GARDEN GUIDE

Of all hobbies, gardening is the least tainted with such jealousies as one meets with in the pursuit of other hobbies and recreations. It seems to make for generosity and good fellowship the world over, and it is surprising how a total stranger will share his pleasures with a kindred spirit, and to what trouble he will go to assist a fellow gardener.—Martineau.

Blue Seal Guaranteed Nursery Stock

Avoid disappointment, by buying nursery stock with a name behind it. We grow and ship to customers stock guaranteed true to name (all our Blue Seal Nursery Stock has a blue seal attached to each article) and to be in good condition and inspected when leaving our nursery. However, through causes entirely beyond our control, stock sometimes fails to grow when planted by customers or their agents and for this we feel we are not responsible: but any "Blue Seal" stock planted by our landscape department, failing to make satisfactory growth within six months, will be replaced at one half cost price providing we can satisfy ourselves that stock has had fair treatment.

Landscape Work

Our Landscape Department is prepared to undertake the designing and laying out of estates and gardens, the correct pruning and spraying of old or overgrown trees, shrubs and hedges and to bring them back to normal growth; the building of pools and rock gardens, and the creation of new shrubberies or perennial borders.

Lawns

We maintain the equipment for the treatment of weeds in lawns and other grass areas. Our method destroys weeds without discolouring the grass. The formula used by us acts as a tonic and fertilizer to the grass while riding the lawn of weeds. This work can be carried out over large areas on a guarantee basis.

GENERAL INFORMATION

Prices

The prices in this list are for goods at shipping points in Toronto or for local delivery—boxing, baling, and packing charged extra at cost.

Terms

All orders are booked upon condition that they shall be void should we be unable to supply stock through causes over which we have no control. Goods can be sent C.O.D. to points where there is an express office; otherwise money must accompany order with sufficient to cover packing, express or freight. Any balance will be promptly returned. All orders must be accompanied by at least 25% of the order.

Contracts

Contracts of \$500.00 and under are payable on completion of work. On contracts exceeding \$500.00 payment will be required from time to time as work proceeds; the final payment being due upon completion of work exclusive of any guarantee that might be given. Work undertaken on time and material basis, payment will be required as of above, plus 10% to cover our expenses.

Evergreens

All evergreens are shipped balled in burlap and should be planted without removing the sacking or breaking the ball and receive an abundance of water the first year. While some evergreens are ideal for foundation plants others of the

taller growing varieties are better used as specimen shrubs on the lawn, or for park planting, tall hedges and shelter belts.

Flowering Shrubs

In this line we make a specialty of growing specimen stock suitable for a shrubbery or for foundation planting around a home, all flowering shrubs are transplanted and kept root pruned thus digging with a good fibrous root system. Most should show some bloom the first year of planting.

Shade Trees

All ornamental and shade trees listed are extremely hardy. Most are very rapid growing and make a great addition to any home either as a windbreak or as protection from the summer's heat. Some trees are of tall growth such as the forest giants, our native elm. Others are very floriferous, bearing an abundance of bloom and others are of medium growth while providing shade in the average garden will not become so overpowering as to interfere with other plantings in their vicinity. All newly planted trees should be kept securely staked till well rooted.

Hedging Plants

We cannot speak too highly of the results acquired through a well grown hedge. All types listed have been thoroughly tried for a number of years in our nursery. Some varieties make a formal border or edging for a walk of from 1-2 feet. Other varieties make a dense hedge of from three to four feet, or provide a screen of from twelve to fifteen feet. We suggest severe pruning of all newly planted hedges.

Vines

The vines and climbing plants herein listed are all extremely hardy and are ornamental both in flower and foliage. An unsightly corner or wall can soon be screened at a very small expenditure.

Perennials and Alpines

We believe that we have one of the most complete stock of herbaceous perennials and rock plants in Canada. Perennials can be planted either in the spring or fall, although September is perhaps the best month to plant paeonies and oriental poppies. We grow many other varieties and species, but have only a limited stock, hence they are not included in this catalogue. But as our stock of these rare and exotic plants accumulates we shall be offering them to the public from time to time.

Fruits

The fruit trees listed are those of proven worth for the average home garden or small fruit grower. The apples and crabs are all hardy and well known varieties. Plums and cherries often fail to bear fruit for the reason that some varieties are self-sterile. In which case we recommend planting one or more of a different variety to ensure fertilization of the fruit buds.

NEW AND RARE PLANTS

The following plants, trees and shrubs are not all of recent introduction, some being among the oldest vegetation growing, but they are plants which we consider of outstanding merit and worthy of a place in every garden.

Evergreens

BUXUS (Korean Box).

Koreana.

This is a hardy dense evergreen of dwarf nature, excellent for tubs, urns or window boxes. Clipped they make beautiful globes and pyramids. As a low hedge they are unexcelled. The Box is much used in Europe for topiary work. 6-9 inches packed in moss for hedges, each

Per 100	\$ 40
Specimens, 9-12 inches	30.00
12-15 inches	1.50
15-18 inches	1.75
	2.25

COTONEASTER

Praecox.

Beautiful little semi-evergreen shrub with handsome dark green foliage covered with brilliant red berries. This is just the thing for the front of a foundation planting, rockery or for covering banks, with its horizontal spreading habit, never exceeding more than two feet high, each

~~\$1.25~~

Trees

GINKGO (Maidenhair Tree).

Biloba.

The oldest type of tree that exists on earth to-day; the sole member of a vast family of plants which covered the temperate zone, preserved through the ages by ancient Chinese priests by being planted around their temples. Excellent as a shade or lawn specimen, free from disease and insects; dark green shiny foliage patterned after those of the maidenhair fern.

4-5 feet	\$3.50
5-6 feet	5.00

Shrubs

COTONEASTER

Acutifolia.

This is a very hardy shrub of upright habit with shiny dark green leaves which take on glorious colours in the fall, contrasting well with the large black fruits; makes a splendid medium to tall hedge, withstanding sub-zero temperature, each

\$.50

Per 100	35.00
---------------	-------

GENISTA (Broom).

Tinctoria.

Dense low growing shrub with dark green shiny foliage, covered with brilliant yellow pea-shaped flowers; very outstanding for the front of a shrub border or rockery, each

\$.60

PRUNUS

Hansoni.

Showy ornamental shrub of the cherry family. Perfectly hardy bushy type shrub, literally covered in spring with blossom followed by black

edible fruits excellent to eat or as preserves, only growing from 4-5 feet and bearing an abundance of fruit. A beautiful ornamental shrub and is a worthwhile addition to any garden, each

\$1.25

RIBES

Alpinum (Alpine Currant).

A dense growing shrub of medium height, of excellent value for a shady spot, perfectly insect and disease free, very hardy and will grow where many other specimens fail to survive. As a hedge this shrub has no equal as it can be trimmed to any shape desired. There is fine dark green shiny foliage and small yellow insignificant flowers. This shrub can be very highly recommended. At present the stock is limited, each \$.50
Per 100 35.00

SYRINGA (Lilac).

Villosa.

This is an extremely hardy variety of lilac with beautiful clean foliage and pink flowers which blossom after other varieties are over. As it prolongs the lilac season this is a great addition, each \$.75

Perennials

CHRYSANTHEMUM

Rubellum (Clara Curtis).

A summer blooming plant with large glistening pink daisy-like flowers, excellent for cutting, perfectly hardy and blooms when there is least colour in the garden. It will grow in poor dry soil and give an excellent display. Each \$ ~~25~~

DICTAMNUS

Fraxinella (Gas Plant).

A stately border plant of shrubby growth, handsome dark green foliage, long spikes of highly perfumed red and white flowers. At dusk the flowers yield an ignitable vapour, hence the common name, each \$.50

LAVENDULA

Vera (English Lavender)

A twiggy plant prized for its highly perfumed heads, used commercially in the manufacturing of perfume, each \$.50

PYRETHRUM

In single and double named varieties, as a cut flower there is no equal. Their straight stems and the long lasting qualities of bloom when cut make these plants indispensable to any garden. For further description see under Perennials and Alpines, each \$1.00

Evergreens and Coniferas

ABIES (Fir).

The first are outstanding as specimens for the park or lawn, eventually reaching a height from 20-30 feet adding great beauty to any large evergreen planting.

Concolour—Beautiful blue form. 24-30 inches *Sold out* \$3.00

Balsamea—Native balsam spruce. 2-3 feet 2.50

JUNIPERUS (Juniper).

The Junipers are our most valuable group of evergreens, some being quite prostrate, while others are of a semi-upright habit, spreading, or of a pyramid habit. Almost any of them are useful as a foundation plant or as a lawn specimen.

Communis depressa aurea — A golden juniper. 15-18 inches\$4.00
 18-24 inches 5.00

Pfitzeriana—Spreading habit and very popular. 15-18 inches\$3.00
 18-24 inches 3.50

Pfitzeriana aurea—A golden form. 15-18 inches~~\$2.75~~

Sabina—The most popular spreading juniper with dark green foliage. 12-15 inches~~\$2.00~~
 15-18 inches 2.75

30-36 inches	2.75	
3-4 feet	3.50	

Broad-Leaved Evergreens

A group of evergreen plants gaining great popularity, renowned for their toughness which makes them invaluable for foundation planting and other purposes, and will thrive and grow where the more familiar coniferas will die. They will withstand city conditions and many varieties will grow in dense shade.

BUXUS (Korean Box).

Koreana —Very suitable as foundation planting or as a dwarf formal hedge.		
6-9 inches, packed in moss for hedges, each 100, \$20.00. Specimens,

Minor—Trailing evergreen suitable for covering ground under trees, blue flowers.25
YUCCA (Adam's Needle).	
Filamentosa—Tropical looking shrub, long spiky evergreen leaves, creamy bell-shaped flowers, and 3 feet high.....	\$1.00

Flowering Shrubs

The popularity of deciduous flowering shrubs is explained by the comparative ease with which they can be grown, their splendid display of bloom, berries and coloured foliage. Shrubs listed are all proven hardy and provided the right type of pruning is given, an array of bloom is assured year after year.

The approximate ultimate height is given with each shrub listed. Those marked (T) tall are from 6-12 feet; those (M) medium are from 3-6 feet; those (D) dwarf are from 1-3 feet.

ACER (Maple).	
Ginnelia (Russian Maple)—(T) Semi-tree or tall shrub, ornamental foliage.50
AMELANCHIER (Juneberry)	
Canadensis—(T) White flowers, purple fruits in June.....	.75
AMORPHA (Lead Plant)	
Canescens—(D) Low growing, ornamental foliage, panicles of blue flowers a gem for the rock garden.....	.75

Pygmaea—(D) Useful low growing shrub, spiny foliage with yellow pea-like flowers.....	.50
COLUTEA (Bladder Senna).	
Arborescens—(T) Showy yellow flowers followed by red bladder-like seed pods.....	.50
CORNUS (Dogwood).	
Elegantissima—(M) Beautiful silver foliage.....	\$1.00
Flavirima—(T) Yellow barked Dogwood.....	.50
Kesselringii—(T) Showy purple black bark.....	.50
Siberica—(T) Invaluable for winter effect, brilliant red bark, white flowers.....	.50
Spaethi—(M) Golden variegated leaves.....	.50
CORYLUS (Purple Leaved Filbert).	
Atropurpurea—(T) Very beautiful shrub, large rich purple leaves.....	\$1.00
COTINUS (Smoke Tree).	
L	
Coggygia—(T) Handsome foliage, smoke-like feathery bloom.....	\$1.00
COTONEASTER	
Acutifolia—(T) Hardy shrub, black fruits very ornamental in the fall.....	.50
Tomentosa—(T) Upright bushy shrub, berries in brick red clusters.....	.75
CYDONIA (Japanese Quince).	
Japanica (M) Excellent shrub for training to wall, brilliant scarlet flowers.....	.60
Maulei—(D) Beautiful orange apricot colour.....	.75
Moerloosi—(M) Large flowers, the colour of an apple blossim.....	.75
DESMODIUM	
Penduliflorum—(M) Showy rose pea-shaped blossoms from August to frost.....	.50
DEUTZIA.	
Gracilis—(D) Compact shrub, showy lily of valley-like white flowers.....	.50
Plemoini—(M) Showy pure white flowers.....	.50
Pride of Rochester—(T) Large double white flowers, tinged with pink.....	.50
ELEAGNUS (Russian Olive).	
Augustifolia—(T) Grey willow-like foliage, yellow flowers and fruits.....	.60
Argentea—(M) Silver leaves, yellow flowers, silver fruits.....	.60
ELSHOLTZIA (Mint Shrub).	
Stauntoni—(M) Purple heads of lilac-like flowers in September with aromatic foliage.....	.60

EUONYMUS (Burning Bush).	
Alatus—(M) Unsurpassed for autumn decoration, vivid flame coloured foliage.	.75
Europaeus—(T) Spindly growth, orange coloured seed pods.	.60
Koopmanii—(M) Beautiful shrub with pink and orange fruits.	.60
EXOCHORDA (Pearl Bush).	
Grandiflora—(T) White pearl like flowers in early spring.	.75
FORSYTHIA (Golden Bell).	
Fortunei Aurea—(T) A beautiful form with golden yellow leaves, yellow flowers.	.60
Intermedia—(T) Golden yellow flowers.	.60
Suspensa—(M) Beautiful weeping form.	.60
Viridissima—(T) Green stems, yellow flowers, the latest to bloom.	.60
GENISTA (Broom).	
Tinctoria—(D) Dense shrub, very showy yellow pea-shaped flowers.	.60
HALIMODENDRON (Salt Bush).	
Argenteum—(M) Graceful shrub, fine silvery foliage, rosy purple flowers.	\$1.00
HIPPOPHEA (Sea Buckthorn).	
Rhamnoides—(T) Large shrub, willow-like silvery leaves, yellow flowers, orange berries.	.75
HYDRANGEA (Hills of Snow).	
Arborescens—(D) Round heads of showy white flowers.	.75
Breitschneideri—(M) Beautiful shrub, flat heads with white flowers turning pink.	\$1.00
Pee Gee—(D) Massive spike of white bloom.	.75
KERRIA	
Japonica—(D) Beautiful little shrub, clear yellow flowers.	.50
Japonica fl. pl.—(D) Large double yellow flowers.	.75
Japonica var.—(D) Silver variegated foliage.	.75
KOLKWITZIA (Beauty Bush).	
Amabilis—(M) An abundance of tubular pink flowers.	\$1.00
LESPEDEZA	
Bicolour—(M) Wand-like branches, rosy purple pea-shaped flowers.	.50
LIGUSTRUM (Privet).	
See under hedges.	
LONICERA (Honeysuckle).	
Alberti—(D) Pretty, procumbent shrub, fragrant pink flowers.	.50
Morrowi—(M) Spreading habit, showy dark red fruits.	.50
Tartarica—(T) Tall shrub, showy pink flowers	.50
MALUS (Flowering Crab).	
Atrorubra—(T) Purple foliage, dark red flowers.	\$1.25
Ioensis—(T) (Bechels Crab) Double pink rose-like flowers, very showy.	\$1.50
Schiedeckeri—(T) Semi-double pink flowers.	\$1.25
Siberica—(T) Old fashioned flowering crab, showy red fruits used in preserves.	\$1.25
PHILADELPHUS (Mock Orange).	
Coronarius—(T) Fragrant white flowers.	.50
Coronarius Aureus—(D) Leaves golden yellow.	.75
Erectus—(M) Upright growing shrub, numerous small white flowers.	.50
Grandiflorus—(T) Immense white flowers.	.50
Virginal—(T) Fragrant double white flowers.	.75
PHYSOCARPUS (Nine Bark).	
Monogynus—(T) Magnificent display of yellow foliage in spring.	.75

POTENTILLA (Cinquefoil).		L
Fruiticosa—(D) Beautiful little shrub, yellow flowers all summer.....		.6C
Veitchii—(D) A white form of above.....		.60
PRUNUS (Plums, Cherries and Almonds).		
Cistena—(T) Purple leaved sand cherry.....		\$1.25
Pissardi—(T) Purple leaved plum.....		\$1.25
Sinensis—(M) Flowering Almond. Pink flowers.....		\$1.25
Tomentosa—(T) Manchurian Cherry, showy flowers, edible red fruits.....		.75
Triloba—(T) Flowering Plum. Double pink flowers.....		\$1.25
RIBES (Flowering Currant).		
Alpinum—(M) Excellent shrub for shade. See also under Hedges.....		.50
Aureum—(T) Fragrant yellow flowers.....		.50

Rosea—(M) Rose pink flowers.....	.50
Sessilifolia—(M) New yellow flowered variety.....	.75
Varigata—(M) Golden striped leaves with pale pink flowers.....	.75

Ornamental and Shade Trees

The trees listed here are of a very large variety, both in foliage and blossom and the purpose for which they are intended. Among them will be found our mighty elms, oaks and maples for street planting and where a large shade tree is desired. Others are of more moderate growth being beautiful in both flower and foliage; again will be found trees of a dwarf or perhaps weeping habit, or clipped specimens suitable for the formal garden. When selecting a tree it is wise to bear in mind the ultimate height, which is given in brackets with each variety listed.

ACER (Maple).

Platanoides—(40') Compact tree thriving well in cities. 6-8 feet.....	\$2.50
8-10 feet	\$3.50
Platanoides Schwedleri—(Purple Maple) Beautiful purple leaves. 5-6 feet.....	\$3.50
6-8 feet	\$4.50
Saccharinum (Silver Maple)—(40') Fast growing tree for quick effect.....	
6-8 feet	\$1.50
8-10 feet	\$2.50
10-12 feet	\$3.50
Saccharinum Weiri—(40') (Cut Leaf Weeping Maple) Graceful fast growing tree. 6-8 feet.....	\$1.75
8-10 feet	2.50

BETULA (Birch).

Alba—(30') (White Birch) Graceful tree with silvery bark. 6-8 feet	\$2.00
8-10 feet	2.50
Laciniata—(30') (Cut Leaf Weeping Birch) Graceful tree with long weeping branches. 3-4 feet	\$3.50

CARAGANA (Siberian Pea Tree).

Arborescens—(10') Small tree bearing yellow pea-shaped flowers. 5-6 feet	\$1.50

* Dianthus Deltoides—Bright pink flowers all summer.....	.25
* Dianthus Plumarius—Hardy garden pinks, mixed colours.....	.25
* Dianthus Plumarius Mrs. Sinkins—Highly scented, double white.....	.35
DICENTRA (Bleeding Heart).	
* Dicentra Formosa—Feathery foliage, pink flowers ideal for shade.....	.35
Spectabilis—Old fashioned Bleeding Heart.....	.35.
DICTAMNUS (Gas Plant).	
Dictamnus Frarinella—Shrub like growth, large spike rosy red.....	.50
Dictamnus Frarinella Alba—White form of above.....	.50
DIGITALIS (Foxglove).	
Grandiflora—Handsome plant, does well in shade.....	.25
DORONICUM (Leopards Bane).	
Plantagineum—Large yellow daisy like flowers all summer, good cut bloom.....	.25
DRABA (Whitlow Grass).	
* Draba Aeizordes—Dark green hummocks, yellow flowers, early.....	.35
* Draba Brunifolia—Moss like foliage, yellow flowers.....	.35
DRYAS (Mountain Avens).	
* Dryas Octopetala—Choice alpine, anemone like white flowers.....	.50
ECHINOPS (Globe Thistle).	
Ritro—Globular blue thistle like flowers, can be dried for winter decoration...	.25
ERIGERON (Fleabane).	
* Erigeron Alpinus—Small tufted plant, blue daisy like flowers.....	.25
Erigeron Merstham Glory—Almost double, clear lavender blue.....	.35
Erigeron Speciosum—Blue flowers with yellow centre, good for cutting.....	.25
ERIOPHYLLUM.	
Caespitosum—Hoary foliage, bright yellow daisy like flowers.....	.25
ERYNGIUM (Sea Holly).	
Amethystinum—Spiny heads of glistening blue, thistle like foliage.....	.25
EUPHORBIA (Spurge).	
Polycroma—Chrome yellow bracts, ornamental foliage.....	.25
FUNKIA (Plaintain Lily).	
Funkia Caerulea—Dark green leaves, blue flowers, fine for shade.....	.25
* Funkia Media Variegata—Small variegated leaves, mauve flowers.....	.25
Funkia Ovata Marginata—Large bright green margined leaves.....	.25
Funkia Robusta Variegata—Leaves margined white.....	.35
Funkia Sieboldiana—Large leaves, purple flowers.....	.35
Funkia Subcordata (Corfu Lily)—Beautiful white flowers.....	.50
GAILLARDIA (Blanket Flower).	
Gaillardia Grandiflora—Hardy plant, crimson and yellow, flowers all summer.....	.25
* Gaillardia Goblin—Dwarf variety, orange scarlet flowers.....	.25
GALIUM (Bedstraw).	
Galium Boreale—Baby's Breath like flowers of white.....	.25
Galium Verum—Fragrant small yellow flowers, airy foliage.....	.25

GENTIANA (Gentian).	
* <i>Acculis</i> —The choicest alpine of clear blue trumpets.....	.50
* <i>Septemfida</i> —Trailing stems, pointed belles of heavenly blue.....	.50
GALEGA (Goats Rue).	
<i>Bi</i> Color—Handsome foliage, blue and white flowers.....	.25
GERANIUM (Cranesbill).	
* <i>Geranium Sanguinum</i> —Trailing foliage, cerise flowers, does well in shade.....	.25
* <i>Geranium Sanguinum Lancastriense</i> —Smaller form, pale pink flowers.....	.25
GENISTA (Broom).	
* <i>Saggitalis</i> —Creeping masses of foliage, golden yellow pea shaped flowers.....	.50
GEUM (Avens).	
* <i>Sibericia</i> —Pure scarlet flowers, hardy dwarf variety.....	.35
GLOBULARIA (Globe Daisy).	
* <i>Tricosantha</i> —Odd blue daisy like flowers above flat evergreen foliage.....	.25
GILLENIA (Bowmans Root).	
<i>Trifoliate</i> —Graceful border plant, numerous white flowers useful for cut bloom.....	.25
GYPSOPHILA (Baby's Breath).	
<i>Paniculata</i> —Graceful border plant, misty white flowers.....	.25
<i>Paniculata Bristol Fairy</i> —Double white form.....	.50
<i>Paniculata Rosenschleier</i> —Double pink form.....	.50
* <i>Repens</i> —Trailing habits, white flowers, good rock or wall plant.....	.25
<i>Repens Rosea</i> —Trailing pink form.....	.25
HELENIUM (Sneezewort).	
<i>Autumnale</i> —Tall, late blooming plant, soft yellow flowers.....	.25
<i>Hoopesii</i> —Orange yellow, daisy like flowers in spring, very showy.....	.25
<i>Moerheimi</i> —Soft brown red flowers in the fall.....	.25
<i>Riverton Beauty</i> —Yellow flowers with dark centres, tall variety.....	.25
<i>Riverton Gem</i> —Old Gold, shaded bronze and brown.....	.25
<i>Rubrum</i> —Crowded heads of rich copper red bloom.....	.35
HELIANTHEMUM (Rock Rose).	
* <i>Vulgare</i> —Small shrubby plants, mixed pastel shades.....	.25
* <i>Vulgare Boule de Feu</i> —Double scarlet flowers.....	.35
* <i>Vulgare Golden Queen</i> —Single rich yellow.....	.35
* <i>Vulgare Pink Beauty</i> —Lovely single pink.....	.35
HELIANTHUS (Sunflower).	
<i>Rigidus</i> —Tall yellow flowers. Excellent for cutting.....	.25
HELIOPSIS (Orange Sunflower).	
<i>Scabra</i> —Semi double zinnia like flowers in the fall.....	.25
HEMEROCALLIS (Day Lily).	
<i>Hemerocallis Flava</i> —Highly perfumed, soft yellow flowers.....	.25
<i>Gold Dust</i> —Deep yellow and bronze, medium growth.....	.35
<i>Kwanso fl. pl.</i> —Large double orange flowers.....	.35
<i>Kwanso fl pl. variegata</i> —Leaves striped with white.....	.35
<i>Middendorffianum</i> —Short growth, orange flowers.....	.35
<i>Thunbergii</i> —Late blooming variety, clear yellow flowers.....	.25
HERNIARIA (Rupture Wort).	
* <i>Glabra</i> —Emerald green carpeter for crevices or paving.....	.25
HEUCHERA (Coral Bells).	
* <i>Sanguinea</i> —Dainty spikes of coral scarlet on long stems.....	.25
* <i>Pluie de Feu</i> —Brilliant fiery red variety, handsome dark green foliage.....	.35

HIBISCUS (Mallow).	
Palustris—Strong growing plant, enormous flowers in red, pink and white	.35
HIPPOCREPIS.	
* Cosmota—Small trailing plant, yellow pea shaped flowers	.50
HOUSTONIA (Bluets).	
* Coerulea—Dainty little plant for a cool spot. Pale blue flowers	.25
HOLLYHOCKS (Althea).	
Rosea—Tall plants, mixed colors in doubles and singles	.20
HUTCHINSIA.	
* Alpina—Neat dark green foliage, tiny white flowers	.35
HYSSOPUS (Hyssop).	
Officinalis—Woody herb, clips into fine edging or border, blue flowers	.20
IBERIS (Candytuff).	
* Sempervirens—Little shrublet with perennial foliage and white flowers	.25
INCARVILLEA (Hardy Gloxinea).	
* Delavayi—Large trumpet shaped rosy purple flowers, for a choice spot in border or rockery	.35
INULA.	
* Ensifolia—Little bushlets covered with golden yellow daisy like flowers	.25
IRIS (Fleur de Lys).	
Iris Germanica—Flag Iris, mixed colors	.20
Iris Germanica Ambassadeur—Smoky fawn and crimson purple	.25
Iris Germanica Amneris—Purple bi-color	.50
Iris Germanica Alliguippa—Rich yellow	.25
Iris Germanica Allure—Canary yellow overlaid pink	.35
Iris Germanica Alto-California—Strong large yellow	.50
Iris Alice Aileen—Tall mid blue	.25
Iris Germanica Baldwin—Lovely rich blue purple	.35
Iris Germanica Blue Velvet—Rich deep blue	.50
Iris Germanica Clara Noyes "Talisman Rose"—Blend of peach and apricot tones	.35
Iris Germanica Cinnibar—Branching habit, velvety purple, yellow beard	.25
Iris Germanica Coronation—Golden yellow self, fragrant	.25
Iris Germanica Chasseur—Deep sulphur yellow	.25
Iris Germanica Dorothy Deitz—White, pansy violet, and clear blue	.35
Iris Germanica Depute Nombrot—Red and golden, bronze, flushed gold	.35
Iris Germanica Dauntless—Coppery bronze and red, scarlet crimson	.35
Iris Germanica Don Juan—Large bloom, garnet flush brown	.35
Iris Germanica Evolution—Copper and bronze blend	.35
Iris Germanica Egypt—A blend of brown	.50
Iris Germanica Frieda Mohar—Large rose pink	.50
Iris Germanica Flaming Sword—Short growth, brilliant yellow and crimson	.25
Iris Germanica Gudron—The best white to date	1.00
Iris Germanica Germaine Perthus—Rich purple, outstanding color	.25
Iris Germanica Helios—Soft lemon yellow	1.00
Iris Germanica Indian Chief—Large red, of perfect form	.75
Iris Germanica Isolene—Lilac pink, flushed old rose	.25
Iris Germanica Jean Cayeux—Light tan and brown flushed old gold	1.00
Iris Germanica Kathleen Nolton—Large, tall, mid blue	.35
Iris Germanica Labor—Red electric blue sheen	.25
Iris Germanica Magnifica—Large violet blue and reddish violet	.25
Iris Germanica Mary Barnett—Clear blue, yellow beard, beautiful color	.35
Iris Germanica Moonlight—Large silvery white	.25
Iris Germanica Magneta—Striking tone of blue and wine red	.35
Iris Germanica Mount Royal—Huge blooms of violet and purple	.25
Iris Germanica Primrose—Early. Primrose yellow self	.25

Iris Germanica Rheingauperle—Beautiful soft pink.....	.35
Iris Germanica Sensation—Lovely mid blue, self.....	.50
Iris Germanica Silene—Large pure white.....	.50
Iris Germanica Nene—Very large red bi-colour.....	.75
Iris Germanica Sir Michael Foster—Rich blue purple and brown.....	.35
Iris Germanica Taj Mahal—Tall white, or heavy texture.....	.25
Iris Germanica Thais—Large, tall scented rosy pink.....	.50
Iris Germanica True Charm, Plicata—White with blue edges.....	.25
Iris Germanica Tropic Seas—The name describes this very beautiful Iris.....	.50
Iris Germanica Rubio—Beautiful red tone.....	.50
Iris Germanica Wedgewood—Pure blue.....	.25

The price quoted for the above listed Iris are for strong blooming size roots, having a large stock of the better varieties of Iris, we are able to pass this saving on to the customer. We will be pleased to quote on quantity prices.

IRIS PUMILA (Rock Iris).

* Iris Pumila Alba—A lovely creamy white dwarf Iris.....	.25
* Iris Pumila Atroviolacea—Deep purple blue self early and showy.....	.25
* Iris Pumila Aigurea—Another early variety, clear sky blue.....	.25
* Iris Pumila Butea—Clear yellow, large flowers.....	.25
* Iris Pumila Souv. de Chavagnac—Rich reddish purple bloom again in fall.....	.25

IRIS SPECIES.

* Iris Species Arenaria—Tiny yellow Iris for rock garden.....	.25
Iris Species Kampferi—Japanese Iris. Mixed colours.....	.25
* Iris Species Lacustris—A tiny gem, pale lavender blue with yellow beard.....	.35
Iris Species Siberica—Siberian Iris. Slender foliage, blue flowers, a good border plant.....	.25
Iris Species Siberica Alba—Pure white form.....	.25
Iris Species Siberica Emperor—Large deep rich purple.....	.35
Iris Species Siberica Perrys—Blue. Lovely shade of mid blue.....	.35
Iris Species Pseudo-acoris—English Water Iris. Tall sword like foliage, yellow flowers.....	.25
Iris Species Pseudo-acoris—Variegata. Leaves striped white.....	.25
Iris Species Versi-color—Grass like foliage, pale blue flowers.....	.25
* Iris Species Ribra-marginata—Dark red flowers.....	.35

JASIONE (Sheeps Scabious).

* Perennis—Fluffy blue heads of bloom, prostrate growth.....	.25
--	-----

KNIPHOFIA (Red Hot Poker).

Semperflorens—Ornamental plants producing torch like spikes of scarlet flowers.....	.35
---	-----

LAMIUM (Pink Nettle).

* Argentum—Prostrate plant, pink blooms, silvery striped foliage.....	.25
---	-----

LAVENDULA (Lavender).

Vera—True English Lavender, purple fragrant spikes of bloom.....	.35
--	-----

LEONTIPODIUM (Eidelweiss).

* Alpinum—A dainty alpine from the Swiss Alps, grey woolly foliage.....	.25
---	-----

LIATRIS (Blazing Star).

Pychnostachya—Tall stout stems, bold spikes of crimson purple flowers.....	.25
Scariosa—Shorter growth, rosy purple spires.....	.25
Spicata—Showy plant, spires of rosy crimson.....	.25

LINARIA (Toad Flax).

* Alpina—Dainty trailing alpine, pretty blue flowers.....	.35
* Pallida—Creeping prostrate foliage, showy purple flowers.....	.25

LINUM (Flax).

* Alpinum—Prostrate foliage, bright clear blue flowers.....	.25
---	-----

Flayum—Neat bushy habit, rich yellow flowers, all summer.....	.25
Perenne—Show plant, rich blue flowers in continuous bloom.....	.25
LILIUM (Lily).	
Candidum—Madonna Lily. Very fragrant, large white flowers.....	.35
Henryii—Tall stems, bearing twenty to thirty blooms.....	.50
Regale—Large white trumpets, highly fragrant.....	.35
Tigrinum—Old fashioned Tiger Lily.....	.25
Umbellatum—Orange scarlet upright flowers, easy to grow.....	.25
MALVA (Musk Mallow).	
Moschata—Deeply cut foliage, pink and white satiny flowers.....	.25
LUPINUS (Lupin).	
Polyphyllus—Handsome border plant, pea shaped flowers, in all the pastel shades.....	.25
Russebs Hybrids—Glorious new shades of colour.....	.50
LYCHNIS (Campion).	
* Alpinus—Tufty foliage, showy rosy pink flowers.....	.25
Chalcedonica—Upright stems, brilliant scarlet flowers.....	.25
Chalcedonica Fl. Pl.—An improved double form.....	.35
Chalcedonica Alba—White flowers.....	.35
Haageana—Very showy, scarlet crimson flowers.....	.25
* Viscaria Splendens Fl. Pl.—Double cerise majenta carnation like flowers.....	.35
LYTHRUM (Loosestrife).	
Roseum—Useful plant for back of border, rose pink spikes.....	.35
MAZUS.	
* Reptans—Creeping plant for ground cover, purple flowers.....	.25
MONADA (Berganot).	
Didyma—Aromatic foliage, showy scarlet flowers.....	.25
MEGASIA (Saxifraga).	
* Cordifolia—Leathery foliage, showy pink flowers, in spring.....	.35
MERTENSIA (Blue Bells).	
Virginica—Soft blue bells early in spring, good for shade or naturalizing.....	.25
MYOSOTIS (Forget-Me-Not).	
* Perennis—Showy sky blue flowers, does well in sun or shade.....	.30
MATRICARIA (Chrysanthemum).	
Eximia—Close heads of tiny yellow flowers.....	.25
MITELLA.	
* Diphylla—Fine for shade, flat evergreen foliage, spires of white blossom.....	.25
NEPETA (Catnip).	
Mussini—Spreading habit, silver leaves, blue flowers.....	.25
OENOTHERA (Evening Primrose).	
* Mussini—Spreading plant, silvery foliage, blue flowers.....	.25
* Missouriensis—Large yellow flowers, on prostrate stems.....	.25
OPUNTIA (Cactus).	
* Carmanchica—Spiny growth, large yellow flowers.....	.25
PAPAVER (Poppy).	
* Papaver Alpinum—Tiny silvery foliage, dainty flowers in pastel shades.....	.25
Papaver Nudicaule—Iceland Poppy. Mixed colours.....	.30
Papaver Orientale—Very showy, large red flowers.....	.35
Papaver Orientale Olympia—Double salmon scarlet flowers.....	.35
Papaver Orientale Mrs. Perry—Large rich salmon pink.....	.35
Papaver Orientale Perry's White—Beautiful white.....	.35

PENSTEMON (Beard Tongue).

Penstemon Barbatus Toreyii—Graceful spikes of coral scarlet.....	.25
Penstemon Barbatus Coral Gem—Shorter growth, beautiful coral pink.....	.25
Penstemon Barbatus Hybridus—In shades of blue and purple.....	.25
Penstemon Glaber—Prostrate stems, spikes of blue flowers.....	.35
Penstemon Diffusus—Pretty pale purple flowers.....	.25
Penstemon Digitalis—Fox Glove like flowers. Ornamental foliage.....	.25

PAEONY.

Paeony Sinensis—Double peonies to colour red, white and pink.....	.35
Paeony Sinensis Albatre—Large pure white.....	.75
Paeony Sinensis Ducler—Lilac Pink.....	.50
Paeony Sinensis Edulis Superba—Early scented rose pink.....	.50
Paeony Sinensis Fragrans—Fragrant rose red.....	.75
Paeony Sinensis Festive Maima—Huge white, early.....	.75
Paeony Sinensis Kelways Glorious—Large glistening white.....	2.50
Paeony Sinensis Lady Alexander Duff—Delicate pink.....	1.00
Paeony Sinensis Modeste Guerin—Pink Rose Red.....	.75
Paeony Sinensis Marechal Vallient—Very large, red.....	.75
Paeony Sinensis Mons: Bastion Le Page—Huge deep red.....	1.00
Paeony Sinensis Mons: Jules Elie—Huge fragrant silvery pink.....	1.00
Paeony Sinensis Mons: Martin Cahazuc—Dark red purple.....	1.50
Paeony Sinensis Primevere—Very large primrose yellow.....	1.00
Paeony Sinensis Rubra Plena—Early, dark red.....	.50
Paeony Sinensis Sarah Bernhardt—Fragrant, rich pink.....	1.00
Paeony Sinensis Solange—Very late, pink flushed amber.....	.75
Paeony Japanese—Single flowering peonies in red, pink and white.....	.35
Paeony Japanese No. 1—Single, dark red, yellow centres.....	.75
Paeony Japanese No. 2—Single, medium rose red.....	.75
Paeony Japanese No. 3—Single, clear bright pink.....	.75
Paeony Japanese No. 4—Single, white.....	.75
Paeony Japanese No. 5—Single, creamy white.....	.75
Paeony Tenulifolia—Feathery foliage, deep red flowers.....	.75

PHYSALIS (Chinese Lantern).

Francheti—Large red lantern like fruits used for winter decorations.....	.25
--	-----

PHLOX.

Paniculata—Well known border plant and mixed colours.....	.25
Phlox Paniculata Apple Blossom—Large salmon pink, crimson centre.....	.50
Phlox Paniculata Amadis—Huge pips, amaranth purple.....	.35
Phlox Paniculata Antonin Mercier—Clear lavender, large white eye.....	.35
Phlox Paniculata Baron Von Dedem—Brilliant orange scarlet.....	.50
Phlox Paniculata Border Gem—Deep violet blue.....	.35
Phlox Paniculata Erides Maid—Tall white, crimson centre.....	.35
Phlox Paniculata Coral Rose—Brilliant coral rose.....	.35
Phlox Paniculata Coquelicot—Tall brilliant orange scarlet.....	.35
Phlox Paniculata Commander In Chief—Fiery carmine.....	.35
Phlox Paniculata Comte Von Hochberg—Large dark crimson, late.....	.50
Phlox Paniculata Crepuscle—Silvery mauve brilliant carmine eye.....	.35
Phlox Paniculata Daily Sketch—Large trusses of salmon pink.....	.50
Phlox Paniculata Eclairer—Rich carmine red, early.....	.35
Phlox Paniculata Elizabeth Campbell—Dwarf, salmon rose.....	.50
Phlox Paniculata Europea—Snow white crimson centre.....	.35
Phlox Paniculata Eva Foerster—Salmon pink, white eye.....	.35
Phlox Paniculata Firebrand—Fiery orange scarlet.....	.50
Phlox Paniculata Goliath—Huge rose red.....	.35
Phlox Paniculata Gen. Von Heutz—Enormous trusses (salmon red).....	.35
Phlox Paniculata Graff, Zeppelin—Large truss, white small pink eye.....	.35
Phlox Paniculata Hanny Pflaiderer—White suffused crimson.....	.35
Phlox Paniculata Hollander—Fiery scarlet, dark stems.....	.50
Phlox Paniculata Jules Sandeau—Large truss, rich pink.....	.35
Phlox Paniculata Leo. Schlageter—Brilliant carmine scarlet.....	.50
Phlox Paniculata Marie Jacobs—Lilac pink, white eye.....	.35

Phlox Paniculata Mrs. Ethel Pritchard—Huge flowers, blue mauve.....	.35
Phlox Paniculata Mrs. Jenkins—Tall pure white.....	.35
Phlox Paniculata Mrs. Scholten—Large cherry rose.....	.50
Phlox Paniculata P. D. Williams—Large pink, carmine eye.....	.35
Phlox Paniculata Professor Went—Brilliant amaranth purple.....	.35
Phlox Paniculata Rose Eclairer—Beautiful rose pink, white centre.....	.35
Phlox Paniculata Rosenburg—Rich majenta crimson.....	.35
Phlox Paniculata Rhinelander—Large salmon rose, dark eye.....	.35
Phlox Paniculata Rynstrom—Rich clear rose.....	.35
Phlox Paniculata Richard Wallace—White, reddish purple eye.....	.35
Phlox Paniculata Sinbad—Short growing, lavender blue.....	.35
Phlox Paniculata Tapis Blanc—Good white.....	.35
Phlox Paniculata Undine—Huge trusses, violet blue.....	.35
Phlox Maculata—Short growth, pointed spikes, violet pink.....	.35
Phlox Suffruticosa Miss Lingard—Early, glistening white.....	.35
* Phlox Amoena—Beautiful rock plant, heads of brilliant rose red.....	.25
* Phlox Divaricata—Loose heads of pale blue, early.....	.25
* Phlox Stolonifera—Trailing variety, rose pink flowers on long stems.....	.25
* Phlox Subulata—Moss pink, mats of foliage, pink flowers.....	.25
* Phlox Subulata Alba—Showy white, early variety.....	.25
* Phlox Subulata Apple Blossom—The name describes this one.....	.25
* Phlox Subulata Brightness—Vivid pink, darker eye.....	.25
* Phlox Subulata Daisy Hill—Large rose pink.....	.25
* Phlox Subulata Fairy—Pinkish lavender, taller growth.....	.25
* Phlox Subulata G. F. Wilson—Large pale mauve.....	.25
* Phlox Subulata Leuchtstern—Salmon pink.....	.25
* Phlox Subulata Sunningdale Red—Brilliant deep red.....	.25
* Phlox Subulata Vivid—The gem of the race, brilliant pink.....	.50

PHYSOSTEGIA (Obedient Plant).

Physostegia Virginica—Upright spikes of pink snapdragon like flowers.....	.25
Physostegia Virginica Rosey Spires—Brilliant rosey red.....	.25
Physostegia Virginica Vivid—Dwarf variety, brilliant rosey purple.....	.25

PLATYCODON (Balloon Flower).

Platycodon Grandiflorum—Large campanula like blue flowers.....	.25
Platycodon Grandiflorum Album—Showy white.....	.25

POLEMONIUM (Jacobs Ladder).

Polemonium Caeruleum—Panicles of soft blue flowers, attractive foliage.....	.25
* Polemonium Reptans—Beautiful clear blue, early, does well in shade or sun.....	.25
* Polemonium Humile—Slender foliage, lovely clear blue.....	.25

POLYGONATUM (Solomons Seal).

Polygonatum Multiflorum—Graceful plant for shady spot, white waxy flowers.....	.25
--	-----

POTENTILLA (Cinguefoil).

* Potentilla Tonguei—Beautiful plant, crimson apricot flowers.....	.35
--	-----

PRIMULA (Primrose).

* Primula Auricula—Satiny flowers, yellow to deep crimson.....	.35
* Primula Acaulis—English Primrose, yellow flowers.....	.25
Primula Denticulata—Large heads of lilac purple.....	.35
* Primula Frondosa—Dainty plant, mealy foliage, purple flowers.....	.35
Primula Japonica—For moist spot or bog garden, flowers in crimson whorls.....	.35
* Primula Juliae—Prostrate foliage, purple red flowers.....	.35
* Primula Juliae Crispa—Larger foliage, reddish purple flowers.....	.35
* Primula Juliae Mrs. King—Violet purple flowers.....	.35
* Primula Juliae Wanda—Large blue purple flowers.....	.35
* Primula Suaveolens—English Cowslip. Nodding heads of yellow flowers.....	.25
* Primula Vulgaris Polyanthus—Yellow, crimson scarlet.....	.25

PULMONARIA (Lungwort).

Pulmonaria Saccharata—Good plant for shade, spotted foliage reddish purple flowers.....	.25
Pulmonaria Mrs. Moon—Beautiful blue form.....	.25

PYRETHRUM (Painted Daisy).

Pyrethrium Roseum—Fern like foliage, long stemmed daisy like flowers excellent for cutting25
Pyrethrium Roseum Aphrodite—Double pure white.....	1.00
Pyrethrium Roseum E. M. Robinson—Glistening silvery pink large blooms....	.75
Pyrethrium Roseum Harold Robinson—Single crimson red.....	.75
Pyrethrium Roseum Captain Nares—Double red.....	1.00
Pyrethrium Roseum James Kelway—Long stem crimson75
Pyrethrium Roseum Lord Rosebury—Lovely velvety dark crimson, double.....	1.00
Pyrethrium Roseum Queen Mary—Large double pink	1.00
Pyrethrium Uglinosum—Tall single white daisy like flowers.....	.25

RANUNCALUS (Crowfoot).

Ranuncalus Acris fl. pl—Double golden yellow flowers25
--	-----

RUDBECKIA (Cone Flower).

Rudbeckia Newmanii—Black Eyed Susan. Yellow flowers with brown discs25
Rudbeckia Purpurea—Purple flowers, hard centre cones.....	.25

ROSA (Rose).

Rosa Rouletti—Profusion of rose pink flowers all summer. Fine for rock-garden50
---	-----

SALVIA (Sage).

Salvia Officinalis—Garden herb, grey leaves, used for seasoning.....	.25
--	-----

SANTOLINA (Cotton Lavender).

* Santolina Incana—Fine grey foliage, useful for edging borders25
---	-----

SAPONARIA (Soapwort).

* Saponaria Ocymoides—Trailing plant, showy pink flowers25
--	-----

SATUREA (Savory).

Montana—Shrubby heather like growth white flowers25
---	-----

SAXIFRAGA (Rockfoil).

* Saxifraga Aeizoon—Silvery foliage, creamy white flowers25
* Saxifraga Aeizoon Rosea—Pink flowered form25
* Saxifraga Longifolia—Large rosettes, white flowers35
* Saxifraga Mossy—In several varieties.....	.25
* Saxifraga Umbrosa—London Pride. Flowers white and pink35

SCUTELLARIA (Skull Cap).

* Alpina—Prostrate leafy foliage, hooded flowers (purple).....	.35
--	-----

***SCABIOSA (Pin Cushion).**

Scabiosa Caucasica—Flowers lovely shade of lavender, excellent for cutting ..	.25
Scabiosa Ficheri—Very outstanding, rich dark lavender35
* Scabiosa Graminifolius—Fine grassy foliage, rosy lavender flowers35

SEDUM (Stonecrop):

* Sedum Acre—Masses of green foliage, golden flowers25
* Sedum Anacampseros—Trailing glaucous stems, pink flowers25
* Sedum Aeizoon—Bright green foliage, yellow flowers.....	.25
* Sedum Album—Mat forming, white flowers25
* Sedum Brevifolium—Tiny bronze foliage, white flowers25
* Sedum Dasyphyllum—Small silvery foliage, white flowers35
* Sedum Ewersii—Round grey foliage, pink flowers25
* Sedum Hybridum—Handsome foliage, rich yellow flowers25
* Sedum Glaucum—Mats of blue grey foliage25
* Sedum Kamschaticum—Trailing habit, orange yellow flowers25
* Sedum Kamschaticum Varigatum—Leaves striped golden yellow25
* Sedum Lydium—The best of the race, and tiny25
* Sedum Murale—Bronze foliage, tiny white flowers25
* Sedum Middendorffianum—Very attractive foliage, yellow flowers25
* Sedum Nevii—Tiny rosettes and white flowers25
* Sedum Obtusatum—Thick blunt bronze foliage25
* Sedum Populifolium—Quaint shrubby growth, aromatic35

* <i>Sedum Pruniatum</i> —Clustered foliage, yellow flowers.....	.25
* <i>Sedum Pulchellum</i> —Emerald green foliage, pink flowers.....	.35
* <i>Sedum Scopoli</i> —Plump grey green leaves, yellow flowers.....	.25
* <i>Sedum Sexangulare</i> —An improved acre.....	.25
* <i>Sedum Spectabile</i> —Brilliant crimson heads of bloom.....	.25
* <i>Sedum Spurium</i> —Round flat leaves, crimson flowers.....	.25
* <i>Sedum Stoloniferum</i> —Trailing stems, majenta pink flowers.....	.25
* <i>Sedum Seiboldi</i> —Trailing grey foliage, pink flowers.....	.35
* <i>Sedum Seiboldi Variegatum</i> —Variegated foliage.....	.35
* <i>Sedum Ternatum</i> —Low evergreen foliage, white flowers.....	.25
SEMPERVIVIUM (House Leek).	
Ten of the best varieties for rock work.....	.25
SENECIO (Groundsel).	
<i>Clevorum</i> —Good plant for bog garden, large yellow flowers.....	.25
* <i>Senecio Tyrolensis</i> —Tufts of fern like foliage, yellow flowers.....	.25
SIDALCEA (Rose Mallow).	
<i>Sidalcea Rose Queen</i> —Bold spikes rose pink flowers, for border or bog garden.....	.25
SILENE (Catchfly).	
* <i>Silene Acaulis</i> —Mounds of mossy foliage, rose pink flowers.....	.25
* <i>Silene Alpestris</i> —Fl. Pl. Double white, button like flowers.....	.25
* <i>Silene Schafta</i> —Large rosy pink flowers in autumn.....	.25
SISYRINCHIUM (Satin Flower).	
<i>Bermudianum</i> —Grass like foliage, deep blue flowers.....	.25
SPIREA (Meadow Sweet).	
<i>Spirea Aruncus</i> —Stately tall plant, bold creamy white plumes.....	.25
<i>Spirea Filipendula</i> —Fern like foliage, creamy white flowers on long stems.....	.25
<i>Spirea Ulmaria</i> —Fl. Pl. Double creamy white flowers.....	.25
<i>Spirea Venusta</i> —Large plumes of bright rosy pink flowers.....	.25
STACHYS (Lambs Ear).	
<i>Lantana</i> —Attractive wooly foliage, for a dry spot.....	.25
STATICE (Sea Lavender).
