3 GASOLINES

for

3 Demands

1 WHITE ROSE GASOLINE

the pure, easily vaporized, clean burning fuel, famous with motorists for its high quality. It gives better car performance, lowered upkeep, and costs less per mile.

2 The New CANADIAN ETHYL Anti-Knock GASOLINE

for High Compression Motors

3 RED SEAL GASOLINE

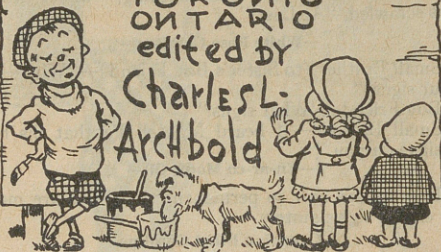

a popular price fuel—and none better at the price.

Watch the Signs

*Empty tanks so oft remind us,
We should fill 'em ere we pass
Up the Boy and Slate behind us,
Where they're selling White Rose Gas.*

—White Rose Gasoline—

A banana skin on the sidewalk is the sign of an early fall.

—En-ar-co Motor Oil—

Girls paint and some make signs.

—Canadian Ethyl Gasoline—

Sign in restaurant—"Lettuce with 100,000 islands dressing."

—En-ar-co Gear Lubricant—

A deaf and dumb person may make signs, but can't sell them.

—Red Seal Gasoline—

The sign that frightened Willie—"Let Us Tan Your Hide."

—Which reminds of the sign—

“Ladies Ready to Wear Clothing,” under which was scrawled, “At Last!”

—White Rose Gasoline—

Small Brother (to Sister's Boy Friend)—“Where are your signs?”

Boy Friend—“What signs?”

Small Brother—“I heard Ma tell Pa that Sis had designs on you.”

—En-ar-co Motor Oil—

Detours are now so permanent that signs are made by expert sign painters.

—Canadian Ethyl Gasoline—

Sign on newly-established young lawyer's office door read—

Back in $\frac{1}{2}$ hour.

Some one added the line—

What For?

—Red Seal Gasoline—

Diner—“Why the sign—‘No tipping’?”

Waiter—“As a reminder not to forget to.”

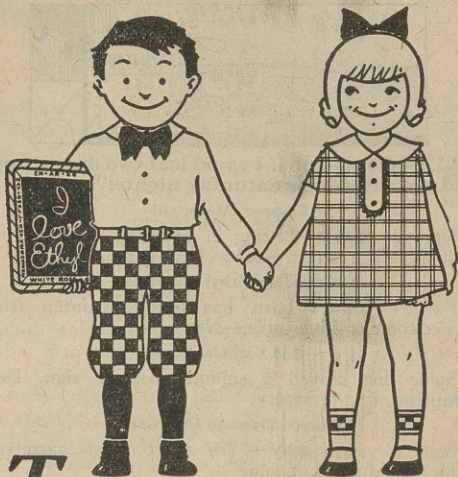

—En-ar-co Pressure Gun Grease—

Sign in fruit store—“Cantaloupes were 20c., now 10c.—Pretty soft for you.”

—En-ar-co Gear Lubricant—

Sign in drug store—“If you don't use our soap—then use our perfume.”

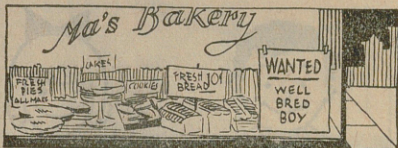

The Boy and Slate Has a New Girl-friend

THE big schoolboy has for many years been a guide for exacting motorists in buying gasoline. He has pointed the way to White Rose Gasoline, recognized for its purity, its quick starting, its clean burning, its dependable power.

Now to the famous En-ar-co Family is added Canadian Ethyl—it has all the goodness, the better performance, the low-cost-per-mile economy features; plus the Anti-knock advantages of Ethyl.

Canadian Ethyl fills a real need of motorists, especially those whose cars have the new high compression motors; never before have they been able to attain such Quality and Service in an Ethyl gas. And—good news—Canadian Ethyl costs no more than other Ethyl gasolines.

So drive in at the sign of the Boy and Slate. Fill up on this better anti-knock gasoline. You'll get a new thrill from your car.

"I'd take the job if I could loaf two days a week and get my dough Saturday nights."

—En-ar-co Motor Oil—

Sign on garage—"Bring in your car, let us prove that there is a better place to have it repaired."

—Canadian Ethyl Gasoline—

Farmer Jones's barn has been repainted from Nerve tonic to Liver pills.—News Item.

—Red Seal Gasoline—

Some one moved a summer cottage sign, Dew Drop Inn, to a cemetery.

—En-ar-co Pressure Gun Grease—

Sign in speak-easy—"We can't trust ourselves. Why should we trust you?"

—White Rose Gasoline—

Sign above soda fountain—"Take home a brick. You may have company."

—En-ar-co Motor Oil—

"Pies like mother used to make before she took to bridge and cigarettes," appeared on a bakery window sign.

—Canadian Ethyl Gasoline—

"We aim to please," read sign in small store. Some one added—"But you're poor shots."

—En-ar-co Gear Lubricant—

Suggested sign for dealer in glass eyes—"New lamps for old."

Here's The Place to SIGN

Bridge Score Pad—FREE

Containing 30 sheets, each perforated, so that they can be readily removed from pad without spoiling the appearance.

The pad is bound in a beautiful and attractive cover giving it a book appearance.

or you can have

Auto-Checker Game—FREE

On one side—is a new, modern checkerboard (but we do not supply checkers).

On other side—is the famous En-ar-co Auto Game—a game that two, three or four can play. Children will enjoy it.

The Oil of a Million Tests

It withstands the greatest heat any motor will develop, always retaining its cushioning properties. Prevents friction and insures a smooth-running motor. Has greatest adhesive qualities.

En-ar-co Motor Oil forms a perfect seal between rings and pistons, between pistons and cylinder walls. Gasoline cannot penetrate this seal and get down into the crank case to destroy the oil. Surplus oil cannot get past this seal to form carbon on valves and spark plugs.

Bill—"Don't you see that sign? It says—Stop,
 Look and Listen."

Jim—"Aw, gee, I've heard trains before."

THE EN-AR-CO ATOMIZER For Power Plant Lubrication

Efficient and economical interior lubrication of steam valves and cylinders requires complete atomization of the lubricating oil.

The En-ar-co Atomizer (acts similarly to carburetor on your automobile) used with En-ar-co Valve oil will:

Reduce Oil Consumption
Reduce Fuel Consumption
Increase Efficiency

Let our lubricating engineers tell you more about it without obligation on your part. No industrial plant is too large or too small but what there is a place for En-ar-co lubricants.

(Like those odes of Keats' and Lamb's)
Monuments of his endeavor,
They are tombstone epigrams.*

Steer With One Finger!

It's easy when bearings and bushings are thoroughly lubricated with En-ar-co Pressure Gun Grease. Spring shackles greased regularly make any car "easy riding." And don't forget the clutch bearing—the universal joints and other important parts "out of sight" underneath your car.

En-ar-co Pressure Gun Grease

is the best lubricant for all chassis lubrication. It is of proper body to get to the points where lubrication is needed. Prevents rattles—prevents squeaks—prevents trouble!

En-ar-co Gear Lubricant

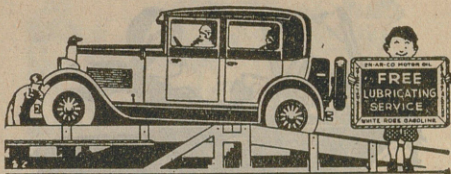

**Clings and Keeps a Cushion
of Lubricant on Gear Teeth**

En-ar-co Gear Lubricant is built with the clinging qualities that cause it to follow the train of gears to the point of contact, where each gear meshes with its mate, forming a heavy, soft lubricating cushion between the faces of the gear teeth while in mesh, and thus eliminating noise and frictional wear.

When a cheap, soft, soapy lubricant is used, it runs thin, does not stick to the metal, cakes or channels, and gives no protection.

**FOR TRANSMISSION AND DIFFERENTIAL
USE EN-AR-CO GEAR LUBRICANT**

Sold at service stations and at dealers in 5 lb., 10 lb. and 25 lb. tins. Order direct if your dealer cannot supply you.

Let Us Give Your Auto A Thorough Greasing

Our experienced men with high pressure guns will force En-ar-co Pressure Gun Grease to all lubricating points on the chassis of your car, taking out any squeaks and giving all working parts the freedom they should have.

Don't Overlook
Transmission and
Differential.

It's just as important that they be filled to the proper level with

En-ar-co Gear Lubricant

as it is to have oil in your motor. Let our men do this messy job for you.

Let Us Change Your Oil

Draining out the old oil that has accumulated dust through breather pipe and small metal particles from bearings and other motor parts. We'll refill with

En-ar-co Motor Oil

When a car leaves our racks, lifts or pits you will have a thorough lubricating job, a job that will please you.

We make no charge for service. We charge only for lubricants used.
