Introduction

We, the publishers, take pride in presenting, completely revised, with hundreds of new streets and thousands of new listings . . . .

The fourth (1961) edition of our

TORONTO WEST & NORTH-WEST SUBURBAN DIRECTORY

Containing . . . .

- **A STREET SECTION**

  Name and phone number at each address.

- **A " WHO-CALLED-ME ? "**

  Phone numbers listed alphabetically by exchange and numerically by number with resident's name opposite phone number.

  (See explanatory notes at start of each section)

The above directory, coupled with its "twin" for the EAST and NORTH-EAST Suburban areas and the "parent" Toronto City Directory complete the family of Might's publications which now provide directory coverage to the borders of "Metro" and beyond into the fringe areas.

FOR THE INFORMATION OF THE USER

- See front fly-leaf for map indicating area covered by this directory. All streets recorded on our files up to press date are listed alphabetically A to Z for quick reference.

- The street name appears at the head of each street listing with the latest postal information shown immediately to the right on the same line as the street name. Where a *long street* runs through *several postal areas,* the postal information is shown in one of two ways (depending on the nature of the street):

  1. By listing separately all sections of the street showing postal information at the head of each section. (See listings for MARTIN GROVE RD. for example).

  2. By listing immediately beneath the street name the several postal areas through which that street runs. (See listing for MONTANA Ave. for example).

- Below the street name and postal information, commence the individual listings for occupants on the street showing street number (if one exists), name and phone number. The odd-numbered side of the street is shown first, followed by a space and then the listings for the even-numbered side. Where no street number is available, such listings are grouped together alphabetically by individuals' names and placed at the front of the street *before* the numbered listings start. (In some cases it has been possible to determine the proper sequence of listings without a street number and these have been sorted in accordingly).

SEE OVERLEAF FOR GUIDE TO POSTAL ADDRESSING.

PLEASE NOTE CORRECT FORMS OF POSTAL ADDRESS TO AREAS SHOWN IN THIS STREET DIRECTORY:

(WE STRESS THE IMPORTANCE OF FOLLOWING THE POSTAL DIRECTIONS OUTLINED BELOW PARTICULARLY WITH REGARD TO TORONTO POSTAL ZONE NUMBERS. THESE NUMBERS ASSURE FAST AND EFFICIENT MAIL DELIVERY AND SHOULD BE CONSIDERED A NECESSARY PART OF THE ADDRESS.)

(A) Where the numbered postal zone is indicated:

JOHN C. SMITH
24 Pember Drive
TORONTO 15, ONTARIO

(B) Where rural mail delivery is indicated in conjunction with a street name:

JOHN C. SMITH
7 Stanley Road
R.R. 2
WESTON, ONTARIO

(C) Where rural mail delivery is indicated but no street name exists:

R.R. 1

(D) Where only the area post office is indicated and no street name exists:
