacinths vary greatly in size and shape, some making very large, smooth bulbs; others smaller, irregular shaped bulbs. The latter, however, throw equally as fine trusses of bloom—sometimes better than the larger bulbing varieties. In every case we send out the largest and best bulbs that the variety produces.

“Rainbow” Collection Mammoth Exhibition Hyacinths

Suitable for Growing either in Glasses in Water or in Pots.

Hyacinths growing in glasses of water or pots are elegant ornaments for conservatory, parlor or sitting-room, and can be flowered with very little trouble. This assortment is made up of exceptionally beautiful varieties, such as we have found to succeed well when grown in glasses or pots.

SPECIALLY SELECTED BULBS 20-22 ctm.

Price, Each 35c.; or Set of 10 for \$3.00.

- 1—**Electra.** Light, silvery blue with immense, well filled spikes. Early and one of the finest light blue Hyacinths for forcing.
- 2—**General De Wet.** Lively light pink with a lighter centre; large trusses with good sized bells. Fine for forcing or bedding.
- 3—**Gertrude.** Bright carmine rose, large compact truss, excellent for bedding, as it stands very erect.
- 4—**Grand Maitre.** Dark lavender-blue; large bells, and very long well-filled truss, on an unusually strong stem. Equally good forcer and bedding variety, usually throwing a number of secondary spikes.
- 5—**King of the Blues.** Bright dark blue; splendid spike and bells. Excellent for late forcing or for bedding.
- 6—**Lady Derby.** Clear rose-pink, splendid spike with large bells. A splendid forcing variety and unexcelled for bedding, because its strong stem holds the truss erect to the end. The finest of all the rose-pink Hyacinths.
- 7—**La Grandesse.** Pure white, long full spike of perfect form, with waxy bells. Splendid for bedding or late forcing.
- 8—**L'Innocence.** Pure white, fine truss, with large bells of great substance. A fine Hyacinth for pots or bedding.
- 9—**Pride of Holland.** Lovely blue, with large spikes and bells, excellent for forcing.
- 10—**Queen of the Pinks.** Very bright rose-pink of unusually clear tone; large spike with large bells. A sport of King of the Blues.

Muscari, Heavenly Blue

MUSCARI (Grape Hyacinths)

One of the prettiest of early flowering bulbs, growing about 6 inches high, and throwing up numerous spikes of flowers, which resemble a miniature inverted bunch of grapes.

- 47—White Grape Hyacinths (Pearls of Spain). Pure white. Doz. 30c.; \$2.25 per 100.
- 48—Heavenly Blue Grape Hyacinths. A strong growing variety producing much larger spikes of flowers than the ordinary Blue Grape Hyacinth. Color clear light blue; very showy. Doz. 30c.; \$2.25 per 100, postpaid.

SINGLE EARLY TULIPS

Tulips are universal favorites, and their ease of culture, combined with beauty of form and gorgeous coloring renders them the most popular bulbs grown for spring bedding, and for winter flowering in the greenhouse and window garden they are incomparable. Letters and figures will be found against the following varieties. The former refer to the season of flowering; varieties marked "a" being the first to bloom, and those marked "c" being last. The figures indicate the height of the plant in inches.

Double Tulips

PARROT TULIPS

Parrot Tulips are May-flowering sorts having lacinated or slashed edges. They take their name from a supposed similarity of the flower in the bud state to the head of a parrot. The flowers are large and of striking color, growing about 14 or 15 inches high, but a tendency to weak stems makes them unsuited for bedding purposes. They are best grown in the border or among shrubs, where their habit of growth is not so great a disadvantage. Parrots are notoriously shy bloomers, but in this respect the stock offered below will be found unusually satisfactory. To offset this characteristic, the bulbs should be planted not more than 4 or 5 inches apart.

- 103—Admiral Von Constantinople. Bright scarlet, shaded orange; very showy.
- 104—Cafe Brun. Deep yellow, striped, and stippled orange-brown. An unusually large flower of distinct color.
- 105—Cramoise Brilliant. Rich blood-crimson, with black markings; very large and brilliantly effective. A very free bloomer in this class.
- 106—Lutea Major. Clear yellow, with few crimson and green blotches and striped.
- 107—Markgraaf Von Baden. Orange, shaded and feathered reddish purple and green, inside orange-yellow. The most striking of the Parrots.
- 108—Perfecta. (Gloriosa) bright yellow, scarlet and green.
- 109—Preciosa. Red with yellow stripes.

Prices of above, doz. 55c., 100 \$4.00.

NOTE—If wanted by mail add 10c. per doz., 50c. per 100, for postage.

NEW NOVELTY TULIP

- 110—Fantasy. The only Parrot Tulip with a straight strong stem. This is a "Sport" from the well known Darwin Tulip variety, Clara Butt, with the same habits in every way as to color, height, strength of stem, and time of flowering. The flowers are of quaint and beautiful form, the petals being lacinated, having curious excrescences on the outside. We have only a limited supply of this fine novelty. Each \$1.25; Doz. \$12.25.

Giant-Flowering Darwin Tulips

We strongly recommend this class of Tulips for garden-decoration in beds as well as in groups in the herbaceous border and amongst shrubs. Grown for cut-flowers, they prove very valuable at a time when our gardens yield so little for the decoration of our rooms. They bloom during the middle of May, a period when spring-flowers are over and those of summer, such as Roses, have not yet come in. The blooms last in condition a very long time.

- 111—Afterglow.** Deep, rosy orange, with salmon shading at edges of petals; inside deep orange with yellowish base. A sport of *Baronne de la Tonnaye* of interest because it is first instance of a Darwin sporting to the Breeder tones. A showy Tulip for outdoors. Height 26 inches. Doz. 95c., 100 \$6.50.
- 112—Anton Roozen.** An enormous flower of vivid rose pink, edged with blush pink. Strong grower. Height 22 inches. Doz. 60c., 100 \$4.40.
- 113—Bartigon.** Fiery crimson. A very showy variety of the fieriest crimson, with a pure white base which shows off splendidly on its strong stem. Height 25 inches. Doz. 60c., 100 \$4.40.
- 114—Bleu Aimable.** Soft, bluish lilac very large flower; fine for late forcing. Height 20 inches. Doz. 75c., 100 \$5.50.
- 115—Baronne de la Tonnaye.** Vivid pink, margined blush. The leading bedder of the pink Darwins, keeping its brightness and standing upright to the last, no matter what kind of weather it is in. For bedding it cannot be too highly recommended. Height 24 inches. Doz. 60c., 100 \$4.40.
- 116—Centenaire.** Rich violet-rose, with large blue base enormous flowers of perfect shape; a magnificent early Darwin for the border, and one of the best forcing varieties. Height 30 inches. Doz. 60c., 100 \$4.40.
- 117—Clara Butt.** Delicate salmon pink. A medium sized flower and stem, but of such perfect shape and lovely color that it is the most popular of its class. Height 20 inches. Doz. 55c., 100 \$4.00.

NOTE—If wanted by mail add 10c. per doz., 50c. per 100, for postage.

DARWIN TULIPS—Continued

- 118—**Dream.** Beautiful soft lilac shade, large flower. Height 26 inches. Doz. 65c., 100 \$5.00.
- 119—**Europe.** A very brilliant rosy red with white showy base. Fine for either borders or pot culture. Height 22 inches. Doz. 60c., 100 \$4.40.
- 120—**Farncombe Sanders.** Brilliant dark rosy red, with a clear white base. One of the largest and most beautiful of the Darwins. In its color it has no equal. Height 26 inches. Doz. 60c., 100 \$4.40.
- 121—**Faust.** Deep purple maroon. The darkest blue purple, of unsurpassed brilliancy. Doz. 90c., 100 \$6.50.
- 122—**Flamingo.** Exquisite shell pink, medium size, pointed flowers which once seen is never forgotten. Doz. 65c., 100 \$5.00.
- 123—**Glow.** Scarlet, margined white, 23 inches. Doz. 65c., 100 \$5.00.
- 124—**Harry Veitch.** Rich blood red, with blue base, large bold flowers. Height 28 inches. Doz. 60c., 100 \$4.40.
- 125—**King Harold.** Deep purple red with white base, a beautiful variety. Stands the weather well. Height 24 inches. Doz. 65c., 100 \$5.00.
- 126—**La Candeur (White Queen).** Can be called the only White Darwin. It opens rosy white, but changes to a pure white. One of the most popular varieties. Height 24 inches. Doz. 65c., 100 \$5.00.
- 127—**La Tulip Noire.** Intense blackish purple, 26 inches. Doz. 65c., 100 \$5.00.
- 128—**Loveliness.** Soft carmine rose, very warm and brilliant color, lovely and splendid forcer. Height 21 inches. Doz. 60c., 100 \$4.40.
- 129—**Lioba.** Beautiful bluish violet with broad lighter colored margin. Doz. \$1.00, 100 \$7.50.
- 130—**Madame Krelage.** Soft lilac rose, with a broad margin of blush pink. A very large flower on a tall stem. It is one of the best forcing kinds, and a fine bedder. Height 28 inches. Doz. 60c., 100 \$4.40.
- 131—**Massachusetts.** A very large and shapely long stemmed flower of vivid pink, 24 inches. Doz. 65c., 100 \$4.75.
- 132—**Nauticus.** A large handsome flower of glowing, deep, cherry rose. Centre, violet shaded bronze. Height 27 inches. Doz. 60c., 100 \$4.40.
- 133—**Nora Ware.** Silvery lilac, darker towards the centre of petals. Height 22 inches. Doz. \$60c., 100 \$4.40.
- 134—**Pride of Haarlem.** A brilliant rosy carmine with blue base. Most flowers have more than six petals, which make them look semi-double. Splendid forcer. Height 26 inches. Doz. 60c., 100 \$4.40.
- 135—**Psyche.** Rich rosy pink. The flowers are carried on long, graceful stems, and the light blue base, with the silver rose shade makes it look inside even more beautiful than outside. Height 26 inches. Doz. 65c., 100 \$5.00.
- 136—**Petrus Hondius.** Bright carmine rose, extra large and showy flower, very highly recommended. Doz. 65c., 100 \$5.00.
- 137—**Professor Rauwenhoff.** Clear magenta-rose, extra large flower of great substance splendid for forcing. Doz. 65c., 100 \$5.00.
- 138—**Princess Elizabeth.** Beautiful clear deep pink, changing with age to rose pink white base. Large flower of perfect shape, quite like a rose when first open. Splendid for border planting. Doz. 65c., 100 \$5.00.
- 139—**Pulcinella.** Fine cerise red shading to bright red decidedly attractive in the garden, stands forcing under glass. Doz. \$1.60.
- 140—**Prince of the Netherlands.** Glowing cerise-scarlet edged rose, with blue base, and showy white midrib; extra large flower of vigorous habit. A flower of striking color and great size, carried on a tall stem, splendid for forcing. Height 31 inches. Doz. 65c., 100 \$5.00.
- 141—**Rev. W. Ewbank.** Silvery heliotrope, going over into lavender violet towards the base. A beautiful color for outside, stands up straight, and is rather dwarf. Height 20 inches. Doz. 60c., 100 \$4.40.
- 142—**Ronald Gunn.** Deep bluish violet, edged light lavender, white base marked blue. A superb variety, showing a shade of blue found in no other Darwin. Fine for the border and magnificent when forced. Height 26 in. Doz. 75c., 100 \$5.50.
- 143—**Roi d'Islande.** Deep violet rose, fine flower, highly recommended for late forcing in plans, also a very desirable variety for border planting. Doz. 75c., 100 \$5.50.
- 144—**Sieraad Van Flora (Flora's Ornament).** Large flower, fine rose. Extra fine variety. Doz. 60c., 100 \$4.40.
- 145—**The Sultan.** Glossy maroon black. Doz. 60c., 100 \$4.40.
- 146—**Wm. Pitt.** Deep scarlet, tinted purple, white centre, 26 inches. Doz. 60c., 100 \$5.00.
- 147—**W. Copeland.** This is the best early forcing Darwin Tulip and may be had to perfection early in January. Its color when forced is a delicate lavender. Very rare at that time of the year. Outside its flowers are rosy lilac. Height 24 inches. Doz. 65c., 100 \$5.00.
- 148—**Steel Briggs' Superb Mixed Darwins.** A well proportioned mixture of choice sorts. Made up by ourselves. Doz. 50c., 100 \$3.75.

NOTE—If wanted by mail add 10c. per doz., 50c. per 100, for postage.

Daffodils or Narcissus

There are no bulbous plants which have more points of merit than the Narcissus or Daffodil. They are very desirable for pot culture for winter flowering. Three or four bulbs can be put into a 5-inch or 6-inch pot, and with the same treatment as given to Hyacinths, the dull winter and early spring months can be made bright with their exquisite gold and silver blossoms. It is outdoors, however, that Narcissus do best, and once planted need little attention, the clumps multiplying and giving larger and finer results each year.

- 229—Aeolus.** Giant trumpet, beautiful white perianth, very large yellow trumpet with beautifully frilled and recurved brim. Each **80c.**
- 230—Ard Righ or Irish King.** This is the earliest and most vigorous "Giant Trumpet Daffodil" in cultivation. Fine bold flowers of immense size. Color, both of perianth and trumpet, full rich yellow. Doz. **60c.**; 100 **\$4.50.**

NOTE—If wanted by mail add 15c. per doz., 75c. per 100, for postage.

Poetaz Narcissus Aspasia

Chinese or Sacred Lilies

For Growing in Bowls of Water, or in Pots of Earth.

- 285—This is the *Narcissus Orientalis*, and the variety grown by Chinamen for decorating their temples and joss-houses on their New Year's Day which occurs in February. For the most part they are grown in water in fancy bowls with just enough pebbles around them to keep them from toppling over. They can also be grown in pots, in soil, sand or moss. If planted before November 1st, they will flower by Christmas. The white and yellow flowers are borne in clusters and are highly scented. Mammoth Bulbs, each 25c.; doz. \$2.40. Ordinary size, each 18c.; doz. \$1.75.

NOTE—If wanted by mail add 15c. per doz., 75c. per 100, for postage.

JONQUILS

These are charming members of the Narcissus family, producing clusters of golden-yellow blossoms of unsurpassed fragrance. Either for the house or garden culture they are indispensable.

\$1.50 "SURPRISE" Bulb Collections

To meet the demands of our large trade, we import an enormous stock of bulbs, in most cases getting more than needed to make sure of having enough. We make this surplus up into "Surprise" Collections, and offer them to our customers, giving them many times the value of their money. The "Surprise" comes in the great amount of fine bulbs you get for the money paid. These Collections cannot be sent out until November 10th, and will be entirely of our selection. All "Surprise" Collections ordered previous to November 10th will be booked and shipped about that date, but can continue sending them through November and December. When ordering kindly state whether bulbs are wanted for indoor or outdoor culture.

NOTE—If wanted by mail add 25c. for postage.

CROCUS

The Crocus is one of the first flowers of spring. Half a dozen bulbs may be planted in a pot, and will make a very pretty show. For garden culture, plant bulbs 2 inches deep and 2 or 3 inches apart. They are so cheap and pretty they ought to be found in every garden in great abundance.

CROCUS ZONATUS

320—A novelty in Autumn Flowering Crocus, color light lilac with orange yellow centre. These bulbs will flower in their dry state, simply put the bulbs in a little pot or saucer filled with dry sand. They will flower abundantly in a few weeks' time, without needing any water. They also produce flowers by putting them on table, desk or window sill, without any sand whatsoever. The ideal bulb for house culture. After flowering in the house the bulbs can be planted in the flower border, where they will flower again the following fall. They are quite hardy. Crocus Zonatus ready for delivery in August. Doz. 50c.; 100 \$4.00.

SCILLA SIBERICA

- 321—One of the most beautiful hardy spring bulbs, producing in profusion masses of exquisite rich blue flowers almost before the snow has disappeared. If grown in masses their flowers fairly carpet the ground, and if grown with Snowdrops and Crocus, for contrast, the effect is magnificent. Doz. 50c.; 100 \$3.50, postpaid.
- 322—**Scilla Siberica Alba.** Pure white, makes a very fine show when planted with the blue. Doz. 50c.; 100 \$3.50, postpaid.

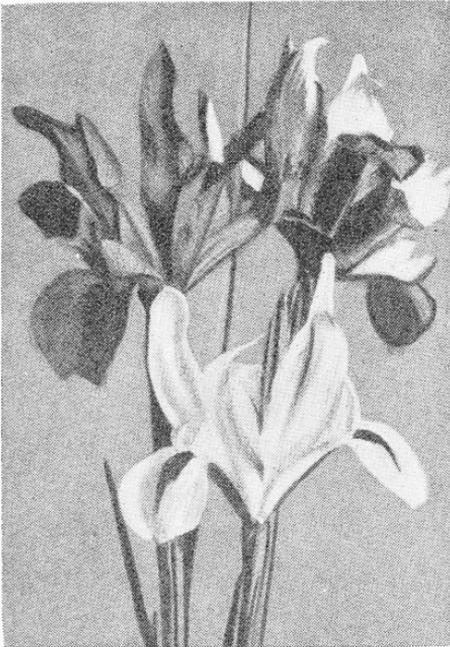

SNOWDROPS (Galanthus)

In the early spring months there is nothing more beautiful than a sheet of the snowy, graceful blossoms of the snowdrop. Beds with effect of surpassing beauty may be arranged with Snowdrops in the centre, edged with bright blue Scilla Siberica or by intermingling them.

- 323—**Snowdrops, Single Elwes Giant.** Doz. 35c.; 100 \$2.50, postpaid.
- 324—**Double.** Doz. 55c.; 100 \$4.00, postpaid.

329—Flora. Creamy white with pale lavender standards. Doz. 25c.; 100 \$1.75, postpaid.

330—Finest Mixed Colors. Doz. 20c.; 100 \$1.50, postpaid.

IXIAS 331—The Ixias produce their beautiful flowers in spikes, and are of the most dazzling and brilliant colors. For open ground culture give them winter protection with leaves or straw. Plant the bulbs in October, 4 or 5 together in a pot. Fine mixed varieties. Doz. 30c.; 100 \$1.75, postpaid.

ORNITHOGALUM ARABICUM (Star of Bethlehem)

332—This is one of the choicest bulbs for pot culture. As an Easter decoration it is superb. A most beautiful species, bearing on a tall scape a cluster of fifty or more milk-white, star-shaped flowers, with a glistening black notch in the centre of each, and having a distinctly aromatic perfume. Doz. 50c.; 100 \$3.75.

RANUNCULUS

Among dwarf flowers these are unrivalled for lovely form and bright and attractive colors ranging through gorgeous shades of white, crimson, yellow, purple, black, many of them beautifully marked with other shades. They flower profusely in pots in the house during the winter, or if grown in frames in the spring, or in cool, damp location, keeping well covered in winter.

333—Turban, Mixed Colors. Paeony-formed flowers, large and early, vivid colors and compactly double. Doz. 30c.; 100 \$1.80, postpaid.

334—French, Mixed. Remarkably vigorous growers, with immense and gorgeously loosely-double flowers. Doz. 30c.; 100 \$1.80, postpaid.

335—Persian, Mixed. Camelia or rose-shaped flowers, very double, rich variety of colors. Doz. 30c.; 100 \$1.80, postpaid.

SPARAXIS 336—Large and beautiful blooms about two inches across, of the most telling combinations and of brightest shades of color; they are tigered, blotched, spotted, streaked, and flushed. Not hardy. Do well in conservatory or house. Mixed, doz. 35c.; 100 \$2.00, postpaid.

Steele, Briggs' Bulb Fibre

To succeed with flowering bulbs it is best to fill the receptacle to a little below the rim, with moistened Fibre, let the bulbs show just a little above the surface, press the bulbs down into the Fibre firmly but do not pack. After the bulbs are planted, place the pots in a cool, dark, airy cellar or out-house free from frost, and leave them there from five to six weeks, in order to develop the roots fully. The Fibre must be kept moist during this time, but not soaked, particularly before the bulbs commence to grow. As soon as they have made a growth of 2 inches above the crown of the bulbs, place in a light, airy room or conservatory and let the plants grow to maturity.

Price, purchaser paying charges, per lb. 10c.; 3 lbs. 25c.; 25 lbs. \$1.75.

If wanted by mail add 10c. per lb.

Easter Lilies

Pure pearly white, deliciously fragrant, and a remarkable profusion of bloom, characterize this charming and celebrated Easter Lily. A profusion of bloom may be had from Christmas until Spring, if a number are planted and "brought in" at different times.

Lilium Harrisii Mammoth Bulbs, 9 to 11, each 60c.; doz. \$6.00, postpaid. By express at purchaser's expense, each 50c.; doz. \$5.00.

Lilium Harrisii Large bulbs, 7 to 9 inches, each 35c.; doz. \$3.50, postpaid. By express at purchaser's expense, each 30c.; doz. \$2.75.

Lilium Longiflorum Giganteum The Japanese Easter Lily. Each 40c.; doz. \$4.00, postpaid. By express at purchaser's expense, each 30c.; doz. \$2.75.

Beautiful Hardy Lilies

Lilies are of the easiest culture, and the varieties listed below are all perfectly hardy. Lilies do best on a well-drained sandy soil, which should be fairly rich, and the plants should be given plenty of water during periods of drought. In order to grow Lilies to large size the bulbs should be planted deeply.

Lilium Auratum The Golden Banded Queen of Lilies. Ivory white ground, richly strewn with purple studs. The centre of each petal has a broad band of yellow extending from tip to base. Fully expanded the flowers measure nearly a foot across, are produced abundantly and possess a most delicious fragrance. Mammoth Bulbs, each 60c.; doz. \$6.00. Large Bulbs, each 45c.; doz. \$4.50. Second Size Bulbs, each 30c.; doz. \$3.00.

Auratum Platyphyllum Thickly spotted pink, and distinct crimson band through the centre of each petal. Each 75c.; per doz. \$7.50.

Batemanni A most beautiful Japanese variety, growing 3 feet high, with 6 to 8 apricot-colored flowers on a stem; blooms in July and August. Each 40c.; per doz. \$4.00, postpaid.

Lilium Candidum This Lily is also known as "Annunciation Lily" and "Madonna Lily." It grows 3 to 4 feet high, and blooms in the open ground in June. When grown in bold masses or in rows these lilies are especially effective. Mammoth Bulbs, each 30c.; doz. \$2.75, postpaid. Second Size, each 20c.; doz. \$2.00, postpaid.

Elegans, Mixed Embracing beautiful and distinctive new varieties, which both for pot culture and for masses of color in the open garden, are unsurpassed. Each 25c.; doz. \$2.50, postpaid.

Henryi The Yellow Speciosum. A beautiful hardy lily from Northern China. The plants are of vigorous growth, frequently attaining a height of 6 feet, each stem carrying from five to eight flowers of a rich, apricot-yellow, spotted with brown. Each 90c.; per doz. \$9.00, postpaid.

Speciosum Melpomene White, suffused with darkest crimson. Flowers very large and fragrant, makes a very beautiful specimen plant. Mammoth Bulbs, each 50c.; doz. \$5.00. Large Bulbs, each 40c.; doz. \$4.00.

Lilium Regale or Myriophyllum A very rare lily from China. The flowers are white, shading to yellow in the centre, with a pink tinge on the outer edges. A strong grower, some 3 or 4 feet high. It is deliciously scented, and its extreme hardiness makes it a valuable lily for outdoor planting. Each 55c.; doz. \$5.50.

Lilium Speciosum Album Flowers bell-shaped, petals curving backward, pure white and light green rib in centre of petals. Height 4 to 4½ feet; blooms in June and July in the open ground. Mammoth Bulbs, each 60c.; doz. \$6.00. Large Bulbs, each 50c.; doz. \$5.00.

Lilium Speciosum Rubrum White ground with band and spots of rose and crimson on each petal. One of the best lilies. We have a splendid stock. Mammoth Bulbs, each 60c.; doz. \$6.00. Large Bulbs, each 45c.; doz. \$4.50. Second Size Bulbs, each 30c.; Doz. \$3.00.

Tigrinum Splendens Tiger Lily. Orange, spotted black, 3 to 4 feet; August; very hardy. Each 25c.; per doz. \$2.50, postpaid.

Tigrinum Flore Pleno Double-flowered Tiger Lily. Each 25c.; per doz. \$2.50, postpaid.

Yellow Japanese Lily (Hansonii). Also known as Golden Turk's Cap Lily and as Japanese Turk's Cap Lily. Stately plants from 3 to 5 feet tall with large clusters of blooms. Of a bright golden-yellow color, spotted with purplish brown. The anthers are orange-red. Blooms during June and early July. Each 75c.; doz. \$7.50.

Magnificent Paeonies

The Flower for the Million and the Millionaire

The roots you get from us are field grown, large and healthy and will give much better results than cheap ones.

The Paeony is a noble flower, almost rivaling the rose in coloring and perfection of bloom. It is perfectly hardy without protection; is not troubled with insect pests or diseases, and once planted takes care of itself, increasing in size and beauty each year. No other flower is as well adapted for large showy bouquets.

Paeonies require a good rich, deep soil and an abundant supply of water during the growing season. When enriching the ground the use of too much fresh manure near the roots should be avoided. An important point to observe is not to plant too deep. The roots should be planted so that the eyes will be 2 to 3 inches below the surface. Too deep planting is a frequent cause for shy flowering.

Adolphe Rousseau Very large, semi-double. Purple-garnet. Very tall, vigorous grower; dark foliage, veined-red. Early. One of the darkest Paeonies. Fine for landscape effects. In our opinion the best very early dark red Paeony. Each \$1.25.

Agnes Mary Kelway Deep violet-rose guard petals and cream-white collar. Each \$1.50.

Asa Gray A variety which was introduced a good many years ago, but rather scarce, as there is always a good demand. Unique flowers of milk-white thickly sprinkled with minute carmine dots, so that the total effect is delicate pink. Midseason. Each 75c.

Baroness Schroeder One of the best and most satisfactory white Paeonies. Immense globular flowers, white guard petals, and a soft, baby-pink centre becoming pure white. Stems very strong rather light green foliage. Late midseason. Each \$1.50.

Berlioz Enormous full globular imbricated bloom. Color bright currant-red; centre tinted rose, tipped silver, rose type; late midseason. Each 75c.

Boskoop Beauty A good sized flower, outside white, inner petals usually tipped with pink. Each 60c.

Canari White, tinted primrose. Each \$1.00.

Claire Dubois A gem amongst the Paeonies and considered even better than Monsieur Jules Elie. Very large, double globular flowers. Color rich, clear satiny-pink with glossy reflex. Rose type. Late midseason. Each \$1.25.

Delachei Color deep, rich amaranthine purple with a crimson reflex, slightly tipped silver. Late midseason. Each \$1.00.

Duchess de Nemours Crown type; early; white, sulphur white collar. Each 60c.

Edulis Superba Large, loose bloom of dark pink of even color, flat when fully open, fragrant. Upright, strong growing plant. Early. Each 60c.

E. G. Hill Tyrian rose or red, with a wide border of silvery red. Semi-rose type. Early midseason. Free bloomer. Magnificent. Each \$2.00.

Festiva Maxima The most popular white Paeony for cut flower. Pure white prominently flecked crimson. Outer petals sometimes faint lilac-white on first opening. Tall, vigorous grower. Rose type. Early. Each 60c.

Gloire de Touraine Velvety crimson. Very late. Fragrant. Each \$1.25.

Lady Alexander Duff (Kelway). Rose type; mid-season; pale pink fading to white. Each \$2.00.

Louis Van Houtte Rich purple lake, a noble variety; extra full and free. Each 60c.

Madame Emile Lemoine Semi-rose type; mid-season; milk white. Each \$1.00.

Monsieur Martin Cahuzac Fiery purple red passing off into chestnut brown, large flower, \$3.00.

Marie Lemoine Large, rose-type bloom. Pure white with cream; fragrant. Each 75c.

Monsieur Jules Elie Large, compact, globular. Pale lilac-rose with silvery reflex. Good grower, very fragrant. Each 75c.

Madame de Verneville Very large, perfect bomb-shaped bloom. Pure white with centre petals blush, tipped crimson. Medium height; strong. Each 60c.

Monsieur Krelage Large, semi-rose type; solferino red edged with silver white; free bloomer. Each 75c.

President Taft Soft pink compact flower. Each \$1.00.

Reine Hortense Hydrangea, suffused rosy salmon, centre carmine. Each \$1.00.

Sarah Bernhardt Vivid pink extra large flower. Each \$1.50.

Victor Hugo Medium size, fairly compact, rose type bloom of violet crimson. Strong, vigorous, erect grower. Each 60c.

Double Chinese Paeonies Unnamed, in shades of red, pink and white. Each 30c.; doz. \$3.50.

GRANULATED PEAT MOSS

For the Nursery, Greenhouse, Garden and Home. Should be used liberally about the garden and greenhouse, also for pot plants, window boxes and for the growing of bulbs, etc. Will be found very beneficial for mulching perennial flower beds, lawns, roses, etc. 10c. per lb., 10 lbs. 60c., large bale \$4.50.

IRIS GERMANICA

FLEUR DE LIS

Iris require little cultivation other than to keep the weeds out. Most varieties thrive best in dry, sunny locations. In planting, the soil should just cover the rhizome and should be well packed around the plant. Fertilizer for the most part should be avoided, although a small application of finely ground limestone and bonemeal is beneficial.

Iris may be transplanted either during Spring or Fall. If it should be necessary to plant late in the fall, then cover the plants lightly with straw or leaves to protect the newly set plants during the winter.

Our Iris are all strong, field grown plants

Sambucus Nigra Aurea. (Golden Elder). A handsome bush, with golden foliage which it retains all summer. Its vigorous growth and freedom from disease make it a desirable and effective shrub. Each 75c., doz. \$7.50, by express at purchaser's expense.

Spiraea "Anthony Waterer." When scarcely 18 inches high it begins to bloom, and thereafter is seldom out of flower. In the garden it will make a plant 3 feet high and wide, and will be covered with heads, 1 foot across, of brilliant crimson flowers. Each 50c., postpaid.

Van Houttei. Is the most showy of all the Spiraeas. In the spring the plants are a perfect snowbank of bloom, the long, slender branches drooping gracefully with their weight of flowers; strong growing and entirely hardy, rich, blue-green foliage. Each 50c., postpaid; large plants, each 75c., by express at purchaser's expense.

Opulifolia Aurea. (Virginian Guelder Rose). An interesting variety of medium growth with golden tinted foliage and large white flowers in June. 75c. each, postpaid.

Tamarix Hispida Aestivalis. A distinct variety, bearing delicate sprays of soft pink flowers in July and August, very light and feathery. Each 75c., postpaid.

Viburnum Plicatum. (Japan Snowball). A rare and exceedingly beautiful species from Japan. Flowers pure white in large round balls in June. Moderate growth; handsome plicated foliage. One of the most popular and desirable shrubs grown. Each 75c.; doz. \$7.50, by express at purchaser's expense.

Deutzia Lemoinei. A hybrid obtained by crossing the well-known Deutzia Gracilis with Deutzia Parviflora. Flowers pure white, borne on stout branches which are of upright growth. Habit semi-dwarf and free-flowering. An extra choice shrub, cannot be too highly praised. 60c. each, postpaid.

Var. Pride of Rochester. A variety raised from Deutzia Crenata Flore Pleno and producing large double white flowers, the back of the petals being slightly tinged with rose. It excels all of the older sorts in size of flower, length of panicle, profusion of bloom and vigorous habit; blooms nearly a week earlier than Crenata Flora Pleno. 60c. each, postpaid.

Hydrangea Paniculata Grandiflora It grows 3 to 5 feet high, perfectly hardy in all parts of the country, and needs no protection in winter, blooms in July and August and remains in bloom two or three months. The flowers are pure white, afterwards changing to pink and rich, coppery red, and are borne in immense pyramid trusses, more than a foot long. Two-year-old plants, by mail postpaid, each 60c. Large plants, each 75c.; by express at buyer's expense.

Arborescens Grandiflora Alba (Snowball Hydrangea, Hills of Snow). The blossoms are of the very largest size, of pure white color. One of its most valuable characteristics is its coming into bloom just after the passing of all the early spring shrubs, while its long season of bloom, from June through August, renders it doubly valuable to every owner of a garden. 3 to 4 feet. Each 60c., postpaid.

Forsythia Fortunei (Golden Bells). Bright golden yellow, star-shaped flowers burst into bloom just as winter is leaving and while the bush is otherwise bare. Erect shoots, spreading branches and excellent foliage that assumes a rich Autumnal tint and persists until early winter. Each 60c., postpaid.

Fall Seed Wheat

O. A. C. No. 104 WHEAT

A cross made at O.C.A. Guelph, between the Dawson's Golden Chaff and the Bulgarian, has furnished a variety of winter wheat, which is very promising. In the past nine years it has produced an average annual yield of grain per acre of 45.0 bushels, while the Dawson's Golden Chaff for the same period, has produced 43.0 bushels and the Bulgarian 37.5 bushels. It will therefore be seen that the O.A. C. No. 104 has surpassed each of its parents in productiveness. It has given a grain, which is almost equal to the Bulgarian for bread production.

The O.A.C. No. 104 variety is a vigorous grower, with a comparatively stiff straw. The grain is white, and the variety resembles the Dawson's Golden Chaff in being beardless and the Bulgarian in having white chaff.

DAWSON'S GOLDEN CHAFF (Bald)

The Dawson's Golden Chaff is quite distinct from any other varieties grown, and when ripe, most closely resembles the Standard and the Clawson (white) varieties. The straw is medium in length and very strong; the crop has a golden appearance with a long head filled with plump white grain.

FALL RYE (Common)

We have a splendid sample to offer this season, selected for seed.

KALE RAPE

The New Fodder Plant

This has proven to be a most valuable fodder plant. It is very hardy. Produces a great weight of leaves and as the stem is also edible there is no waste whatever.

Duplex Rape Kale is one of the heaviest cropping forage plants. Grows about 4 feet high. It is of special value as a milk producing feed. Withstands drought remarkably well, and has shown no tendency to disease.

A feed of this kind is a necessity. Can be pastured, or if preferable can be pulped like roots, as the stem contains considerable food value. We recommend that you try a small acreage of this, this season. Seed in drills about 24 inches apart, 2 to 3 lbs. per acre, 1 lb. \$1.50, 5 lbs. \$7.00 postpaid.

SOWING RAPE

3 to 4 lbs. per acre in Drills, 8 to 10 lbs. broadcast.

It has been estimated that one acre of rape will feed from 35 to 40 lambs for two months, and that the gain in flesh per month was from 8 to 12½ lbs. on each lamb. Young cattle thrive on it as well as hogs. Rape may be sown either in rows and cultivated, or sown broadcast. Poor soil is often sown with Rape and ploughed under as a fertilizing crop for which purpose few, if any other, crops are better. **Genuine Dwarf Essex Sowing Rape**, lb. 15c, postpaid 30c; 10 lbs. \$1.20, by express at purchaser's expense. Special prices for large quantities on application.

WILD RICE (Zizania)

As an attraction for wild fowl it is invaluable. In fish ponds and lakes it purifies the water and affords a refuge to the small fry from the large fish, and also furnishes them with food from the animalculae on the stalks. The seed should be sown in 6 inches to 6 feet of water, having a soft mud bottom and where there are but few weeds. It commences to sprout as soon as the water gets warm, and grows rapidly, ripening late in August or September. Lb. 35c, postpaid 50c; 10 lbs. or over 30c per lb. by express at purchaser's expense.

SAND or WINTER VETCH (Vicia Villosa)

It produces crops on poor, sandy soils as well as on good lands, growing to a height of 4 to 5 feet. It should be sown during August or September, mixed with rye, which serves as a support for the plants. It is the earliest crop for cutting, being hardier and nearly a month earlier than Scarlet Clover. It is exceedingly nutritious, eaten with relish and may be fed with safety to all kinds of stock. Sow 50 to 60 lbs. per acre, with one-half bushel of rye, oats or barley. Prices quoted on application.

CLOVERS and GRASSES

STEELE BRIGGS' "LION" TIMOTHY—Government Standard No. 1 "Lion" brand is specially selected for purity, vitality and freedom from other seeds, and is the one best value on the market. Clean, flail-threshed and unhulled.

Queen City Lawn Grass
Ten Weeks from Seed

STEELE, BRIGGS' "Queen City" Lawn Grass

Specially selected and analyzed for Purity and of the highest germination. Suited for our Canadian Climate, and will produce a fine green sward in ten weeks from seed.

We pride ourselves on our "Queen City" Grass Seed mixture. By comparative trials, we have found it to be unsurpassed for first-class permanent results. This is due to the fact that we have used only the very finest varieties of the most suitable grasses obtainable.

Of the two ways of making a lawn, seeding is not only much more effective, but cheaper than sodding. In selecting the seed for "Queen City" Lawn Grass, the greatest care has been taken to obtain a proper mixture of the varieties, for this reason. The careful choice of early, medium and late grasses at their best during different periods of the season, and their scientific blending, assures a smooth, even green lawn from early spring to late autumn.

Our Lawn Grass Seed is used very extensively not only in our own city, but in all parts of the Dominion, and the demand for it is increasing every year. It is also used for tennis courts, croquet lawns, in parks, cemeteries and private grounds with unvarying success. Not only is "Queen City" Lawn Grass suitable for the making of new lawns, but it will be found equally valuable for quickly renewing imperfect, old and worn out areas.

"Queen City"—For making new lawns, use 150 to 200 lbs. per acre. For renovating old lawns, 50 to 100 lbs. per acre. For a plot 200 square feet, one pound is required for a new lawn and one-half pound for renovation. Price lb. 70c, postpaid 80c; 10-lb. lot 65c per lb., by express at purchaser's expense.

Special Prices for Large Quantities on Application

Steele, Briggs' "Shady Nook" Lawn Grass

Some lawns have bare and unsightly spots under trees and in shady places, where no amount of sodding or seeding will grow grass. "Shady Nook" Lawn Grass, composed of dwarf-growing varieties found in a natural state in just such places, will form a fine green sward. Lb. 80c, postpaid 90c; 10-lb. lots 75c per lb.; by express at purchaser's expense. Special quotation for large lots.

Steele, Briggs' "Fairways" Grass Mixture

A mixture of short-growing grass that will stand the necessary wear and tear. Special mixtures are made up to suit the grounds and soil to be seeded. Lb. 55c, postpaid 65c, 10-lb. lots 50c per lb. by express at purchaser's expense. Special quotation for large lots.

Steele, Briggs' Putting Green Mixture

A careful study of the requirements for making the most substantial turf for Putting Greens developed the mixture herewith offered for this purpose. The varieties comprising this mixture are all low-growing, fine-bladed and most hardy kinds that maintain their rich green color throughout the season. Lb. 60c, postpaid 70c; 10 lbs. 55c per lb., by express at purchaser's expense. Special prices for large quantities.

WHITE CLOVER—This is the dwarf-growing clover used for lawns in many places. The color is dark green, the leaves are small and close together, making a desirable lawn. No. 1 Government Standard Fancy Quality lb. 60c, postpaid.
