Ride in Safety

Adjustments on Tires are made on the basis of mileage given.

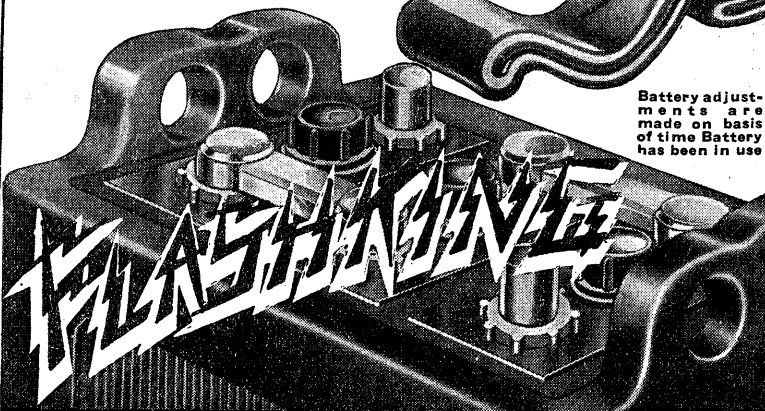

**INVEST IN HIGH-GRADE TIRES!
Don't Speculate, It's Dangerous—BUY HERCULES!**

Manufacturers can produce tires at any price we stipulate—we could get lower-priced tires—they would look good, but they would not give service and would be dangerous from the moment you put them on your car. Ride in safety. Equip all-round with Hercules. They meet the strain imposed by powerful high-speed motors and the wear and tear of quick starting and stopping. Good for every mile and more of the generous guarantee.
