The Near-to-Nature Way

Crown and Bridge work is—
of all dental science—the near-
est to nature's way of supply-
ing artificial teeth in place of
one—or several—or whole sets
of missing ones. It makes the
clumsy, cumbersome plate of
other methods unnecessary.
It gives to the mouth an ap-
pearance of perfect natural-
ness, comfort, cleanliness and
efficiency. It combines with
these features the greatest
durability in service when
properly constructed. We are
equipped with more than the
usual experience in such work
and exceptionally fine facilities
for performing it. We'll be
glad to talk with you about it

Our charge for Gold Crown and Bridge
work can be figured at \$5.00 a tooth up.

BALD YOUNG MEN

Are on the increase especially in the professions where much mental activity is demanded, and where close application to business seems to make itself felt in the premature loss of the hair.

While it may be in a measure pleasing to be considered intellectual, the often attendant baldness is not becoming, and the average young man cares, or should care a good deal about his appearance.

PEMBER

Makes a Toupee of the very finest natural hair of the precise shade to match that of the wearer. The fit is perfection, the simulation of nature perfect, and the invisibility when worn guaranteed. These, and the moderate price asked for such an article, merit a visit to the store. Better come and see for yourself what a Good Toupee really is, and visit the new Turkish Baths.
