Your Spring Hats Ladies

And the way they become you. There is an all-important question. And your hair, and the way in which it frames your face and fills in the space around your hat, without leaving gaps and sagging down just where it should stay up. That is another important question.

THE CURE

For flat hair, when the hat is on or off is in wearing one of Pember's Spring Pompadour Bangs. With them the hair is always full and fluffy and they adapt themselves to the shape of hat and face, when the hat is removed they at once resume the shape they were before it was put on. Dainty, becoming, beautifully made and with no trace of artificiality, they are the perfect hair aid to wear for fine appearance, at home or abroad.

HOW MRS. JONES DID IT

Just how Mrs. Alex. Jones could find time to make calls on her friends, or go down town, or do so much sewing, or read magazines and the latest books, puzzled the ladies of Euclidberg.

Mrs. Jones was a progressive woman—she wanted to know about new things and used them.

But in spite of her many labor saving conveniences she found herself dreading the waste of time and nagging toil of preparing and cleaning up after three meals every day.

She decided that the solution lay in a kitchen cabinet. Then Mrs. Jones found that the words kitchen cabinet, like charity, covers a multitude of "sins".

At the stores there were cabinets that looked like her "old cupboard"—shelves, and that's about all. Nothing labor saving about them.

Mrs. Jones soon figured out that she wanted something more than a cabinet. She needed a labor saving machine designed with such forethought and experience as any other machine in business life.

She found it—give Mrs. Jones credit for perseverance and brains, for rejecting what were not machines, not real labor savers.

A "HOOSIER" Cabinet filled every requirement. The more she studied it the better she liked it. It was all there. A labor saver, scientific and convenient—full of practical devices not found in any other cabinet, and not more expensive than others.

The cabinet was solid oak and would not warp in the heat of the kitchen, and the ADAMS' STORE guaranteed it would not.

She couldn't get such a guarantee from other stores.

She bought a "Hoosier" Cabinet and used it three times a day every day in the year. It proved to be her ideal of a cabinet, just what she wanted—a real labor saver.

This is how Mrs. Jones did it.

"HOOSIER" Cabinets are sold only at the Adams' Store in nine different styles and prices. The purchase is made a very simple matter because very easy terms may be arranged for the payment. A small amount down and cabinet will be delivered to your home at once, afterwards balance can be paid in extremely small amounts about as you find it convenient.

Come to the store and let us show you what an indispensable thing a good kitchen cabinet is.
